

Origins
of
Biblical Hebrew

29 The next day he saw Jesus coming toward him, and said, "Behold, the Lamb of God, who takes away the sin of the world!"

John 1:29, NKJV

This work and its central message are not my own, neither is my life my own.

Today, my heart is to share this work with the world, and to GLORIFY my King, Saviour, and Friend, Jesus who is the Chief Architect, Builder, and Creator.

16 For by Him all things were created that are in heaven and that are on earth, visible and invisible, whether thrones or dominions or [a]principalities or powers. All things were created through Him and for Him.

Colossians 1:16, NKJV.

The Exodus route and various Biblical locations **cannot** be determined and interpreted in the **greater Biblical context** without the details of the life, ministry, and anointing of **Jesus**.

As I was praying today about this work and committing it to the LORD, asking Him to lead and guide me, I saw people walking as if to gather at some location, on a type of “pilgrimage”.

I saw the learned, the elderly with grey hair, those educated who have been seeking for truth and closure. I sensed that the intent and purpose of this was to claim and grow in the knowledge of the inheritance we have been given in the faith.

So, I speak this forth in the Spirit today, and acknowledge the LORD in this work, that His plan and purpose will come to pass:

For the earth will be filled with the knowledge of the glory of the LORD, As the waters cover the sea.
Habakkuk 2:14, NKJV.

If this work has impacted your life, feel free to write and share.

1 Aim

1.1 The Aim of this work

The primary aim of this work is to show the likely relatedness between letters of the Biblical Hebrew alphabet and the pattern shown Moses on the mountain (Exodus 25:40, Hebrews 8:5). (The details and generation of the pattern itself is not covered herein, but is used in this work).

Each Hebrew letter, examined in the greater Biblical context, contains a wealth of information **the extent and depth of which is beyond the scope of this work**. A brief summary is given here for each letter. More information will most likely surface after more research.

The results of this work can be used as a basis for further work and research.

NOTE: *The relationship between the composite pattern and the letters of the Hebrew alphabet was **my own discovery**, I have not seen this apparent relationship or connection in any literature, either written or online. Hence, it gives me **great pleasure to share** these findings with all believers, for the glory of my Saviour, Jesus.*

2 Method

2.1 General Approach

The pattern is used to derive as far possible the letters of the Hebrew alphabet using the Dead Sea Scrolls (in particular, the Great Isaiah Scroll) and the online Bible Hub Websites.^{1,5,6}

A template of the general composite pattern is replicated and used as a template for the generation of each Hebrew letter.

The general form and shape of each Hebrew letter is developed based on the various sources consulted and the final proposed forms of each letter is presented.

3 Analysis

3.1 Sources of Information

The overarching question is the following:

“Do the Hebrew letters form part of a pattern or make up a pattern and if so, what does that pattern look like?”

The Hebrew letters may convey information additional about the menorah, cross, Star of David, and other points.

Many “replicas” and types of the Biblical menorah have been constructed over the centuries and perhaps we will never know what the Biblical menorah looks like. The aim here is not to

reproduce the original, but to use various sources to construct the letters of the Hebrew alphabet which fits the Biblical description as far as possible and which relates to the pattern.

The following sources are used for guidance:

1. The Bible.
2. The pattern (or composite geometry of the cross, menorah, Star of David).
3. The Dead Sea Scrolls.
4. The geography and topography with respect to places, regions, and events mentioned the Bible. Google Earth, Websites, and other sources are used here.
5. Guidance from the Holy Spirit.
6. The shape, meaning, and etymology of the Hebrew letters.
7. Information found in other sources such as books, articles, Internet, etc.

3.2 Early forms of Writing

It is generally accepted that the oldest form of writing in the Fertile Crescent is cuneiform which dates back to about 3300 B.C and is thought to have emerged somewhere in Mesopotamia or modern-day Iraq, probably in or around Sumer.² Egyptian Hieroglyphic writing is thought to have developed around 3200 B.C.

The original cuneiform was in the form of pictures or pictographs depicting a single word (e.g.: ox, orchard) and later developed to include phonetic symbols for sounds. Cuneiform was used by the Hittites, Persians, ancient Iranians, and the Hurrians.² The writing of cuneiform was not commonplace in ancient times, but practiced mainly by skilled scribes and those entrusted with recordkeeping.²

During the time Abraham was in Mesopotamia, the Sumerians who had probably devised cuneiform, were already well established and acquainted with various forms of building and architecture. However, the Amorites, a Semitic people, controlled the region and ruled as the first Babylonian dynasty. The ancient city of Ur, where Abraham hailed from (Genesis 11:31), was a Sumerian city.²

The Babylonians worshipped many gods and Abraham and his family may have encountered many deities, cultures, and religions before, during, and after the journey from Ur of the Chaldeans to Shechem (Genesis 12:6).

It is important to understand that due to the geographic location of the land of Canaan (which later became Israel), Israel had always been an intersection of cultures. Canaan was heavily influenced by its neighbours (e.g.: Egypt) and various archaeological finds – kept in museums in the Holy Land – bear witness to this point.

The story of Genesis 12 describes a new season in Abraham's life, a season where God set His plan in motion to bring forth a nation from a man of faith. Abraham was instructed by God to leave his country, family, and father's house (Genesis 12:1), which could suggest that it was not God's intention that he followed the pagan gods, customs, cultures, and religious mindsets he was used to.

3.3 Early Hebrew

3.3.1 Abraham and the Hebrew Language

The spoken and written form of a language forms an integral part of culture and race. It may be reasoned that God didn't want Abraham to adopt the writing which he was familiar with from the land of his birth because He wanted to perform a new thing through Abraham which involved a new nation, worship, sacrifice, communication, teaching, and inheritance:

Now the Lord had said to Abram:

***“Get out of your country,
From your family
And from your father's house,
To a land that I will show you.
I will make you a great nation;
I will bless you
And make your name great;
And you shall be a blessing.
Genesis 12:1-2, NKJV.***

The words “*get out*”, “*from*”, and “*to a*” in this passage strongly suggest a radical and definite change which was to take place in Abraham's life. The change was also signified in Abraham being identified as the “*Hebrew*” (Genesis 14:13). This is the first use of the term Hebrew in the Bible and may have been used to signify the fact that Abraham had “crossed over”.

Evidently, Abraham's genealogy given in Genesis 11, indicate that he was chosen by God in his generation and that God had purposed from the very beginning to bring about His plan of salvation through Abraham's lineage. It is therefore highly likely that Abraham had knowledge of his ancestors, such as Peleg, Shem, and Noah which could have been passed down through the generations.

The question is, “What language did Abraham speak and write?” Abraham was probably fluent in the languages of Ur and Babylon because he came from that region. He may also have understood certain aspects about the “*one language*” which was spoken prior to the time of the Tower of Babel (Genesis 11:1-3) due to family traditions, customs, and cultures passed down through his ancestry, possibly in the form of story-telling or oral tradition.

Considering that God appeared to Abraham (Genesis 12:7) and established His covenant with him and his descendants (Genesis 17:7,8) it is seen that Abraham heard directly from God (a single God) who led and guided him in the way he should go. He probably had little need to write down law or teaching on clay or stone as God worked predominantly through his faith and his belief in Him. By the same token, Abraham probably had little need to communicate either vocally or written with the Canaanites, Egyptians, or Babylonians. He probably passed on certain Biblical oral customs and traditions, including of the family stories and tales to his children, but probably didn't share with outsiders or foreign peoples.

Abraham sought a wife for his son Isaac from the land of his family (Genesis 24:4). The Bible makes it very clear that Abraham avoided taking a wife for his son from the lands of the Canaanites (Genesis 24:3). This serves as further proof that Abraham did not want his family to intermarry with or learn the ways of the Canaanites. He was probably able to communicate with the Canaanites, but the Bible seems to suggest that Abraham would probably not have considered writing the Canaanite languages on clay or stone tablets as a form of recordkeeping, family tradition, and communing with God.

3.3.2 Hebrew Language Origins

The earliest known Hebrew writing dates back to around 3000 years ago.⁴ Today many believe that Hebrew has not changed very much since ancient times.

Hebrew is currently understood to originate from the West Semitic branch of Afroasiatic languages. Hebrew was a spoken language in ancient Israel and Judah during about 1200 BCE to 586 BCE.⁴

There are four main periods covering the history of the Hebrew language: Use of Biblical Hebrew extended up to about the 3rd century BCE (and probably extinct up to about the 7th century CE), after which it was overshadowed by Aramaic; however, it continued to be used in worship, prayer, learning, and literature (which is probably why it was kept). Hebrew was later revived as a spoken language in the 19th and 20th centuries.⁴ A large portion of the Old Testament, including the Hebrew Bible, was written in Biblical Hebrew.⁴ It is believed that some words of Biblical Hebrew were borrowed from Canaanite and Sumerian languages.

Rabbinical Hebrew, written around 200 BCE (Mishnaic period), is another form of Hebrew which was not used as a spoken language.⁴ During this period, various nouns were borrowed from Aramaic.

Medieval Hebrew (6th to 13th century CE) includes many borrowed words from Greek, Spanish, Arabic, and other languages.⁴ During this period, many terms were added, new meanings added to old words, and old roots were given new uses.⁴

Hebrew was eventually revived as a spoken language in the late 19th century.

Hebrew is written from right to left and the Hebrew alphabet consists of 22 letters. Originally Hebrew consisted of only consonants. The Masoretes (Jewish scribe-scholars who worked around the end of the 5th to the 10th centuries A.D.) introduced diacritical marks in the 7th century CE which represented vowels and other phonological information.⁴

3.3.3 Ancient Records of the Hebrew Language

3.3.3.1 *The Dead Sea Scrolls*

The Dead Sea Scrolls are dated to the period 300 BCE to 100 BCE. and some scholars believe that the Law of Moses was given at Mount Sinai around 1446 BCE, which puts the Isaiah Scroll at over 1000 years old by comparison.^{1,5}

It is known that the Essenes, a Jewish sect, lived on the shores of the Dead Sea (and near Jericoh) and were considered descendants from the ancient high priests.²

The Great Isaiah Scroll is amongst some of the oldest findings of Qumran, where the scrolls were found. These scrolls are considered one of the original findings at Qumran in 1947. The Great Isaiah Scroll in particular, is the best preserved and the oldest of all the biblical scrolls, and the only one that is almost complete.^{2,5}

The Great Isaiah Scroll reveals clues to ancient Hebrew in the form of spelling and pronunciation, especially in the Second Temple Period (586 B.C. – 70 A.D., Isaiah himself, dating from the time of the First Temple, around 700 BC). It is considered consistent with the messianic beliefs of the people who were living in Qumran at the time.^{1,2,5}

3.3.3.2 *The Nash Papyrus*

The Nash Papyrus fragment is dated to between 200 BCE and 101 BC. The fragment contains the Ten Commandments and portions from the book of Deuteronomy. The Nash

Papyrus was considered the oldest known Hebrew manuscript prior to the findings of the Dead Sea Scrolls.³

3.3.3.3 *The Cairo Genizah*

The Cairo Geniza is a collection of around 400,000 Jewish manuscript fragments and other documents that were kept in a store room of the Ben Ezra Synagogue in Old Cairo, Egypt. The documents cover a significant period of time (around the 6th to the 19th century A.D.) and involve Middle-Eastern and North African Jewish history.

3.4 The Hebrew Alphabet

Psalms 119 contains 22 stanzas of eight verses each, which follow the 22 letters of the Hebrew alphabet in sequence. The first word of each verse begins with the same letter to which the entire stanza corresponds.⁷ Psalm 22 is covered briefly in this section from the point of view of identifying as far as possible the shape of the letters of the Hebrew alphabet.

The New King James Version (NKJV) Bible (Psalm 119) lists 22 Hebrew letters in the following order (numerical values assigned to these letters are indicated in brackets):

1. Aleph (1).
2. Beth (2).
3. Gimel (3).
4. Daleth (4).
5. He (5).
6. Waw (6).
7. Zayin (7).
8. Heth (8).
9. Teth (9).
10. Yod (10).
11. Kaph (20).
12. Lamed (30).
13. Mem (40).
14. Nun (50).
15. Samek (60).
16. Ayin (70).
17. Pe (80).
18. Zade (90).
19. Qoph (100).
20. Resh (200).
21. Shin (300).
22. Tau (400).
23. Final Kaph (20).
24. Final Mem (40).
25. Final Nun (50).
26. Final Pe (80).
27. Final Zade (90).

Note: Final forms (23 through 27) of the letters of the Hebrew alphabet are included in the above list. The general allocation of these numbers to each of the Hebrew letters is public knowledge, especially amongst communities in modern-day Israel.

4 Summary & Findings

1. ASTONISHINGLY, the findings presented herein strongly suggest that all the Hebrew letters combine and “work together” to form the **composite pattern given below**. The term “composite pattern” includes the cross, menorah, and Star of David. (There are many other patterns, symbol and shapes which can be generated from the pattern, but these are not covered here).
2. It is found that the geometry of the pattern is such that each Hebrew letter can be mirrored about the vertical and horizontal axes. These properties allow the entire pattern to be composed and made up by the letters (See the final section of this document).
3. The “reflective properties” of the pattern allow each Hebrew letter to be represented in terms of the four cardinal directions, north, south, east, and west. This shows that each letter not only has a numeric value assigned to it, but also direction and that each letter is invariant with respect to the four cardinal directions (north, south, east, and west) (See the final section of this document).
4. The cross has various points which are seen to correlate with the Bible. These points (e.g.: points where Jesus was pierced in His hands and feet) are seen to have a direct relation with the Hebrew letters and hence, infer that the letters contain a wealth of Biblical information, especially about the Messiah.
5. The menorah has various points which are seen to correlate with the Bible and the actual shape and form of the Hebrew letters. Again, inferring that information is hidden within the letters and likely relatedness with the menorah.
6. The Star of David has various points which are seen to correlate with the Bible. These points (e.g.: Golgotha, Mount Sinai, Mount Hor, Jonah, Mount Paran, Gerar) are seen to have a direct relation with the Hebrew letters. Again, inferring that information is hidden within the letters and likely relatedness with Biblical places and the geography.
7. The modern form of the Hebrew lettering **differs significantly** in general shape and form when compared with the written letters of the Great Isaiah Scroll.⁵ It is noticed that the handwriting of the Great Isaiah Scroll seems to preserve the biblical pattern identified in this work and hence the intended meaning and shape of biblical Hebrew.
8. It can be shown that the pattern forms the integral architectural plan the Wilderness Tabernacle (Hebrews 11:8-10). Hence, seeing that the Hebrew letters can be generated directly from the pattern itself, this **strongly suggests that the Hebrew language was given at Mount Sinai** in the form of the Ten Commandments written on tablets of stone and in the form of the pattern given on the mountain (Exodus). The association of the Hebrew letters and the pattern also suggests that the original intention was a language untainted by the Egyptians, Sumerians, and Babylonians,

but the God of Israel wanted to have a language for His own people, written by His own hand.

9. As the pattern is ***modelled after and through Jesus the Messiah*** (Numbers 24:17, Exodus 25:40), through whom all was created (John 1:3), it stands to reason that much can be learnt from the Hebrew letters, Biblically and about all creation. This strongly suggests that the shape and form of the Hebrew letters probably carry a wealth of information-not only Biblical, but mathematics, science, life, spirituality, etc. Implications and ramifications of this is astonishing and beyond the scope of this work.
10. The assigned numerical values of numerous Hebrew letters contained in the pattern were obtained by using the dimensions (in cubits) of the Arc of the Covenant. This seems to agree with Exodus 25:22 in terms of the spoken Hebrew language and the fact that all creation was through Jesus the Messiah (John 1:3).
11. It is found that for various Hebrew letters, a dimension of the Arc of the Covenant (length 2.5 cubits or width 1.5 cubits) need be multiplied by the sum of the lengths of the lines that make up the letter in order to arrive at the numeric value assigned to that letter (e.g.: sum of lines of letter = 360 km x 2.5 cubits = 900). The unit of the cubit was omitted in such cases.
12. It has been shown that the letters of the Hebrew alphabet can be generated using the geometric properties of the pattern. Taking this finding a step further, it may not be unreasonable to suggest that the pattern could also provide details of other properties of the written form of Hebrew.

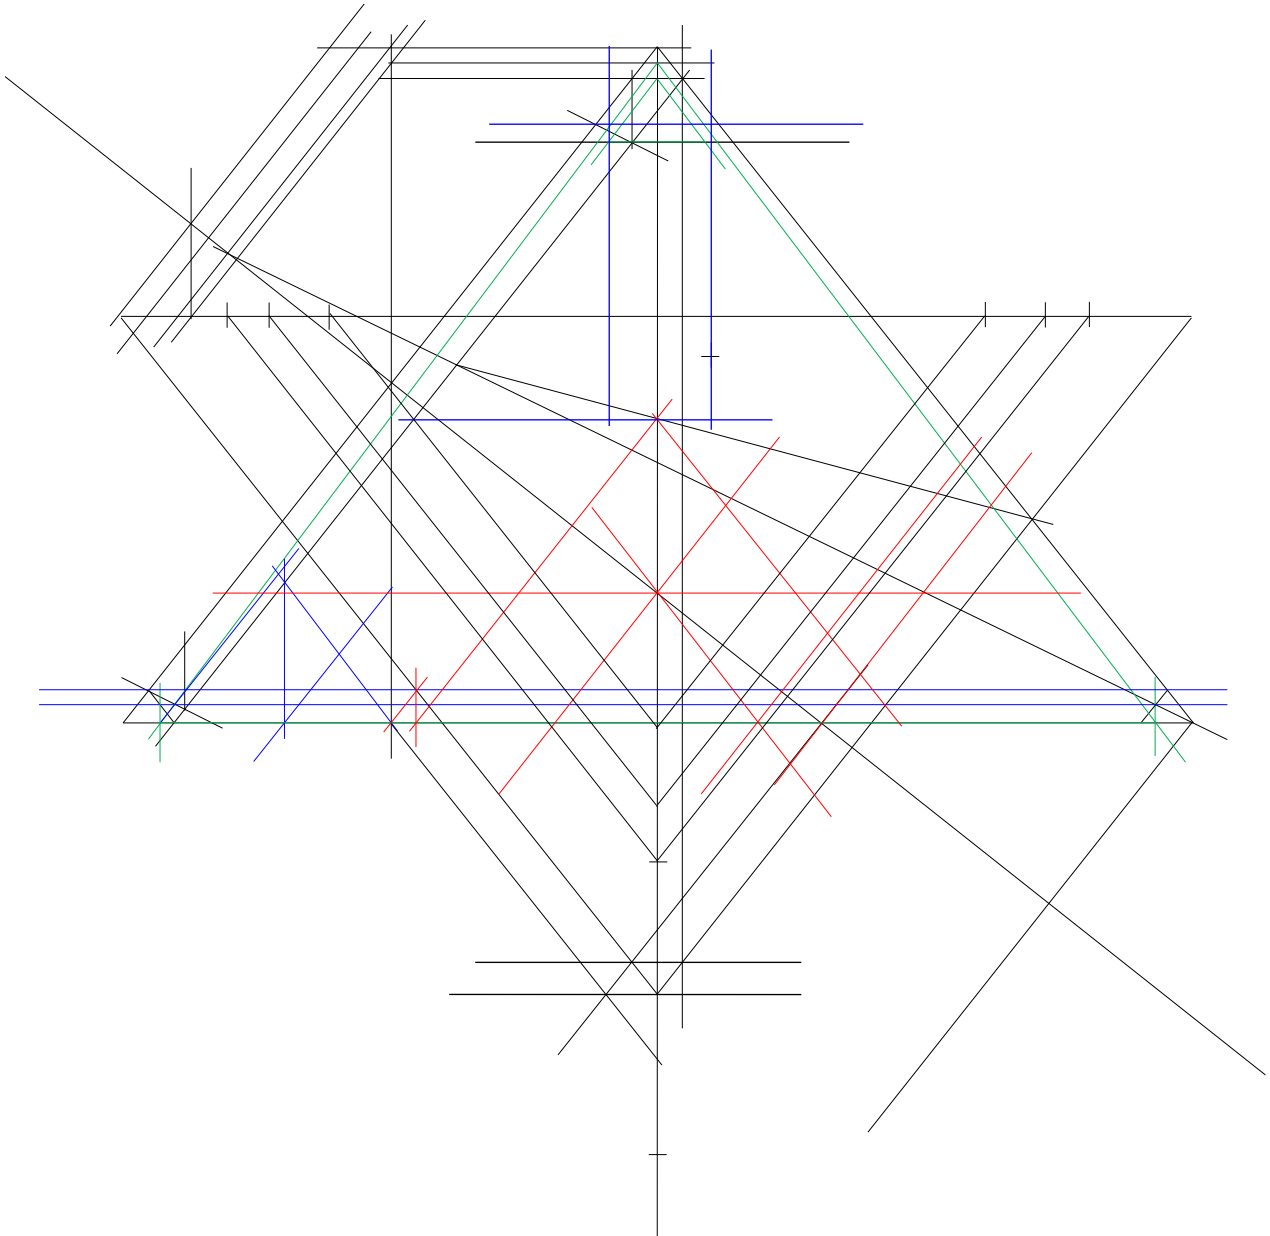

In other words, the pattern could provide a “new format” for the way in which Biblical Hebrew is written down, vocalized, and interpreted. This “new format” could provide basic details such as the following:

- a. The spacing between letters.
- b. The spacing between words.
- c. The number of horizontal and vertical lines which are involved in writing Hebrew words (are there more lines other than a top and bottom line?)
- d. The letters which extend above the top line.
- e. The letters which extend below the bottom line.
- f. The letters which appear above the top line.
- g. The letters which appear below the bottom line.
- h. The letters which appear only between the top and bottom lines.
- i. The necessity of repeating the pattern in order to generate sentences or a string of words.
- j. Specific orientations involved when compiling, reading, reciting the words/letters when re-written in the “new format” of the pattern.
- k. New insights into the meaning and interpretation of letters, words, and sentences when written according to the “new format” of the pattern.

Other findings and properties of the Hebrew alphabet are listed in the respective sections of for each letter.

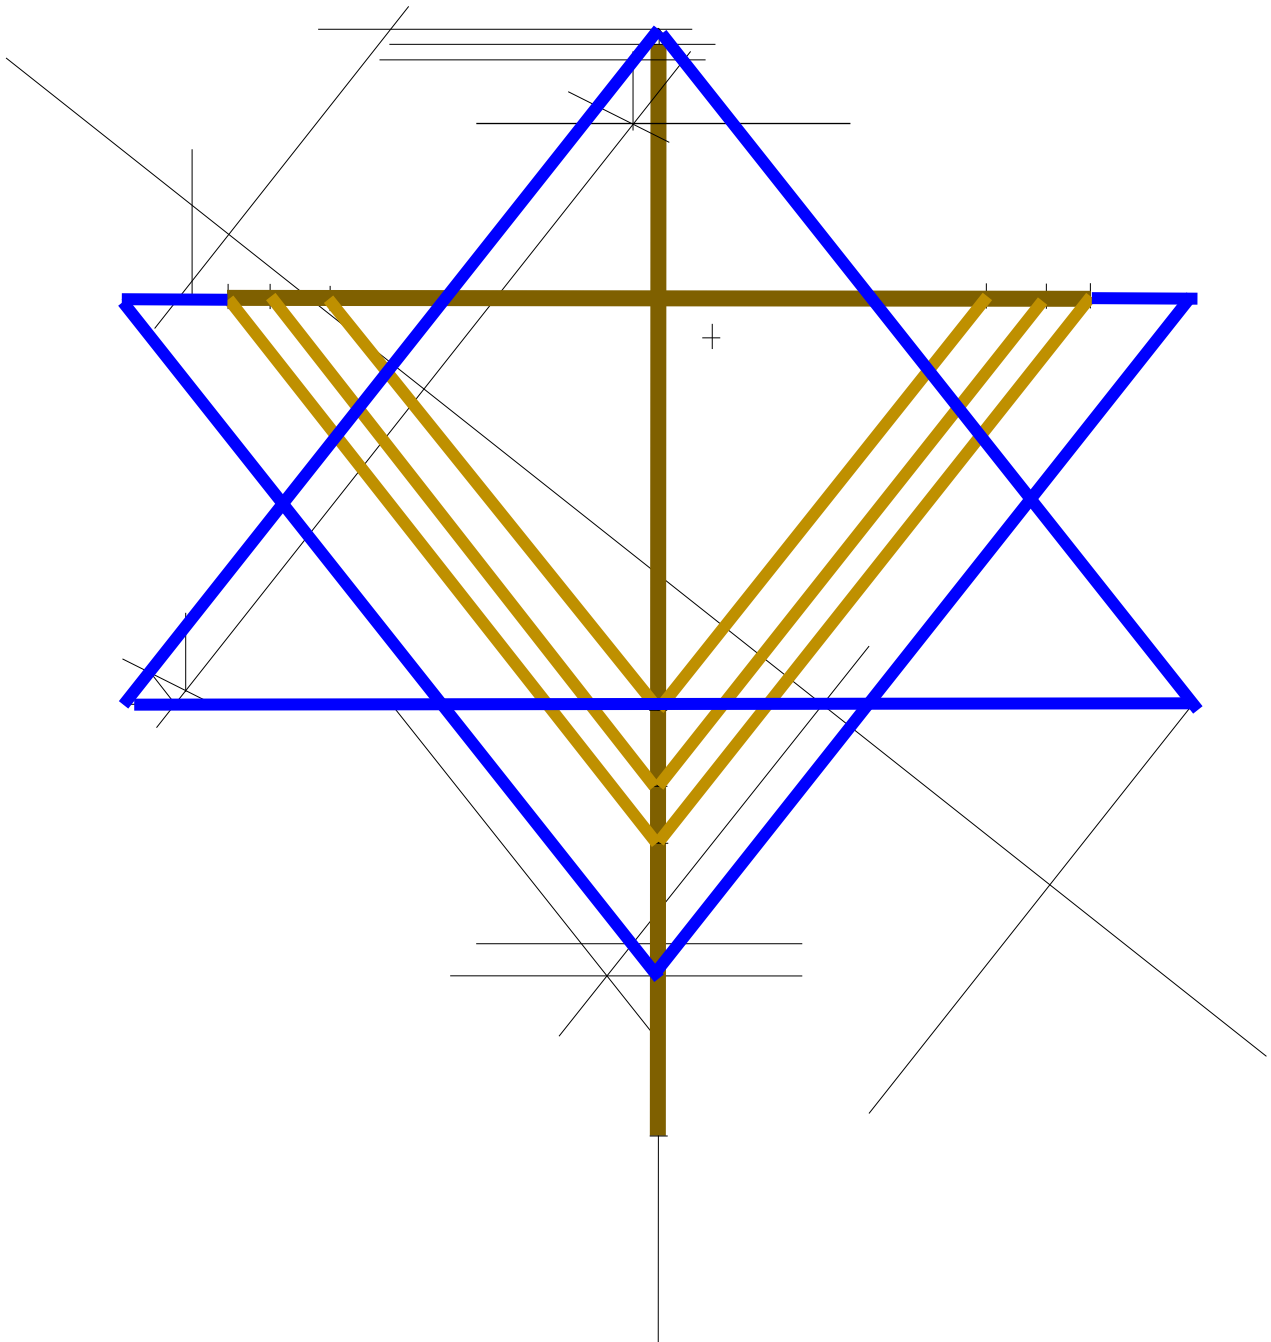

4.1 The General Pattern (outlines)

The main parts of the pattern include (1) the Star of David or Messiah, (2) menorah, and (3) the cross, as depicted in the figure below. These items combine to form a composite, geometric pattern.

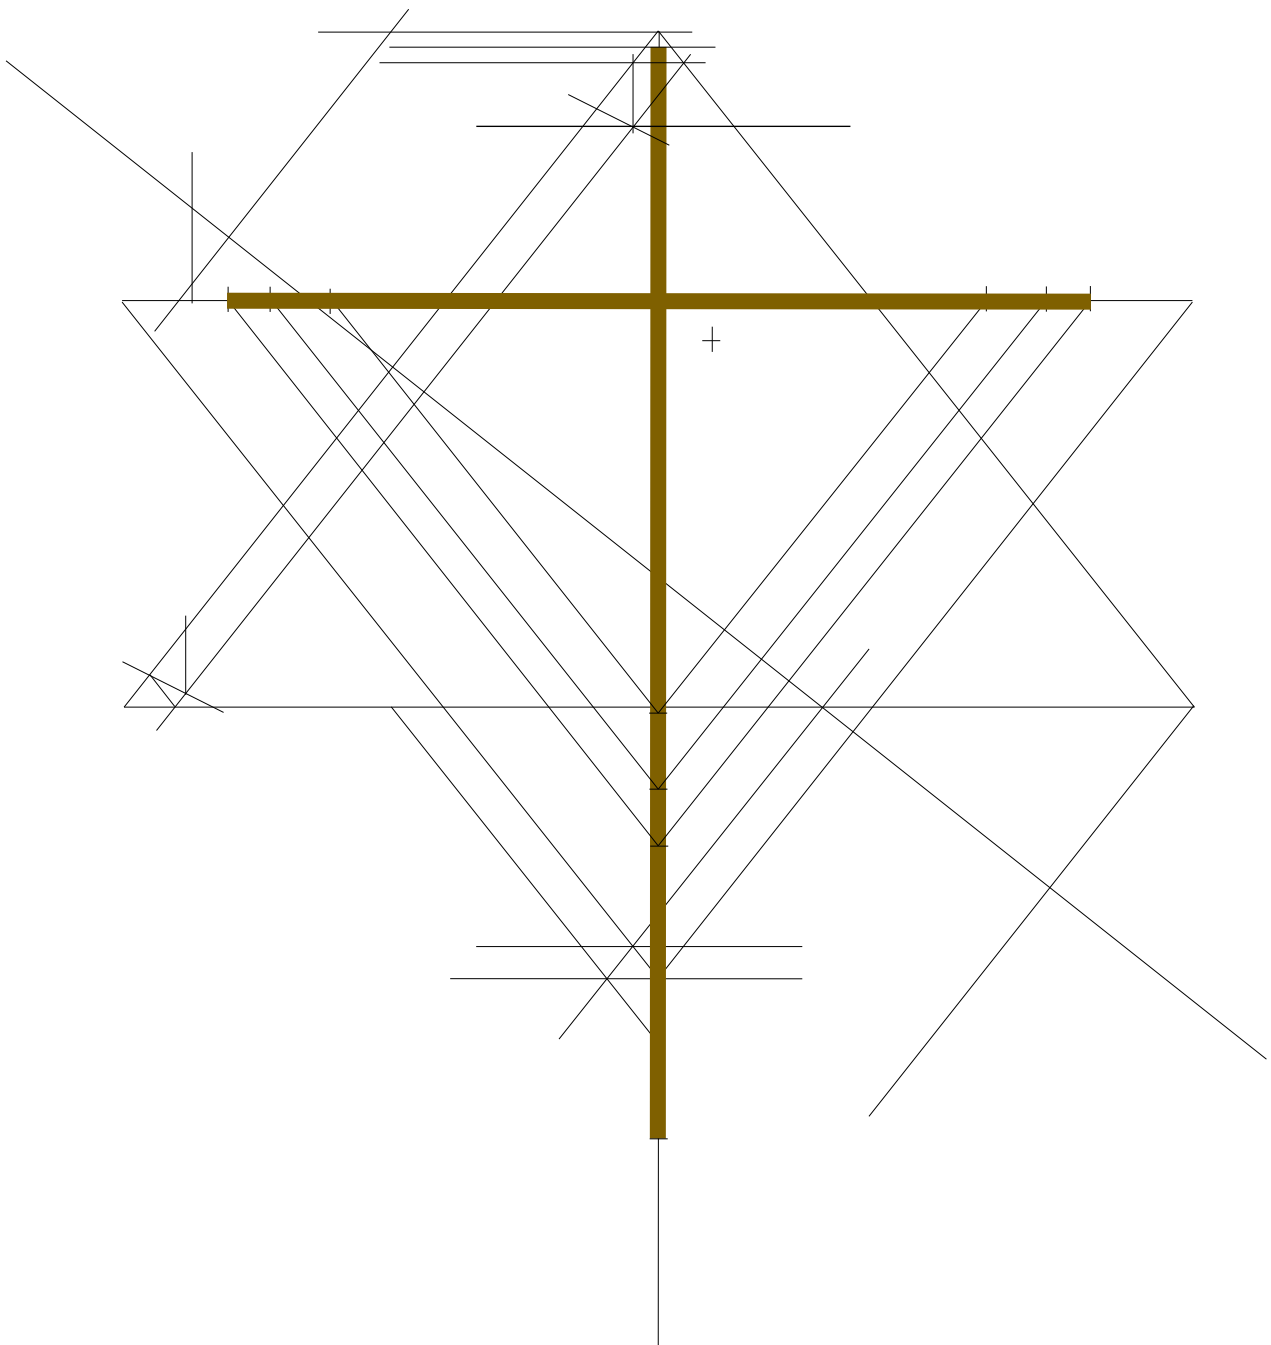

4.1.1 The Composite Pattern (highlighted)

The general outlines of the main parts of the pattern, (1) the Star of David or Messiah, (2) menorah, and (3) the cross, are highlighted below for clarity.

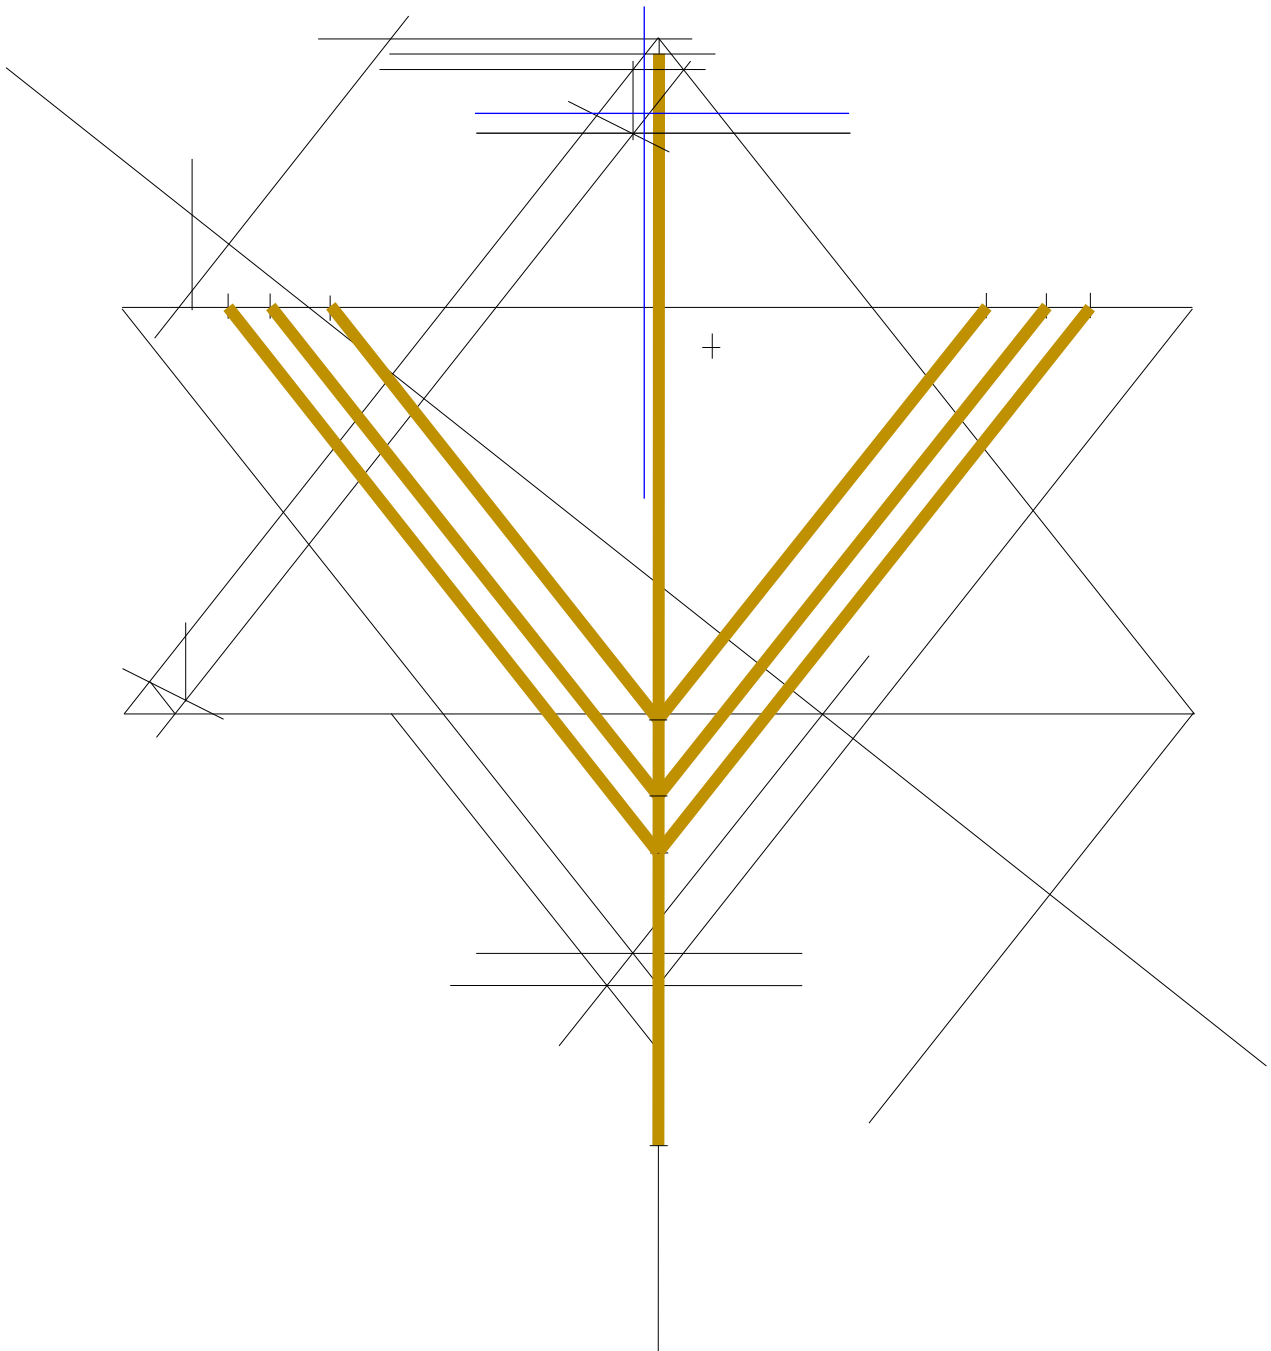

4.1.2 The Proposed Cross

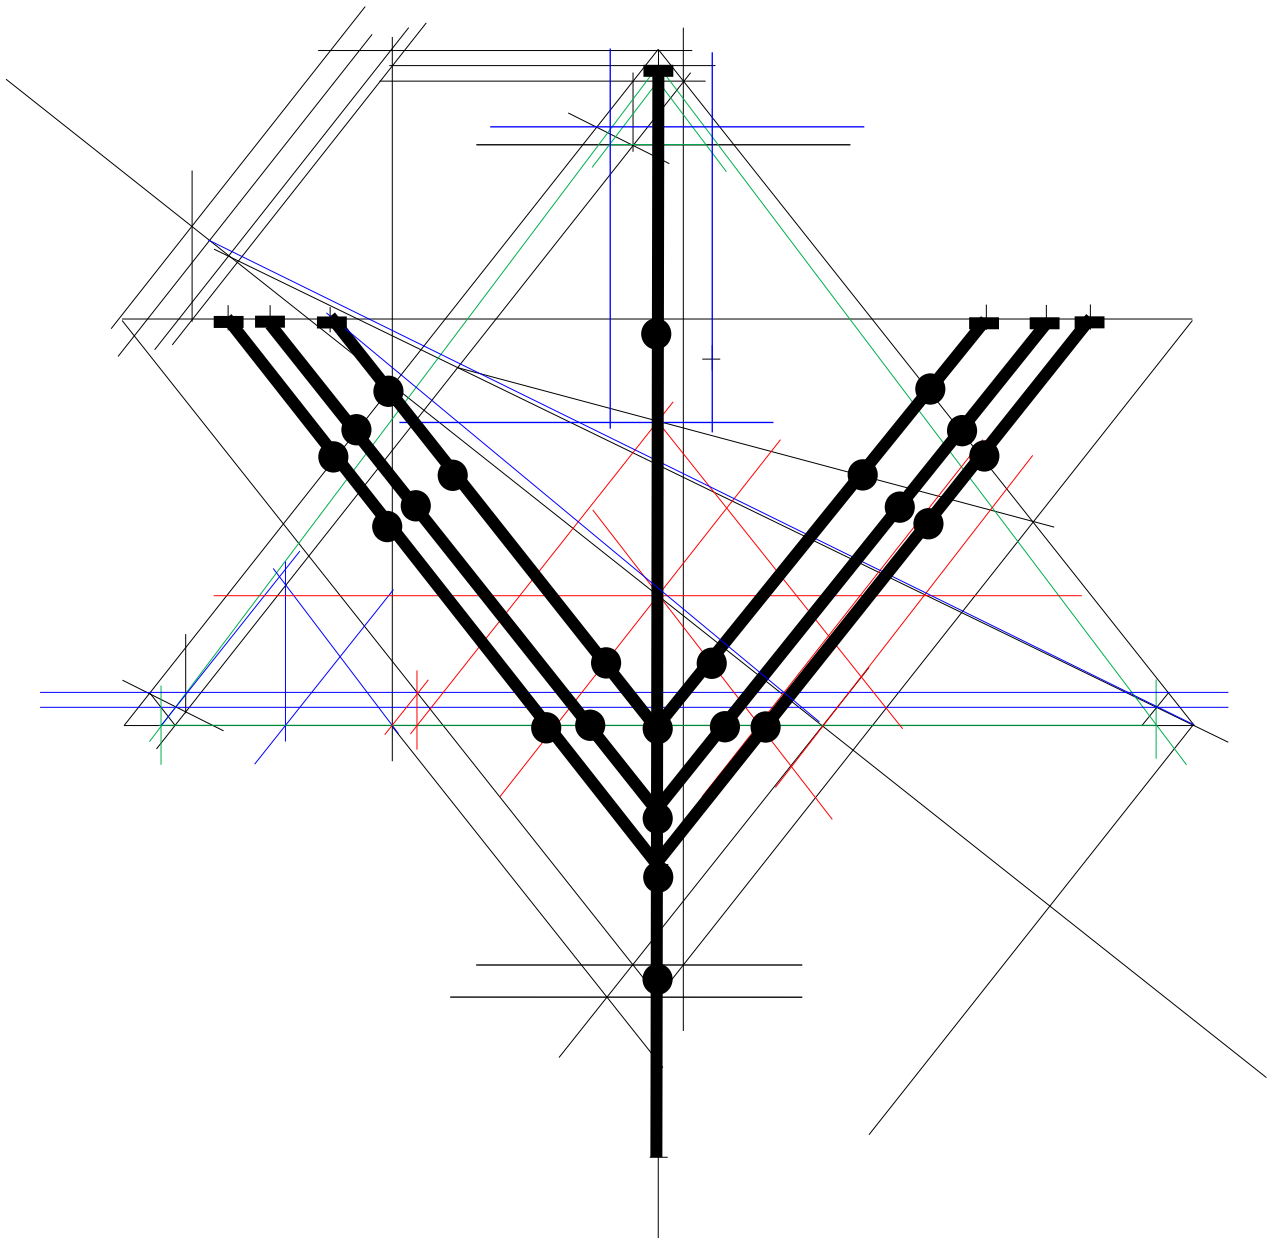

4.1.3 The Proposed Menorah

4.1.3.1 General Form of the Menorah

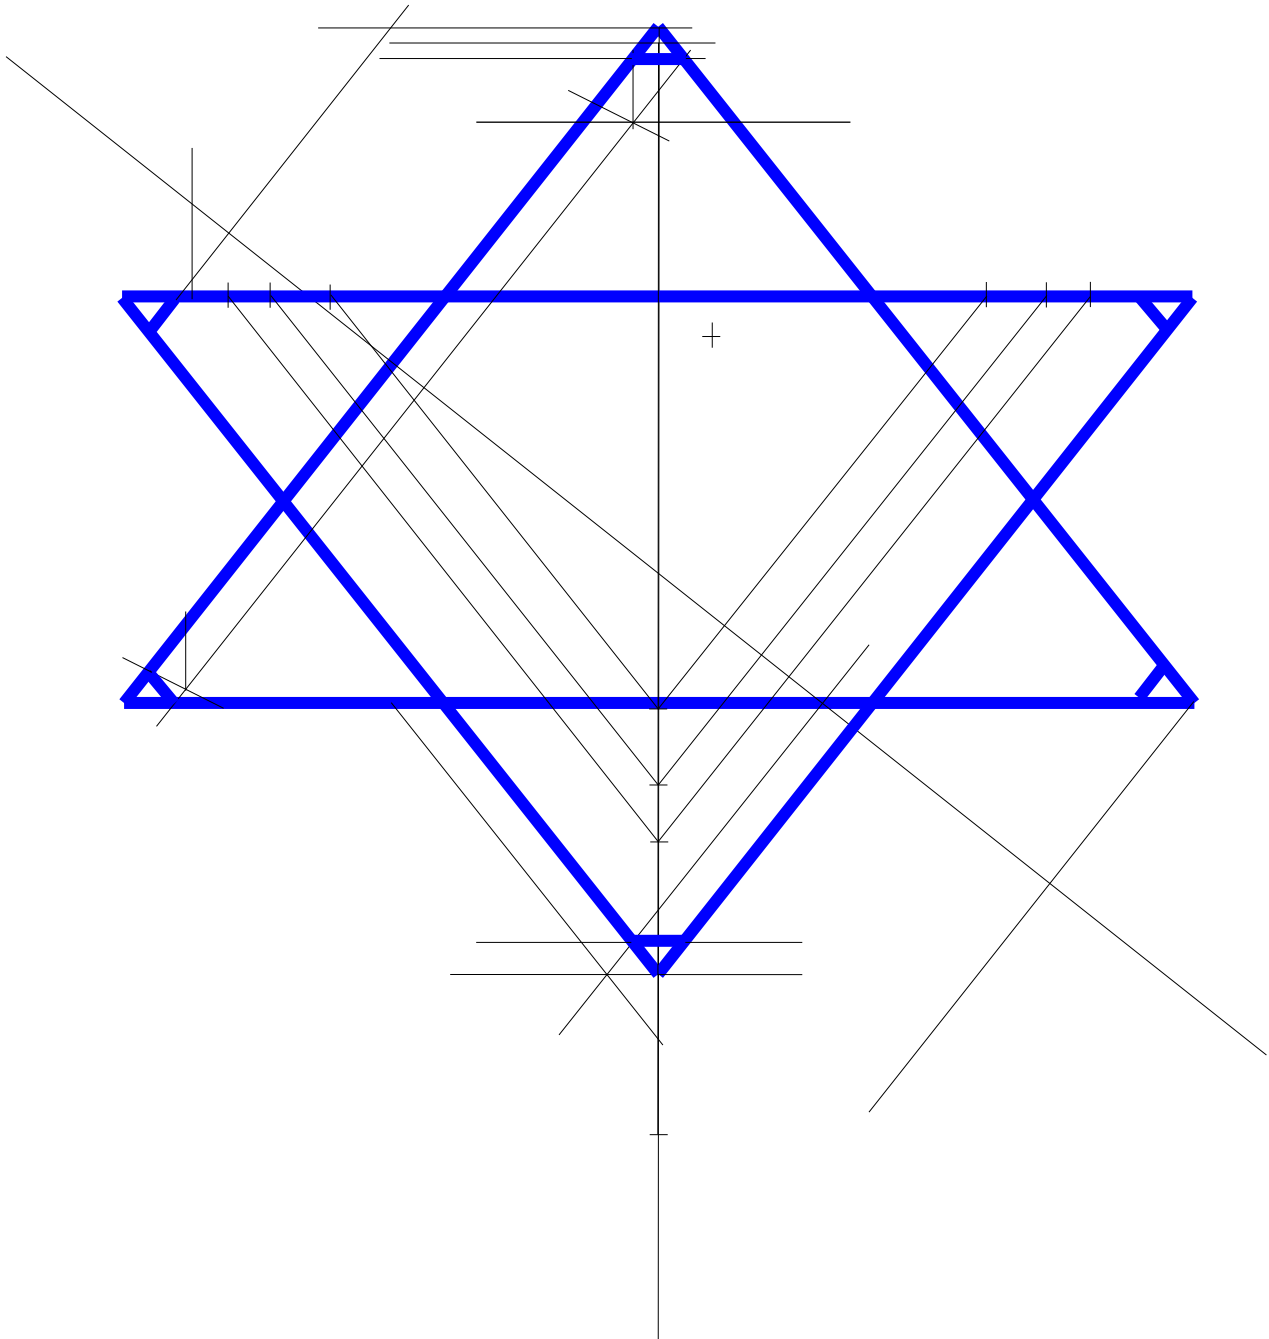

4.1.3.2 *Detailed Form of the Proposed Menorah*

Note: The figure indicated below only indicates proposed details.

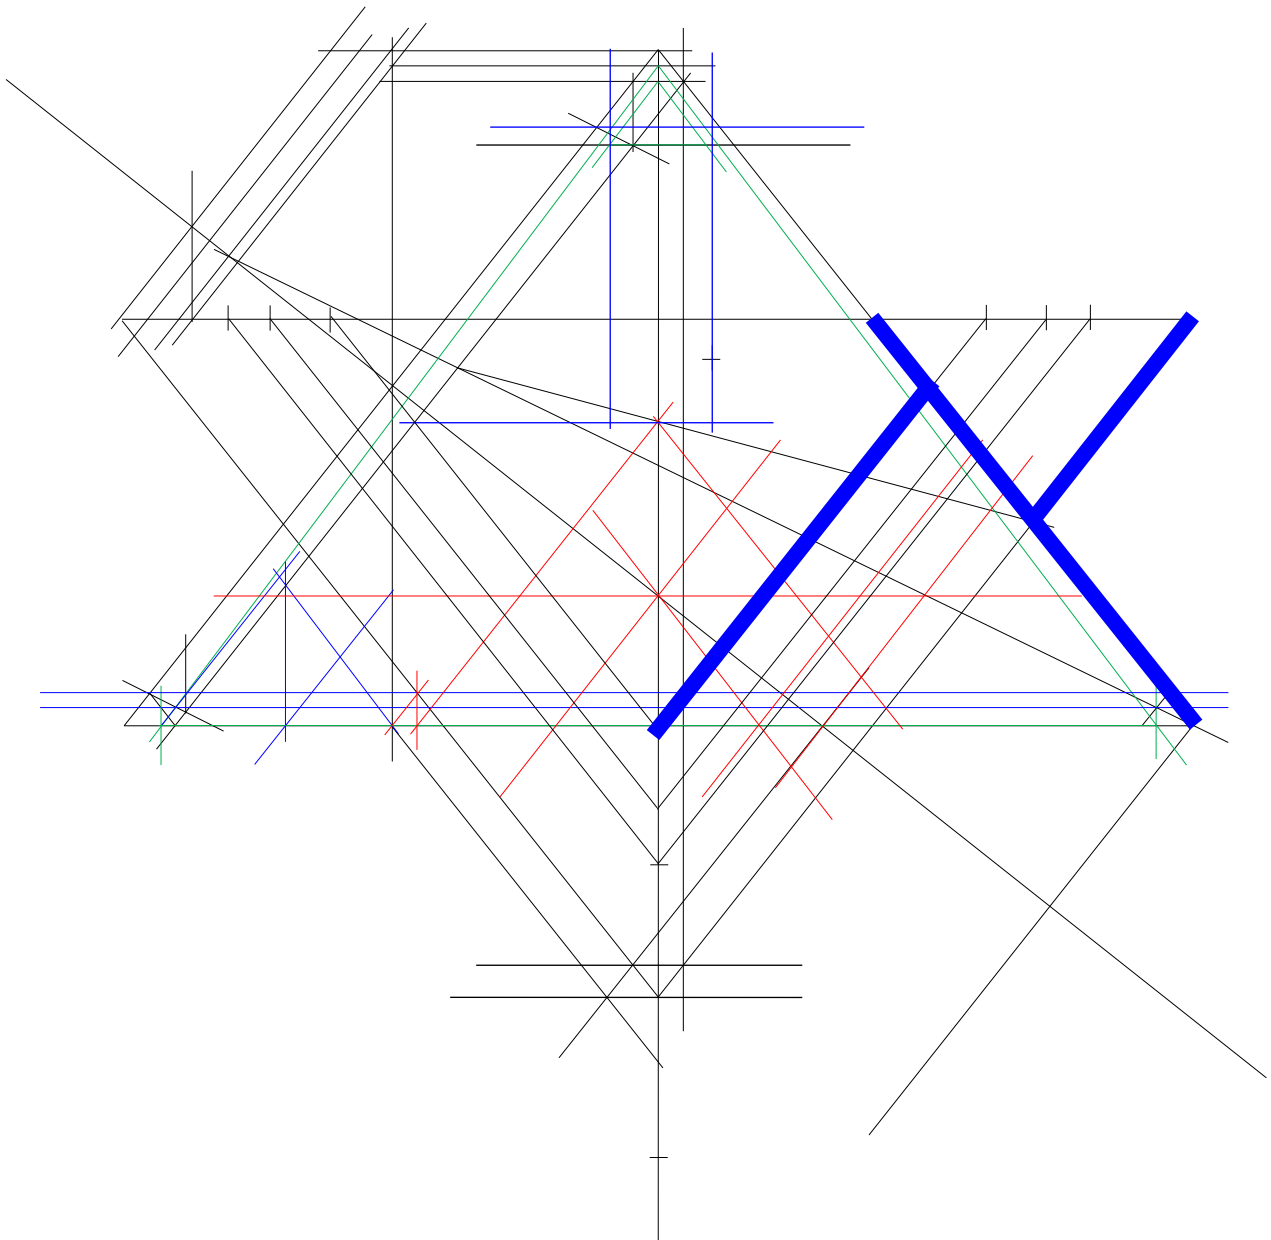

4.1.4 The Proposed Star of David (Messiah)

4.2 HEBREW LETTERS AND THE PATTERN

4.2.1 ALEF

4.2.1.1 Scripture and Hebrew Letter ALEF

Blessed are the undefiled in the way,
Who **walk** in the law of the Lord!
2 Blessed are those who keep His testimonies,
Who seek Him with the whole **heart**!
3 They also **do** no iniquity;
They **walk** in His ways.
4 You have commanded us
To keep Your precepts diligently.
5 Oh, that my **ways** were directed
To keep Your statutes!
6 Then I would not be ashamed,
When I **look** into all Your **commandments**.
7 I will praise You with uprightness of **heart**,
When I learn Your righteous judgments.
8 I will keep Your statutes;
Oh, do not forsake me utterly!
Psalm 119:1-8, NKJV

Key words which appear here are the following:

1. Walk.
2. Do.
3. Heart.
4. Ways.
5. Look.
6. Commandments.

4.2.1.2 General Observations and Findings

The general distance obtained by summing all the geographic straight-line lengths of the lines which make up the Hebrew letter ALEF on Google Earth is:

(172 km + 85 km + 142 km) $\approx$ 400 km (all distances herein are approximate).

Now, if this sum is in turn multiplied by the length of the Arc of the Covenant, 2.5 Cubits, the resultant is:

400 km x **2.5** = **1000**.

Interestingly, this number is 1000 times the number assigned to ALEF, that is, 1. From this it is seen that the factor 1000 is of Biblical importance.

4.2.1.3 Biblical Significance

The meaning of Hebrew letters is manifest in both the form and number of the letter.

The letter ALEF is the first of the Hebrew letters. The slanting line which forms the main line of the letter could symbolically represent the connection between God and man as it connects the cross beam of the cross with the symbolic representation of the surface of the earth (or the nations, those that inhabit and walk on the earth).

ALEF is the first letter and is assigned the numeric value 1 (or multiples thereof), it could suggest that this letter is associated with the beginnings.

The number 1 indicates unity, beginning, and oneness.

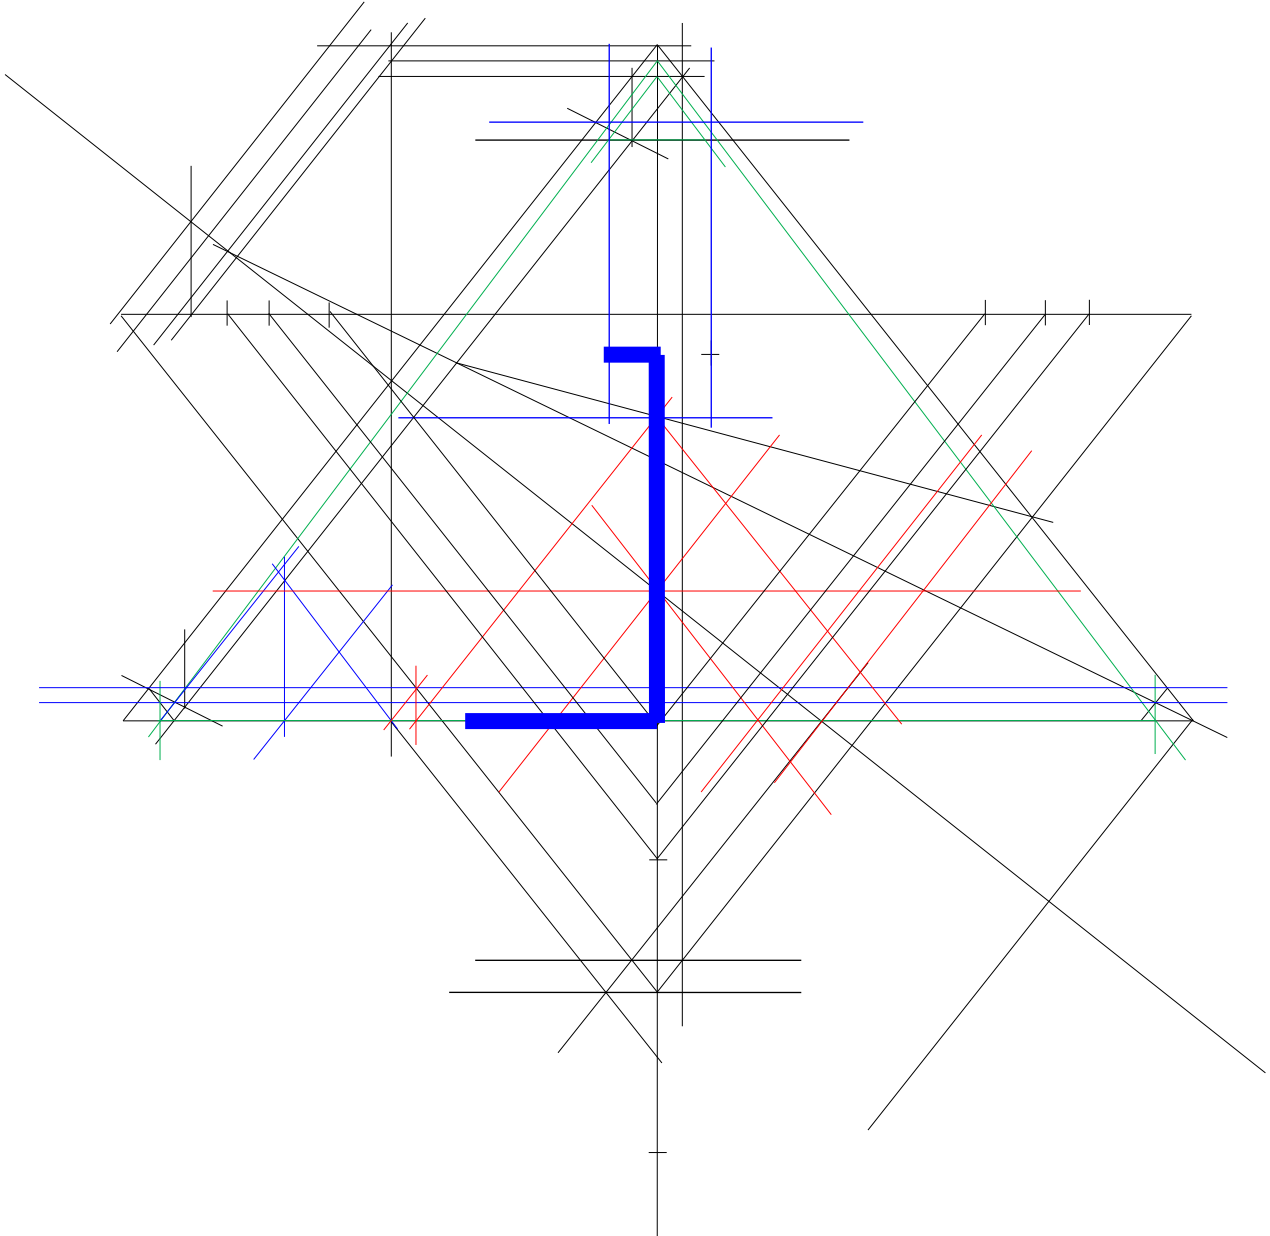

TH number 10 indicates fulfilment, congregation, leadership.

The number 100 indicates abundant return.

From the pattern, it is seen that the Hebrew letter ALEF connects the following:

1. The geographic points on the ground or map: **Mount Sinai**; the place where the Israelites camped prior to crossing the Red Sea, **Pi Hahiroth**, between Migdol and the Red Sea (Exodus 14:1); **Mount Paran**; **Hazereth (?)**; and perhaps the hem of the Priestly garments (there is another geographic point near the eastern border of the Red Sea, which is unknown. Hence, the Hebrew letter ALEF seems to provide independent confirmation of the Biblical locations mentioned above.
These geographic connections seem to signify relationships which exist between these places, perhaps associated with the shape and number assigned to the letter.
2. ALEF is seen to be associated with the cross beam of the cross, inner branch of the menorah, the Star of David, and the centre beam of the cross.
3. ALEF provides independent confirmation that the menorah has straight branches (Isaiah 42:3). The pattern indicates that the inner branch of the menorah is associated with Jesus' hand. The letter ALEF is thus associated with Jesus' hands and the crucifixion.
4. Psalm 119 highlights the importance of the commandments of God which is directly associated with the Law which was given at Mount Sinai.

4.2.2 BETH

4.2.2.1 Scripture and Hebrew Letter BETH

9 How can a young man cleanse his way?
By taking heed according to Your word.
10 With my whole **heart** I have sought You;
Oh, let me not wander from Your commandments!
11 **Your word I have hidden in my heart,**
That I might not sin against You.
12 Blessed are You, O Lord!
Teach me Your statutes.
13 With my lips I have declared
All the judgments of Your mouth.
14 I have rejoiced in the way of Your testimonies,
As much as in all riches.
15 I will meditate on Your precepts,
And contemplate Your ways.
16 I will delight myself in Your statutes;
I will not forget Your word.
Psalm 119:9-16, NKJV

Key words which appear here are the following:

1. **Walk**
2. **Heart**
3. Ways
4. Look
5. Commandments

The verse,

*“Your word I have hidden in my heart,
That I might not sin against You”*

may have reference to the Ten Commandments, written on tablets of stone, which were kept in the Arc of the Covenant (Exodus 25:16). It may also indicate the **relative position** of the Tablets of Stone, Arc of the Covenant, Jesus’ body, and the cross with respect to the pattern.

The whole of Psalm 119 concerns the commandments, statutes, and laws of God.

4.2.2.2 General Observations and Findings

The general distance obtained by summing all the geographic straight-line lengths of the lines which make up the Hebrew letter BETH on Google Earth is:

$(120 \text{ km} + 17.5 \text{ km} + 64 \text{ km}) \approx \mathbf{200 \text{ km}}$.

Interestingly, the number 2 is allotted to the Hebrew letter BETH. Hence the factor 10 is multiplied by 2, yielding 20.

The number 2 indicates agreement, spiritual promotion.
The number 20 indicates preparation for war, trial, reward.
The number 200 indicates complete deficiency.

4.2.2.3 *Biblical Significance*

The meaning of Hebrew letters come through both the form and number of the letter.

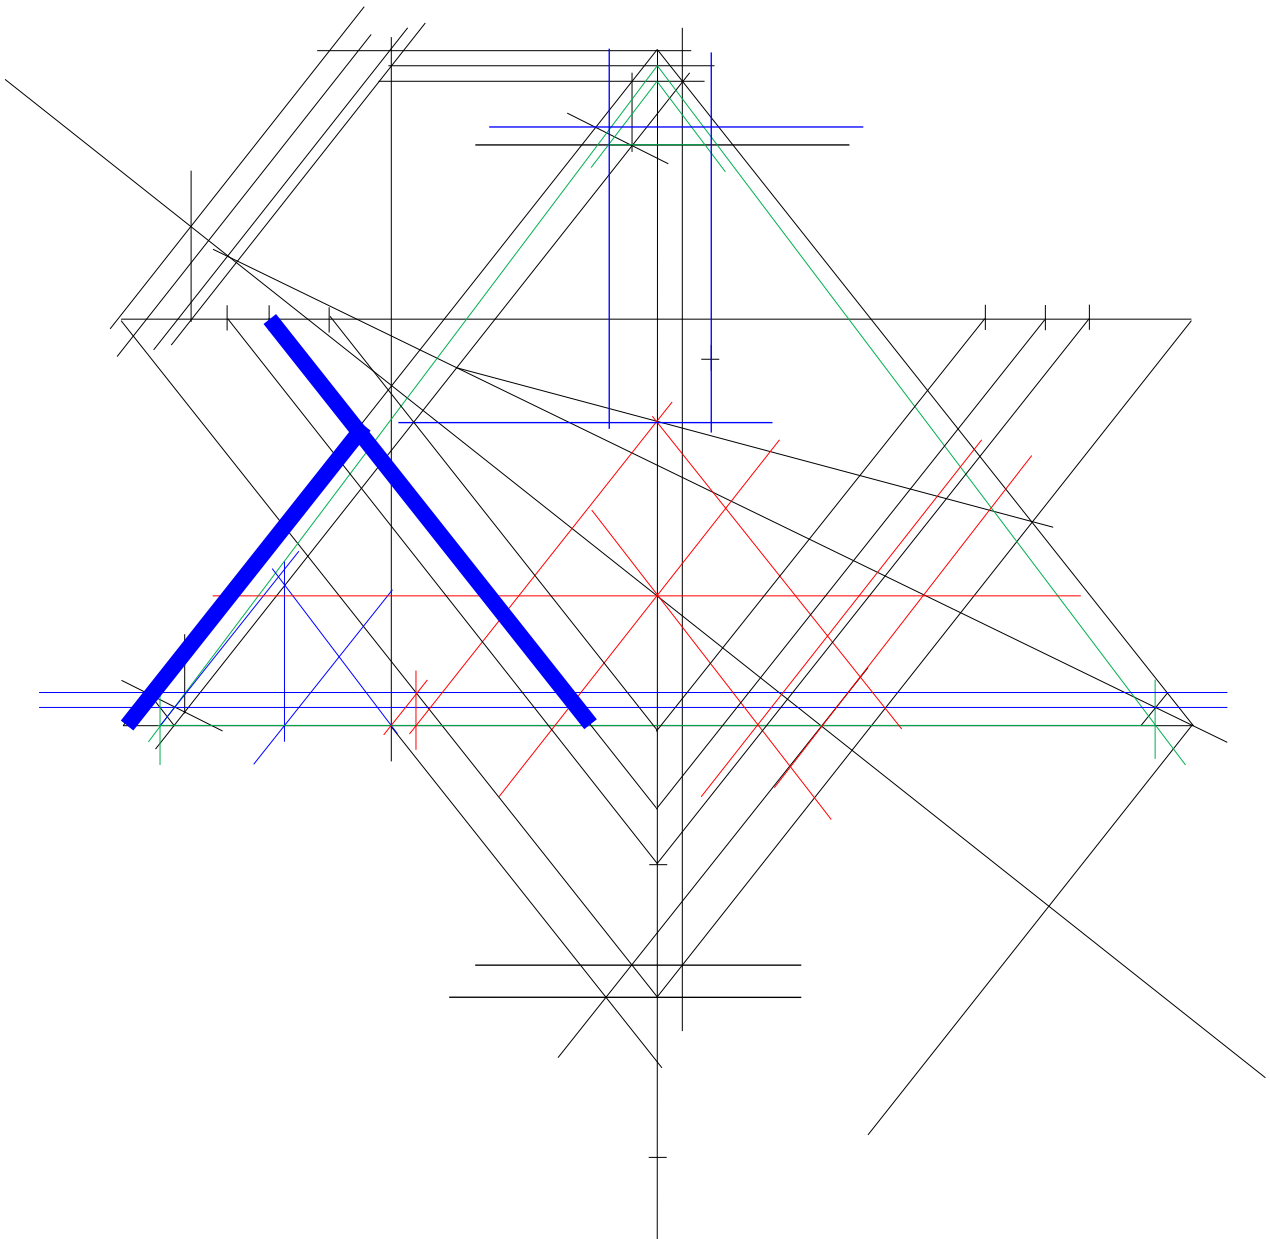

The word “BETH” (or BEYT) means house, home, or household (family) (Genesis 7:1) and can be associated with “*house of bread*” (or Bethlehem, the town where Jesus was born). This would have direct connection with Jesus as He said, “I AM the Bread of Life” (John 6:35).

The idea of a house can have multiple meanings in light of worlds, souls (tent or temple: 1 Corinthians 6:19; Exodus 25:8; 1 Chronicles 17:12), and structures (e.g.: house, temple, storehouse, buildings, enclosures). The house houses the people and the body houses the soul.

From the pattern, it is seen that the Hebrew letter BETH connects the following:

1. The geographic points on the ground or map: **Kadesh Barnea**; and **Beer-Lahai-Roi (?)** These geographic connections seem to signify relationships which exist between these places, perhaps associated within the shape and number assigned to the letter.
These geographic connections seem to signify hidden relationships which exist between these places, perhaps hidden within the shape and number assigned to the letter. Hence, the Hebrew letter BETH seems to provide independent confirmation of the Biblical locations mentioned above (Kadesh Barnea is an important Biblical location).
2. BETH is seen to be associated with the place where Moses struck the rock (Exodus 17:7), the centre beam of the cross, the Star of David, and the hem of the Priestly Garments. The letter BETH, when mapped onto the geographic region suggested by the pattern provides a beautifully illustrated (symbolically) symbolism of the wounding of Christ when pierced by the centurion and struck by Moses (See also Kadesh Barnea).
3. Psalm 119:11 could provide further information about the relationship between the Ten Commandments written on tablets of stone and the orientation and position of the Arc of the Covenant within the Holy of Holies. The passage seems to provide a beautiful illustration of the Law “hidden” in the Arc of the Covenant and the Law hidden in the heart of the believer (1 Corinthians 6:19; Exodus 25:10-22).

4.2.3 GIMEL

4.2.3.1 Scripture and Hebrew Letter GIMEL

17 Deal bountifully with Your servant,
That I may live and keep Your word.
18 **Open my eyes, that I may see
Wondrous things from Your law.**
19 I am a stranger in the earth;
Do **not hide Your commandments from me.**
20 My soul breaks with longing
For Your judgments at all times.
21 You rebuke the proud—the cursed,
Who stray from Your commandments.
22 Remove from me reproach and contempt,
For I have kept Your testimonies.
23 Princes also sit and speak against me,
But Your servant meditates on Your statutes.
24 Your testimonies also are my delight
And my counselors.
Psalm 119:17-24, NKJV

Key words which appear here are the following:

1. Eyes.
2. Commandments.
3. Princes.
4. Sit.

4.2.3.2 General Observations and Findings

The general distance obtained by summing all the geographic straight-line lengths of the lines which make up the Hebrew letter GIMEL on Google Earth is:

(172 km + 127 km) = 299 km (**≈ 300 km**).

Interestingly, this number is 100 times the number assigned to GIMEL, that is, 3. From this it is seen that the factor 100 is of Biblical importance.

4.2.3.3 Biblical Significance

The letter GIMEL (or GMMEL) is the third of the Hebrew letters. The slanting line which forms the main line of the letter could symbolically represent the connection between God and man as it connects the cross beam of the cross with the symbolic representation of the surface of the earth (or the nations, those that inhabit the earth).

GIMEL is assigned the numeric value 3

The number 3 indicates unity, divine completion, **resurrection apart**.
The number 30 represents character is fashioned.
The number 300 faithful remnant.

From the pattern, it is seen that the Hebrew letter GIMEL connects the following:

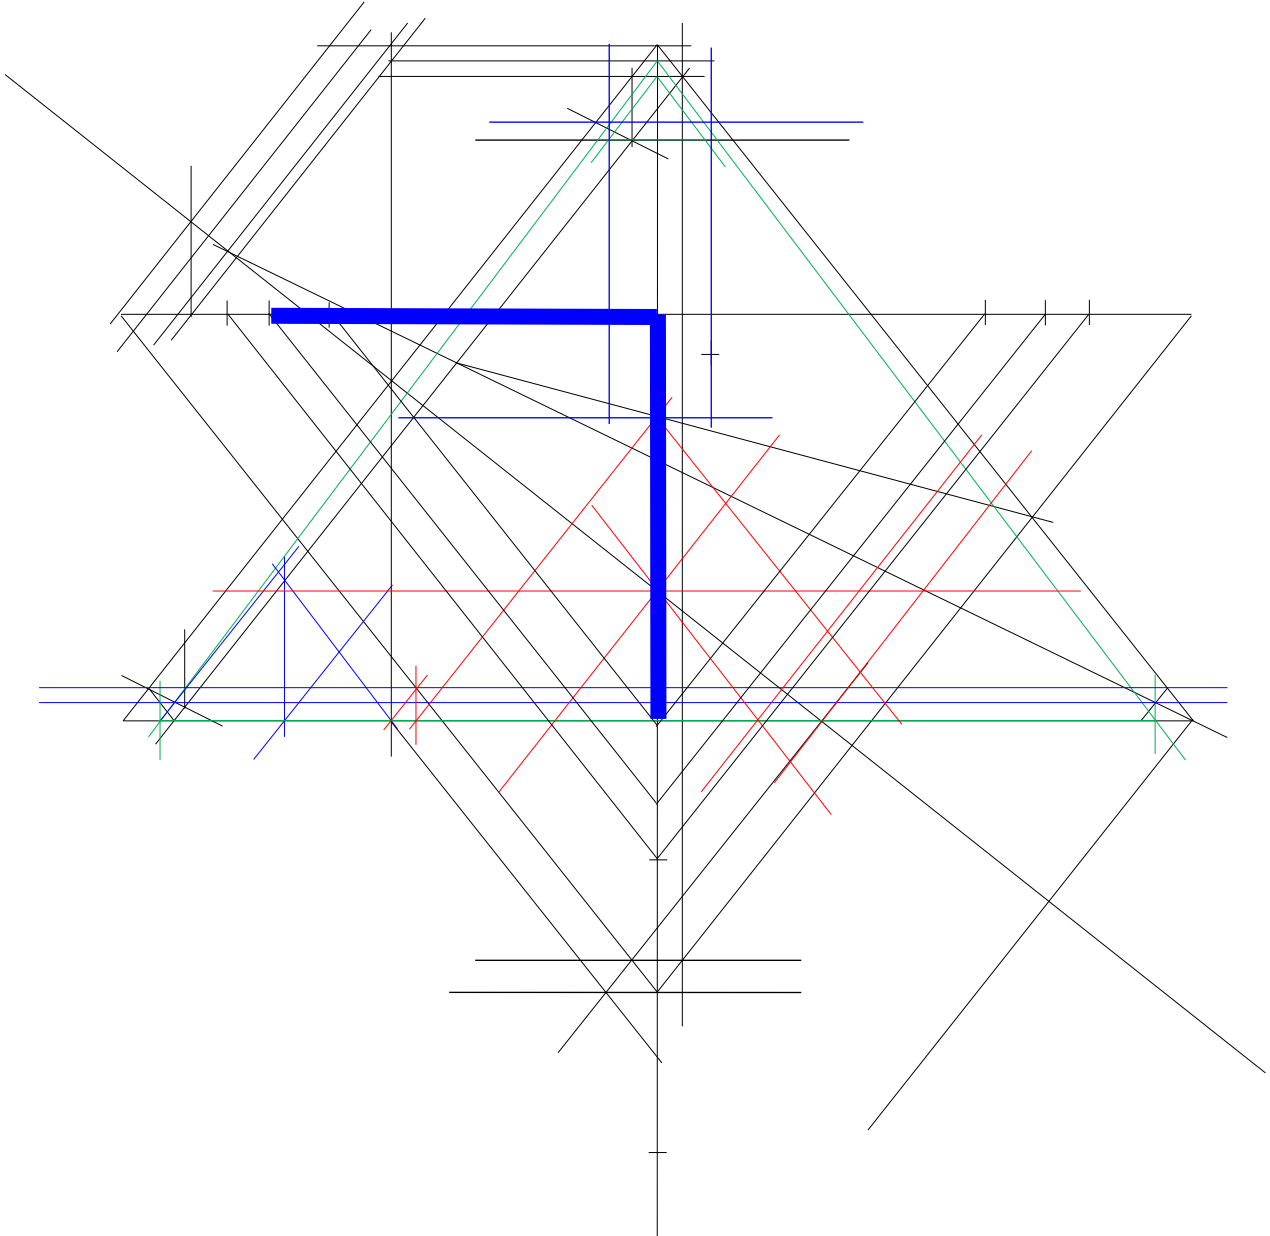

1. The geographic points on the ground or map: **Jonah; Golgotha, and other places (?)**; and perhaps the hem of the Priestly garments. Hence, the Hebrew letter GIMEL

seems to provide independent confirmation of the Biblical locations mentioned above.

These geographic connections seem to signify relationships which exist between these places, perhaps associated with the shape and number assigned to the letter.

2. GIMEL is seen to be associated with the cross beam of the cross (and specifically Jesus' fingers (Exodus 8:19; Exodus 31:18; Psalm 8:3, Luke 11:20; Matthew 12:28), the middle branch on the left side of the menorah, and the Star of David. The finger of God evidently is involved in the writing and giving of the Law, signs and miracles, and creation. These are all related to the creation of a new heaven, earth, spirit (through being born again) and new laws which are written on our hearts (Revelation 21:5; Isaiah 43:19).
3. GIMEL provides independent confirmation that the menorah has straight branches (Isaiah 42:3). The pattern indicates that the inner branch of the menorah is associated with Jesus' hands. The letter GIMEL is thus associated with Jesus' hands and the crucifixion. Hands are associated with giving, love, and invitation.
4. Psalm 119 highlights the importance of the commandments of God which is directly associated with the Law and its fulfilment through Christ's ministry and crucifixion.
5. GIMEL seems to geographically (as well as in other ways) connect Golgotha (which is directly related to the resurrection of Jesus (Matthew 28:6) and the corresponding sign of Jonah mentioned by Jesus (Matthew 12:40).

4.2.4 DALETH

4.2.4.1 Scripture and Hebrew Letter DALETH

25 My **soul clings to the dust**;
Revive me according to Your word.
26 I have **declared** my ways, and You answered me;
Teach me Your statutes.
27 Make me understand the way of Your precepts;
So shall I meditate on Your wonderful works.
28 My soul melts from heaviness;
Strengthen me according to Your word.
29 Remove from me the way of lying,
And grant me Your law graciously.
30 I have chosen **the way of truth**;
Your judgments I have laid before me.
31 **I cling to** Your testimonies;
O Lord, do not put me to shame!
32 I will **run the course of Your commandments**,
For You shall enlarge my **heart**.
Psalm 119:25-32, NKJV

Key words which appear here are the following:

1. "Clings to the dust".
2. Declared.
3. The way of truth.
4. **Cling** to Your testimonies.
5. Heart.
6. "run the course of Your commandments".

4.2.4.2 General Observations and Findings

The general distance obtained by summing all the geographic straight-line lengths of the lines which make up the Hebrew letter DALETH on Google Earth is:

(131 km + 135 km) $\approx$ 266 km.

Now, if this sum is in turn multiplied by the width of the Arc of the Covenant, 1.5 Cubits, is:

266 km x 1.5 = **399 km ($\approx$ 400 km)**.

Interestingly, this number is 100 times the number assigned to DALETH, that is, 4. From this it is seen that the factor 100 is of Biblical importance.

4.2.4.3 Biblical Significance

The letter DALETH (or DALET) is the fourth of the Hebrew letters.

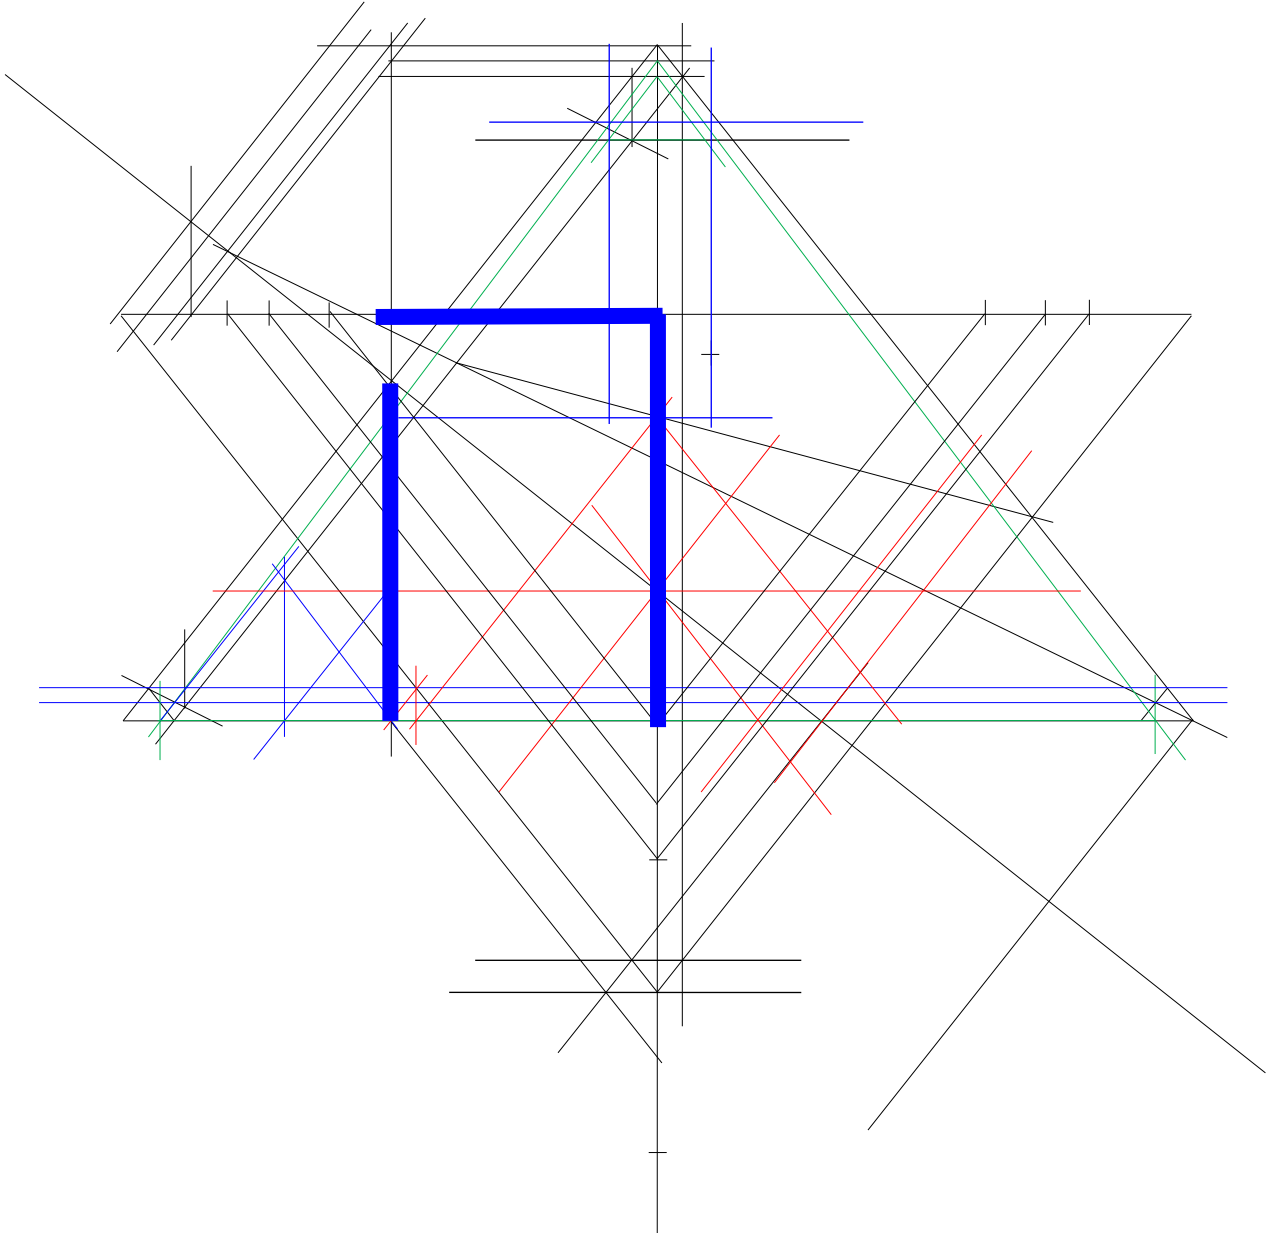

DALETH is assigned the numeric value 4

The number 4 indicates completeness, worldly kingdoms, parting.
The number 40 represents mature leadership.
The number 400 indicates full dominion.

From the pattern, it is seen that the Hebrew letter DALETH connects the following:

1. The geographic points on the ground or map: **Mount Hor, where the Israelites turned back before camping at Migdol by the Sea, and Arad (?)**. Hence, the Hebrew letter DALETH seems to provide independent confirmation of the Biblical locations mentioned above.
These geographic connections seem to signify relationships which exist between these places, perhaps associated with the shape and number assigned to the letter.
2. DALETH is seen to be associated with the cross beam of the cross (and specifically Jesus' fingers (Exodus 8:19; Exodus 31:18; Psalm 8:3, Luke 11:20; Matthew 12:28), and the centre beam of the cross. The finger of God evidently is involved in the writing and giving of the Law, signs and miracles, and creation. These are all related to the creation of a new heaven, earth, spirit (through being born again) and new laws which are written on our hearts (Revelation 21:5; Isaiah 43:19).
3. DALETH provides independent confirmation that the cross consisted of an upright beam and a cross beam. The letter DALETH is thus associated with Jesus' hands and the crucifixion. Hands are associated with giving, love, and invitation, hence the word "cling" in Psalm 119:31.
4. Psalm 119 highlights the importance of the commandments of God which is directly associated with the Law and its fulfilment through Christ's ministry and crucifixion.

4.2.5 HE

4.2.5.1 Scripture and Hebrew Letter HE

33 Teach me, O Lord, the way of Your statutes,
And I shall **keep it to the end**.
34 Give me understanding, and I shall keep Your law;
Indeed, I shall observe it with my whole heart.
35 Make me **walk in the path** of Your commandments,
For I delight in it.
36 Incline my **heart** to Your testimonies,
And not to covetousness.
37 Turn away my **eyes** from looking at **worthless things**,
And **revive me in Your way**.
38 Establish Your word to Your servant,
Who is devoted to fearing You.
39 Turn away my reproach which I dread,
For Your judgments are good.
40 Behold, I long for Your precepts;
Revive me in Your righteousness.
Psalm 119:33-40, NKJV

Key words which appear here are the following:

1. Walk.
2. Eyes.
3. Heart.
4. **Revive.**

4.2.5.2 General Observations and Findings

The general distance obtained by summing all the geographic straight-line lengths of the lines which make up the Hebrew letter HE on Google Earth is:

$(111 \text{ km} + 87 \text{ km} + 135 \text{ km}) \approx 334 \text{ km}$.

Now, if this sum is in turn multiplied by the width of the Arc of the Covenant, **1.5** Cubits, is:

$334 \text{ km} \times 1.5 = 501 \text{ km} (\approx 500 \text{ km})$

Interestingly, this number is 100 times the number assigned to HE, that is, **5** From this it is seen that the factor 100 is of Biblical importance.

4.2.5.3 Biblical Significance

The letter HE (or HEI) is the fifth of the Hebrew letters.

HE is assigned the numeric value 5

The number 5 indicates grace, redemption, true worship, innocence.

The number 50 indicates leadership and authority.

The number 500 indicates abundant grace.

From the pattern, it is seen that the Hebrew letter HE connects the following:

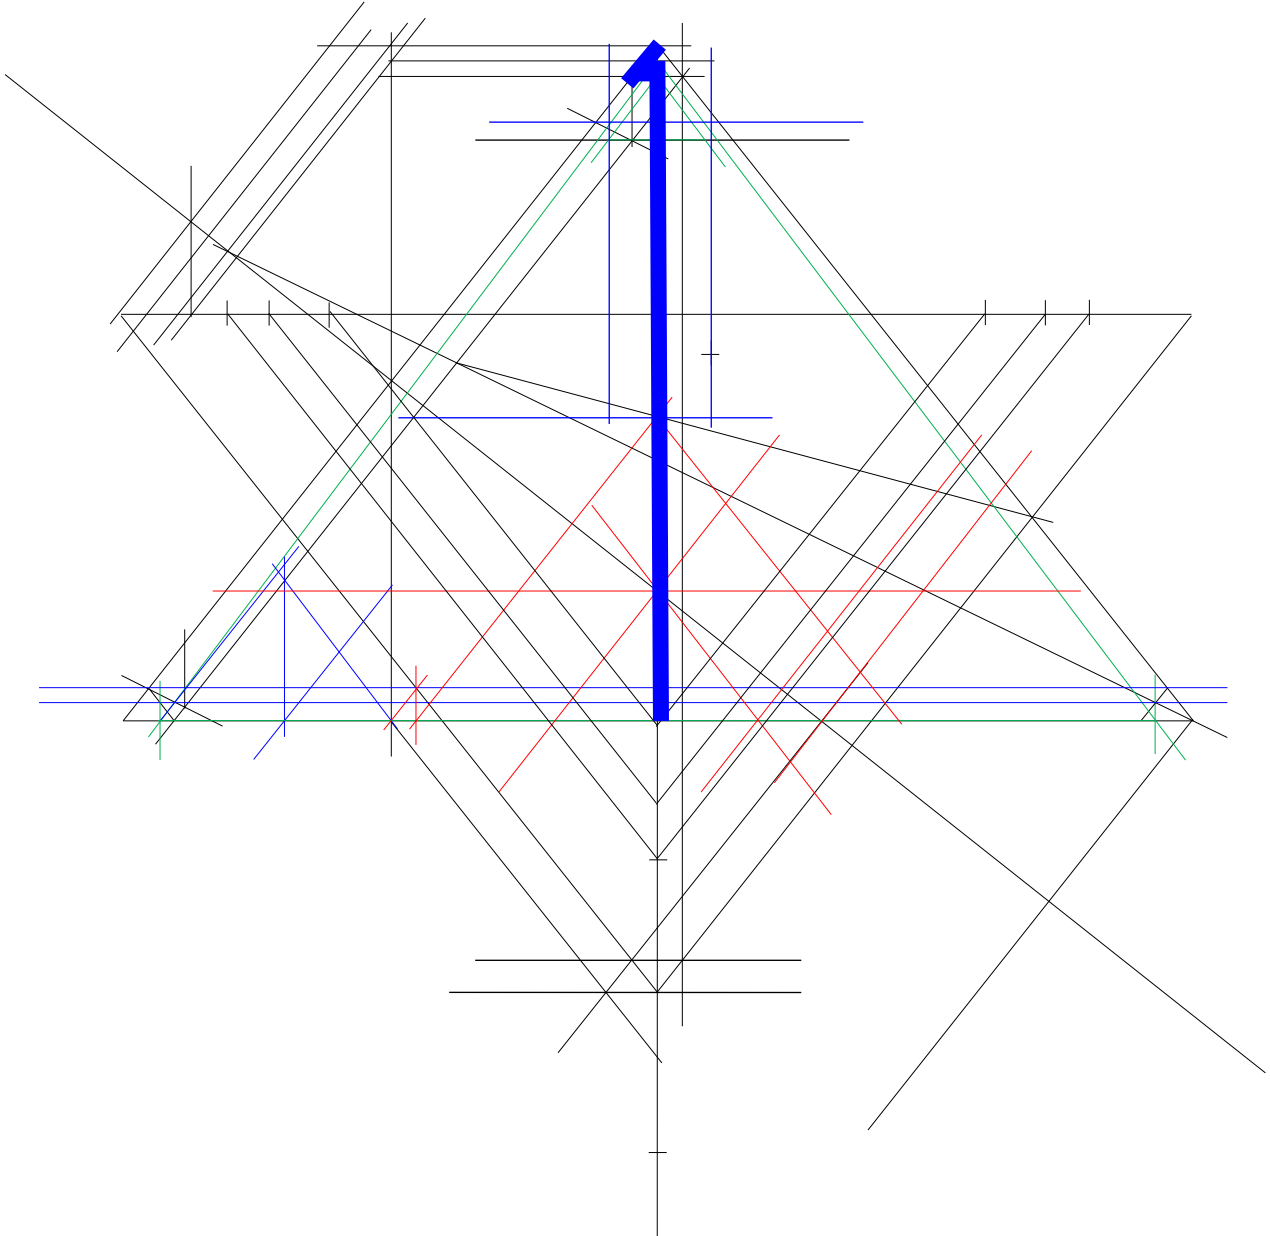

1. The geographic points on the ground or map: **Biblical Tamar and other points.** Hence, the Hebrew letter HE seems to provide independent confirmation of the Biblical locations mentioned above.
These geographic connections seem to signify relationships which exist between these places, perhaps associated with the shape and number assigned to the letter.
2. HE is seen to be associated with the cross beam of the cross, and the centre beam of the cross, and the resurrection of Jesus.

The Hebrew word for “revive” in Psalm 119:37,40, which is associated with the letter HE, is “haw-yaw” (Strongs Hebrew Lexicon H2421).⁹ The word literally means to restore to life, make alive, give life, preserve, quicken. It can therefore be symbolically associated with the giving of new life or the resurrection (Mark 9:31; Luke 18:33). It occurs 264 times in the KJV.

It is interesting to note that in terms of the pattern, the vertical line on the left of the letter HE (with the gap in it) is **used to geometrically construct the inverted triangle**, which could represent the resurrected life or resurrection of the Messiah (John 11:25; Numbers 24:17, the Star prophecy).

3. HE provides independent confirmation that the cross consisted of an upright beam and a cross beam.
4. Psalm 119 highlights the importance of the commandments of God which is directly associated with the Law and its fulfilment through Christ’s ministry and crucifixion.
5. The name of God includes two letters HE, which indicates the importance of this letter – and by implication, the resurrection as well. For this reason, the letter HE may have geometric properties which express the character and aspects of God (omnipotent, timeless, all knowing, all-seeing, etc).

4.2.6 WAW

4.2.6.1 Scripture and Hebrew Letter WAW

41 Let Your mercies come also to me, O Lord—
Your salvation according to Your word.
42 So shall I have an answer for him who reproaches me,
For I trust in Your word.
43 And take not the word of truth utterly out of **my mouth**,
For I have hoped in Your ordinances.
44 So shall I keep Your law continually,
Forever and ever.
45 And I will **walk** at liberty,
For I seek Your precepts.
46 I will **speak** of Your testimonies also before kings,
And will not be ashamed.
47 And I will delight myself in Your commandments,
Which I love.
48 **My hands also I will lift up to Your commandments**,
Which I love,
And I will meditate on Your statutes.
Psalm 119:41-48, NKJV

Key words which appear here are the following:

1. Mouth.
2. Speak.
3. “My **hands** also I will lift up to Your commandments.”

4.2.6.2 General Observations and Findings

The general distance obtained by summing all the geographic straight-line lengths of the lines which make up the Hebrew letter WAW on Google Earth is:

$(215 \text{ km} + 10 \text{ km} + 14 \text{ km}) \approx 240 \text{ km}.$

Now, if this sum is in turn multiplied by the length of the Arc of the Covenant, 2.5 Cubits, the result is:

$240 \text{ km} \times 2.5 = 600 \text{ km}$

Interestingly, this number is 10 times the number assigned to WAW, that is, 6. From this it is seen that the factor 10 is of Biblical importance.

4.2.6.3 Biblical Significance

The letter WAW (or VAV) is the sixth of the Hebrew letters.

HE is assigned the numeric value 5

The number 6 indicates man, human effort.

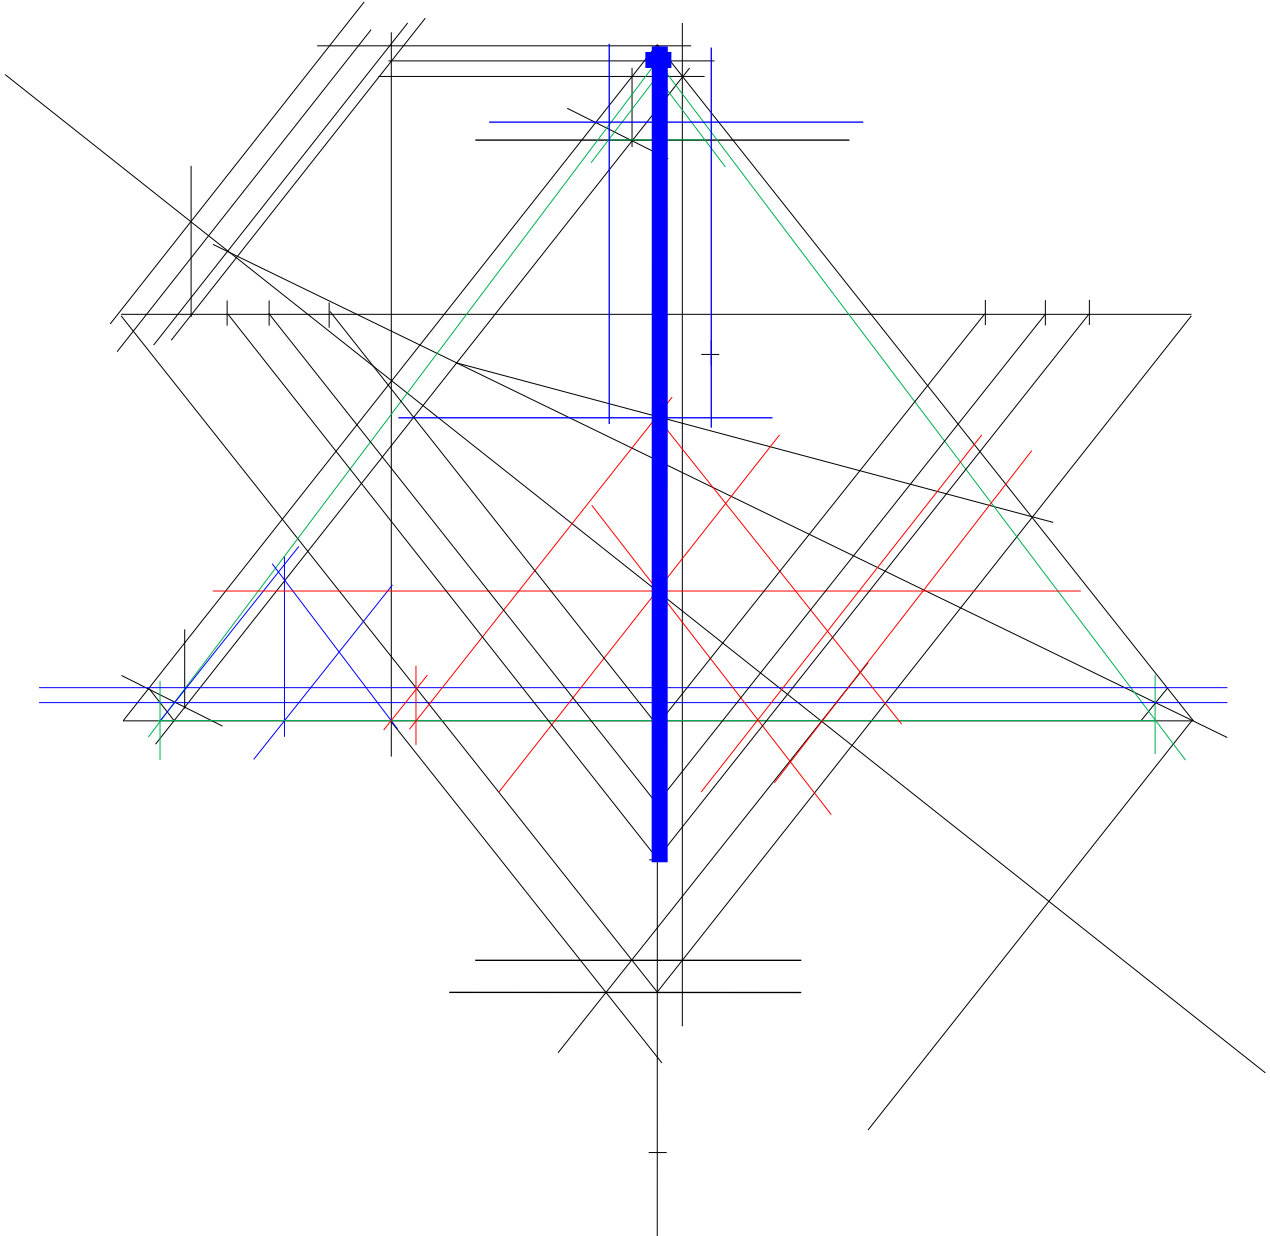

The number 60 represents outward reflection.

The number 600 indicates abundance of the natural man.

From the pattern, it is seen that the Hebrew letter WAW connects the following:

1. The Hebrew letter Waw represents a man, possibly in the standing position and could also symbolize the **sceptre** (Numbers 24:17: “*A Sceptre shall rise out of Israel.*”, commonly known as the Star Prophecy).
2. WAW provides independent confirmation that the cross consisted of an upright beam, which extended above the cross beam. It could also represent hands raised upward (Psalm 119:48); the connection of God to man (Philippians 2:6, Isaiah 53, Jacob’s Dream: Genesis 28:10-22)).
3. Psalm 119 highlights the importance of the commandments of God which is directly associated with the Law and its fulfilment through Christ’s ministry ad crucifixion.
4. WAW may express or describe aspects which are associated with or connect heaven and earth (Genesis 1:1; John 14:28).
5. Seeing that this letter has the number 6 allocated to it, it could be related in some way to physical properties of space, time, and energy.

4.2.7 ZAYIN

4.2.7.1 Scripture and Hebrew Letter ZAYIN

49 Remember the word to Your **servant**,
Upon which You have caused me to hope.
50 This is my **comfort in my affliction**,
For **Your word has given me life**.
51 The proud have me in great derision,
Yet I do not turn aside from Your law.
52 I remembered Your judgments of old, O Lord,
And have comforted myself.
53 Indignation has taken hold of me
Because of the wicked, who forsake Your law.
54 Your statutes have been my songs
In the **house of my pilgrimage**.
55 I remember **Your name in the night**, O Lord,
And I keep Your law.
56 This has become mine,
Because I kept Your precepts.
Psalm 119:49-56, NKJV

Key words which appear here are the following:

1. "In the **house** of my pilgrimage".
2. **Name** of the Lord.
3. **Night**.
4. Servant.
5. Affliction.
6. **Life** ("has given me life" – past tense).

4.2.7.2 General Observations and Findings

The general distance obtained by summing all the geographic straight-line lengths of the lines which make up the Hebrew letter ZAYIN on Google Earth is:

$$(8 \text{ km} + 272 \text{ km}) = 280 \text{ km}.$$

Now, if this sum is in turn multiplied by the length of the Arc of the Covenant, 2.5 Cubits, the result is:

$$280 \text{ km} \times 2.5 = 700 \text{ km}$$

Interestingly, this number is 100 times the number assigned to ZAYIN, that is, 7. From this it is seen that the factor 100 is of Biblical importance.

4.2.7.3 Biblical Significance

The letter ZAYIN is the seventh of the Hebrew letters.

ZAYIN is assigned the numeric value 7

The number 7 indicates perfection, call to rest, purified.

The number 70 represents spiritual leadership.

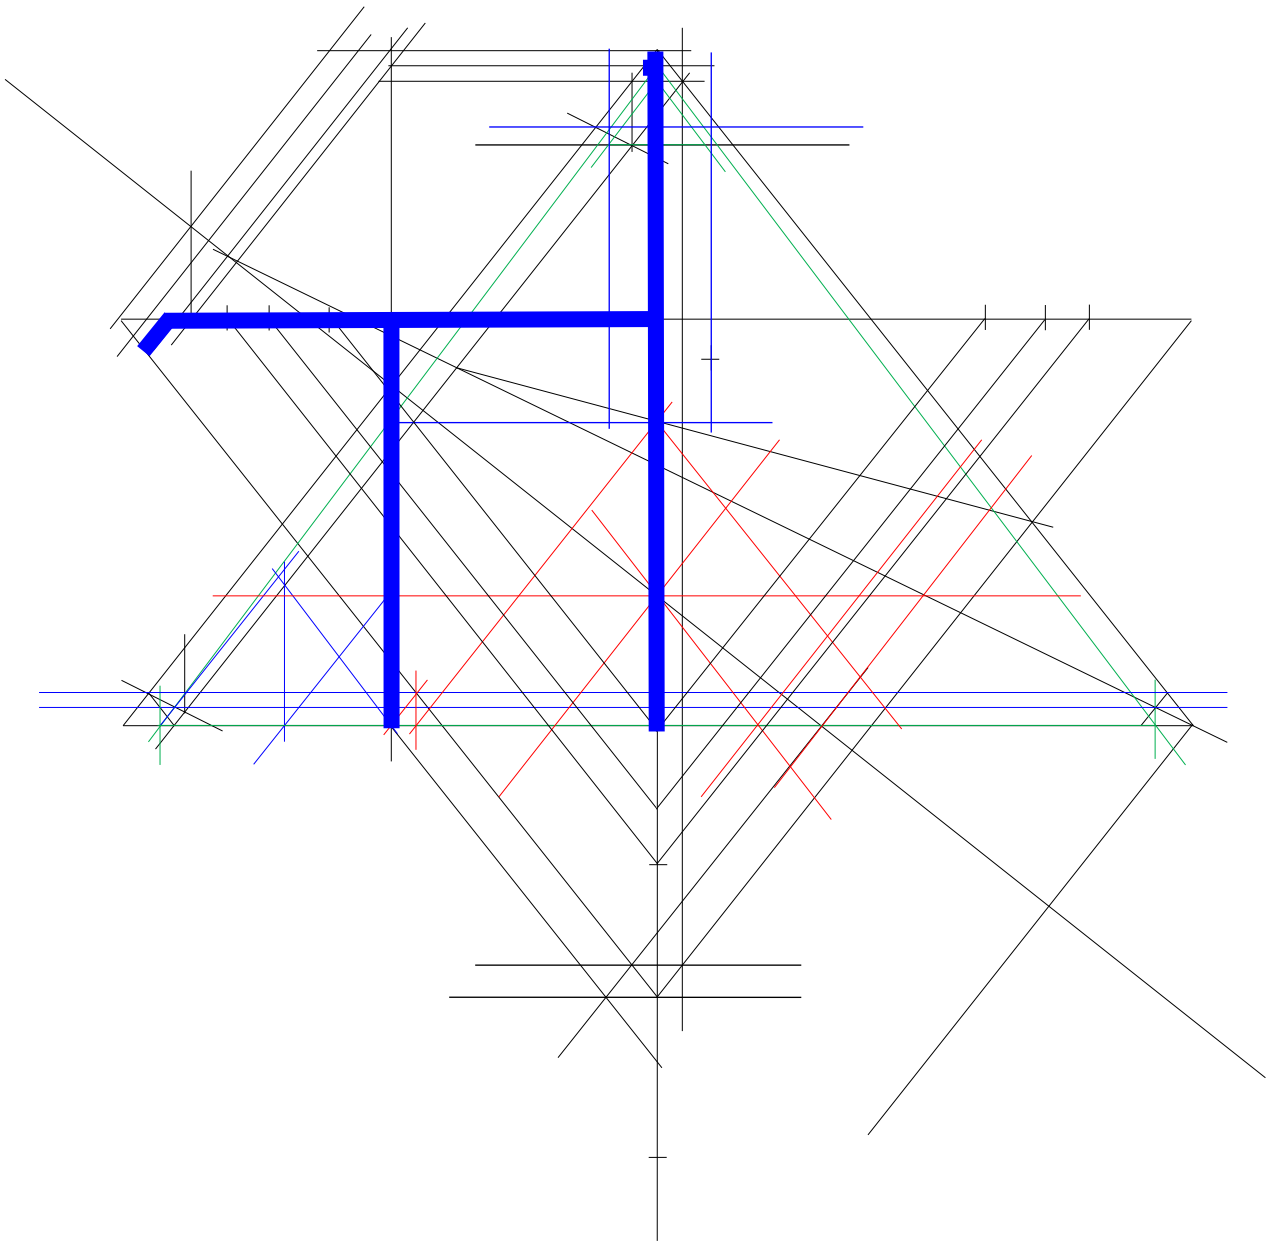

The number 700 represents perfection of spiritual leadership.

From the pattern, it is seen that the Hebrew letter ZAYIN connects the following:

1. The Hebrew letter ZAYIN represents the **sceptre** of the king (Numbers 24:17: “A *Sceptre shall rise out of Israel.*”, commonly known as the Star Prophecy) and also carries the properties and expression of a crown and a **sword**.
2. ZAYIN provides independent confirmation that the cross consisted of an upright beam, which extended above the cross beam. It could also represent hands raised upward (Psalm 119:48); the connection of God to man (Philippians 2:6, Isaiah 53, Jacob’s Dream: Genesis 28:10-22)).
3. The Hebrew word for “*life*” in Psalm 119:50 has the same root as the word “*revive*” (Strong’s Hebrew Lexicon H2421).⁹ The word literally means to restore to life, make alive, give life, preserve, quicken. It can therefore be symbolically associated with the giving of new life or the resurrection (Mark 9:31; Luke 18:33). It occurs 264 times in the KJV.

It is interesting to note that in terms of the pattern, the vertical line which passes through the apex of the pattern forms part of the letter ZAYIN. This could also represent the resurrected life or resurrection of the Messiah (John 11:25; Numbers 24:17, the Star prophecy).

4.2.8 HETH

4.2.8.1 Scripture and Hebrew Letter HETH

57 You are my portion, O Lord;
I have said that I would keep Your words.
58 I entreated Your favor with my **whole heart**;
Be merciful to me according to Your word.
59 I thought about my ways,
And turned **my feet** to Your testimonies.
60 I **made haste, and did not delay**
To keep Your commandments.
61 The **cords of the wicked have bound me**,
But I have not forgotten Your law.
62 **At midnight I will rise to give thanks to You**,
Because of Your righteous judgments.
63 I am a companion of all who fear You,
And of those who keep Your precepts.
64 The earth, O Lord, is full of Your mercy;
Teach me Your statutes.
Psalm 119:57-64, NKJV

Key words which appear here are the following:

1. Heart.
2. **Feet**.
3. *"I made haste and did not delay"*.
4. **"cords of the wicked have bound me"**.
5. **"At midnight I will rise"**.

4.2.8.2 General Observations and Findings

The general distance obtained by summing all the geographic straight-line lengths of the lines which make up the Hebrew letter HETH on Google Earth is:

(135 km + 135 km + 88 km + 4 km + 158 km + 14 km) = **534 km**.

Now, if this sum is in turn multiplied by the width of the Arc of the Covenant, 1.5 Cubits, the result is:

534 km x **1.5 = 801 km (≈ 800 km)**

Interestingly, this number is 100 times the number assigned to HETH, that is, 8. From this it is seen that the factor 100 is of Biblical importance.

4.2.8.3 Biblical Significance

The letter HETH (or CHET) is the eighth of the Hebrew letters.

HETH is assigned the numeric value 8

The number 8 indicates resurrection, new beginning, circumcision (or a covenant), peace.
The number 80 represents fullness in Christ.
The number 800 represents Jesus is Lord of all.

From the pattern, it is seen that the Hebrew letter HETH connects the following:

1. The Hebrew letter HET connects the proposed location of Mount Hor; Biblical Tamar; the symbolism of the sceptre; the staff of Moses, the upright beam of the cross; the cross beam of the cross; and various other geographic locations.
2. The Hebrew letter HETH represents the sceptre of the king (Numbers 24:17: “*A Sceptre shall rise out of Israel.*”, commonly known as the Star Prophecy) and also carries the properties and expression of a crown and a sword.
3. HETH provides independent confirmation that the cross consisted of an upright beam, which extended above the cross beam.
4. The Hebrew word for “*rise*” in Psalm 119:62 is the word “*koom*” (Strongs Hebrew Lexicon H6965).⁹ The word literally means to “get up”, “lift up”, “raise”, “rouse up”, “make to stand up” and occurs 628 times in the KJV.

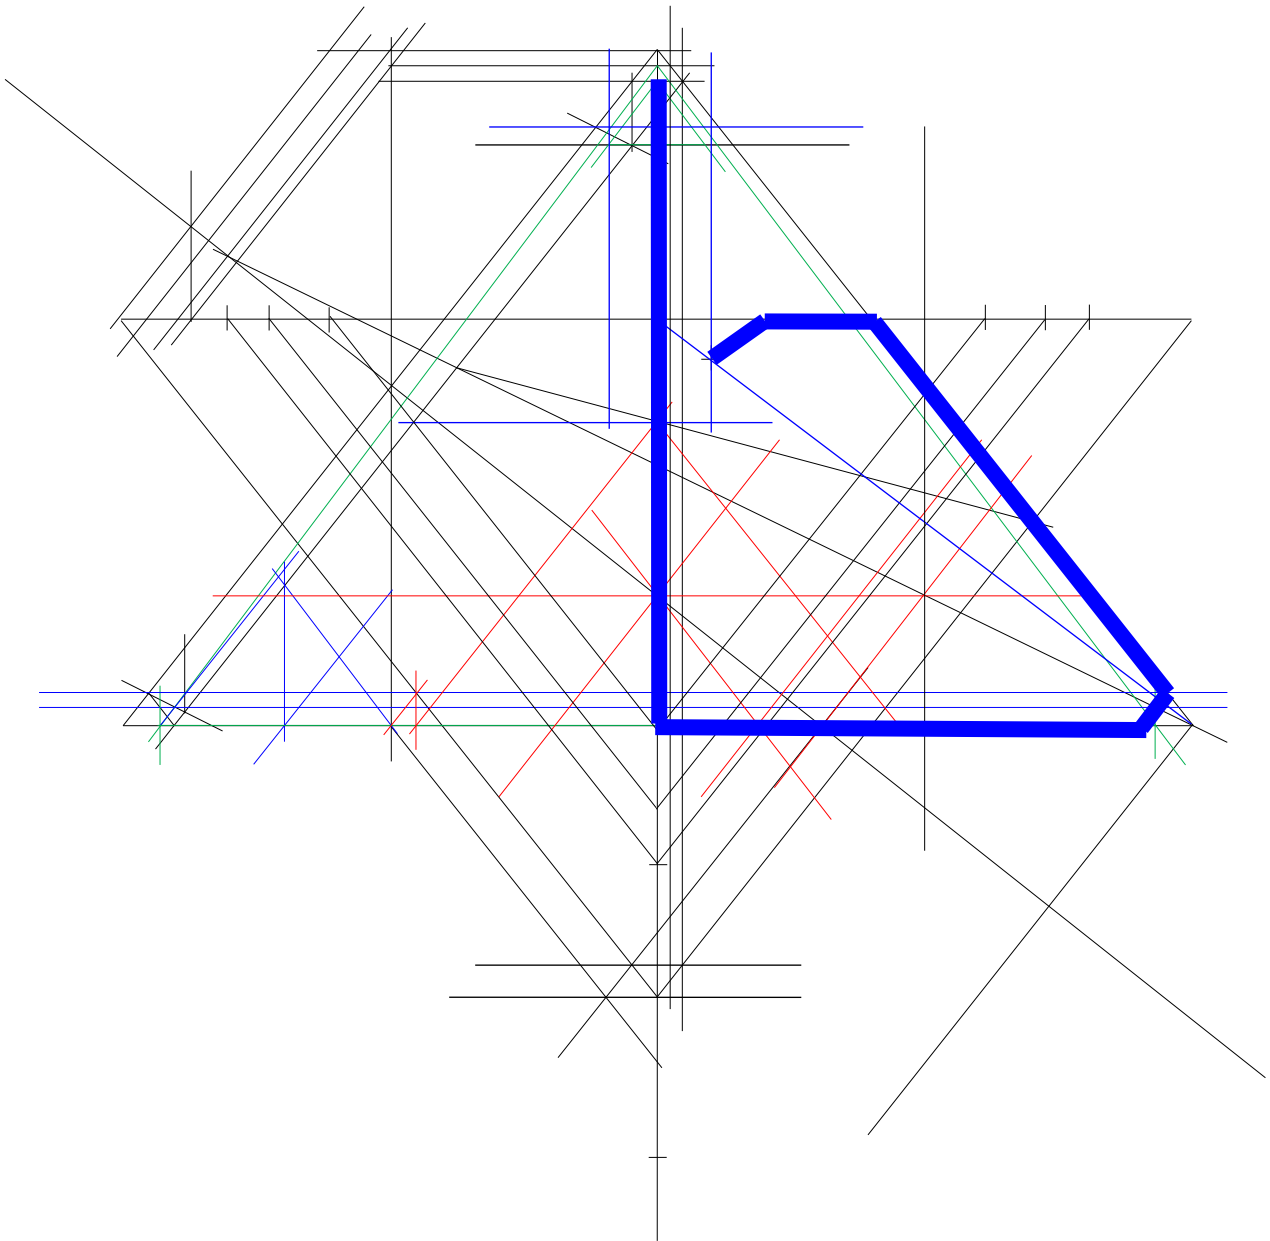

It is interesting to note that in terms of the pattern, the vertical line which passes through the apex of the pattern forms part of the letter HETH. This could also represent the resurrected life or resurrection of the Messiah (John 11:25; Numbers 24:17, the Star prophecy). The shape and form of the letter seems to suggest something rising up out of “slumber”.

It is interesting to note that in terms of the pattern, the vertical line on the left of the letter HETH is ***used to geometrically construct the inverted triangle***, which could represent the resurrection of the Messiah (John 11:25; Numbers 24:17, the Star prophecy). This line also connects the cross beam of the cross with the symbolic representation of the world (Jesus resurrected for all of mankind).

It is interesting to note that the word “*midnight*” is used in the same verse in connection with rising up. This could suggest that Jesus resurrected at midnight. There are clues in the Scripture which may support this:

- (1) Jesus nullified the curse of the first born mentioned in the book of Exodus which took into effect at midnight (Exodus 11:4; 12:29).
- (2) The kinsman redeemer (Ruth 3:8) who turned and looked at his feet at **midnight** and saw Ruth who lay at His feet.
- (3) The story of the wisdom of Solomon and the two women with the dead child. Here 3 days is mentioned, **midnight, and the death of the child (both a living and a dead son)** (1 Kings 3:16-23). A sword is also mentioned in this passage which related directly to the symbols indicated in this letter (a sword).
- (4) **Midnight** is also mentioned in the Scripture with reference to the return of Jesus (Matthew 25:6; Mark 13:35).
- (5) **Midnight** is also mentioned in the Scripture with reference to the events in the book of Acts (Acts 16:25; 20:7; 27:27).
- (6) “**I rise before the dawning of the morning**” (Psalm 119:147) is associated with the Hebrew letter QOPH. This could also be associated with Christ’s resurrection and supports Psalm 119:62.

4.2.9 TETH

4.2.9.1 Scripture and Hebrew Letter TETH

**65 You have dealt well with Your servant,
O Lord, according to Your word.**
66 Teach me **good** judgment and knowledge,
For I believe Your commandments.
67 Before I was **afflicted** I went astray,
But now I keep Your word.
68 You are **good**, and do **good**;
Teach me Your statutes.
69 The proud have forged a lie against me,
But I will keep Your precepts with my whole **heart**.
70 Their heart is as fat as grease,
But I delight in Your law.
71 It is **good** for me that I have been afflicted,
That I may learn Your statutes.
72 The law of Your **mouth** is better to me
Than thousands of **coins of gold and silver**.
Psalm 119:65-72, NKJV

Key words which appear here are the following:

1. Afflicted.
2. Heart.
3. Mouth.
4. Coins of gold and silver.

4.2.9.2 General Observations and Findings

The general distance obtained by summing all the geographic straight-line lengths of the lines which make up the Hebrew letter TETH on Google Earth is:

(214 km + 157 km + 14 km + 156 km + 35 km + 24 km) $\approx$ **600 km**.

Now, if this sum is in turn multiplied by the length of the Arc of the Covenant, **2.5** Cubits, the result is:

600 km x **2.5** = **900**

Interestingly, this number is 100 times the number assigned to TETH (9).

4.2.9.3 Biblical Significance

The letter TETH (or TET) is the ninth of the Hebrew letters.

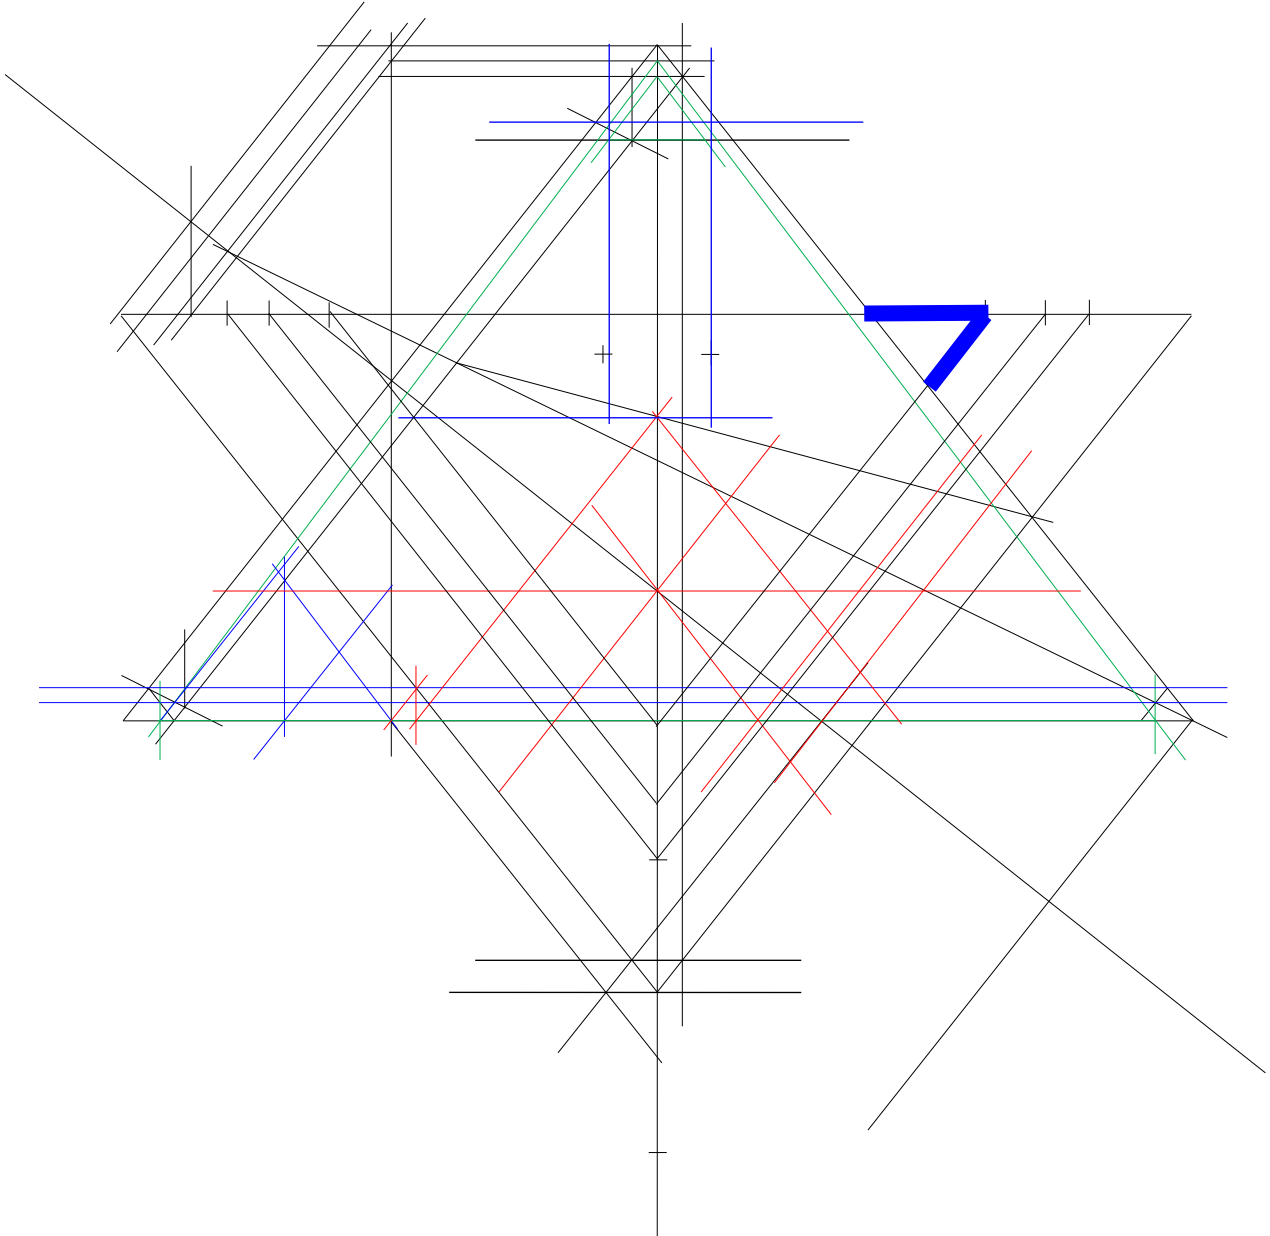

TETH is assigned the numeric value 9

The number 9 indicates almost complete, harvest, gifts of the Spirit, judgement.
The number 90 represents tested and approved.
The number 900 represents complete return.

From the pattern, it is seen that the Hebrew letter TETH connects the following:

1. The Hebrew letter TETH connects the proposed location of Mount Hor; Biblical Tamar; the symbolism of the sceptre; the staff of Moses, the upright beam of the cross; the cross beam of the cross; where Jesus was pierced in His side (and hence also Kadesh Barnea); the Star of David; and various other geographic locations (e.g.: Jotbatha, where there were streams of water in the desert (Deuteronomy 10:7). Deuteronomy 10:7 symbolically represents the piercing of Jesus the Messiah in His side (John 19:34).
2. TETH seems to take the form of a vessel which holds something and also seems to portray a message about something concealed, as if to say that the piercing of Christ holds something good, hidden, and which holds great value.
3. The Hebrew letter TETH forms part of the sceptre of the king (Numbers 24:17: “*A Sceptre shall rise out of Israel.*”, commonly known as the Star Prophecy).
4. TETH provides independent confirmation that the cross included an upright beam.
5. The number nine associated with TETH and the shape and form of the letter may suggest symbolism relating to birth, renewal, or rebirth.

4.2.10 YOD

4.2.10.1 Scripture and Hebrew Letter YOD

73 Your **hands have made** me and fashioned me;
Give me understanding, that I may learn Your commandments.
74 Those who fear You will be glad when they see me,
Because I have hoped in Your word.
75 I know, O Lord, that Your judgments are right,
And that in faithfulness You have afflicted me.
76 Let, I pray, Your merciful kindness be for my comfort,
According to Your word to Your servant.
77 Let Your tender mercies come to me, that I may live;
For Your law is my delight.
78 Let the proud be ashamed,
For they treated me wrongfully with falsehood;
But I will meditate on Your precepts.
79 Let those who fear You turn to me,
Those who know Your testimonies.
80 Let my **heart** be blameless regarding Your statutes,
That I may not be ashamed.
Psalm 119:73-80, NKJV

Key words which appear here are the following:

1. Hands.
2. Heart.

4.2.10.2 General Observations and Findings

The general distance obtained by summing all the geographic straight-line lengths of the lines which make up the Hebrew letter YOD on Google Earth is:

(37 km + 30 km) $\approx$ **67 km**.

Now, if this sum is in turn multiplied by the width of the Arc of the Covenant, 1.5 Cubits, the result is:

67 km x **1.5** $\approx$ **100 km**

Interestingly, this number 10 is assigned to YOD, the factor 10 is of significance here.

4.2.10.3 Biblical Significance

The letter YOD (or YUD) is the tenth of the Hebrew letters.

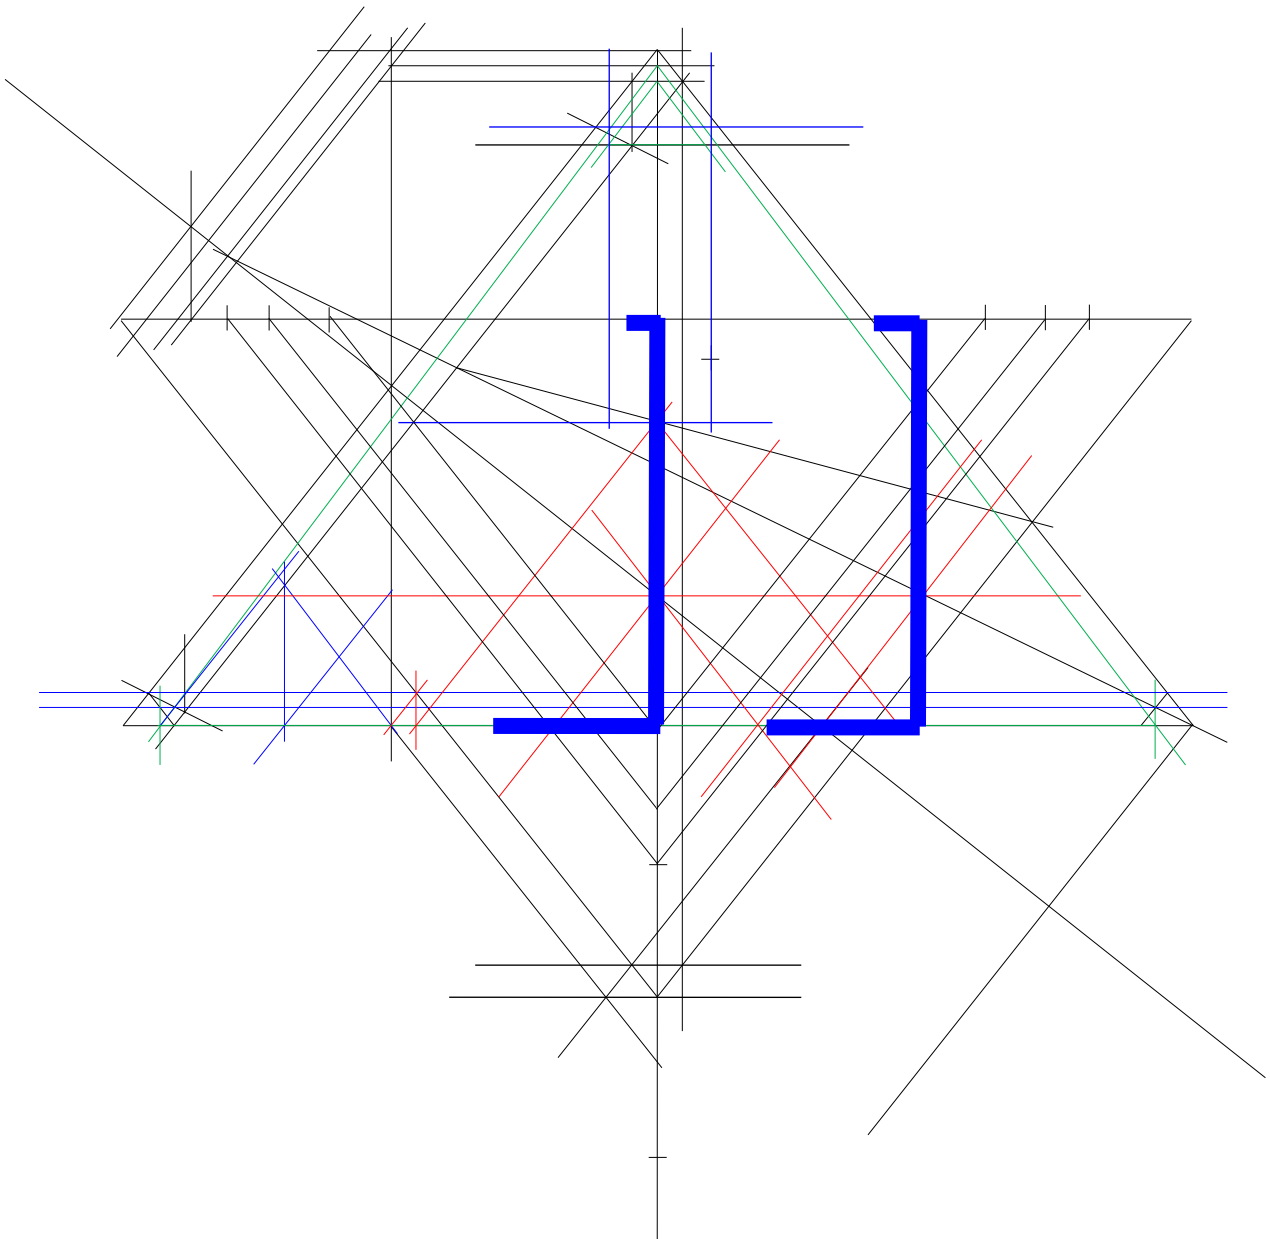

TETH is assigned the numeric value 10

The number 10 indicates fulfilment, congregation, responsibility, tithing, leadership.
The number 10 represents abundant return.
The number 1000 maturity.

From the pattern, it is seen that the Hebrew letter YOD connects the following:

1. The Hebrew letter HET connects the proposed locations of Hazeroth (?), the Star of David, and Jesus' nail pierced hands (Revelation 1:7; Psalm 22:16-17).
2. ***Clearly, the word "hands" mentioned in Psalm 119:73 bears direct relation to the letter YOD as YOD includes the very point which symbolically represents where Jesus was pierced in His hands (Psalm 22:16-17).***
3. ***YOD also includes a section of the inner branches of the Menorah and the cross beam of the cross and relates this to Jesus' hands and the Star of David***
4. ***This is a very important letter as it is the first letter of the name of God, from which it can be seen that it starts with pierced hands!***
5. Many of the other Hebrew letters have a YOD in them.
6. The number 10, which is allocated to YOD, is highly important and can be seen in the Ten Commandments and many other items/symbols in the Bible.

4.2.11 KAPH

4.2.11.1 Scripture and Hebrew Letter KAPH

81 My soul faints for Your salvation,
But I hope in Your word.
82 My **eyes** fail from searching Your word,
Saying, "When will You comfort me?"
83 For I have become like a **wineskin in smoke**,
Yet I do not forget Your statutes.
84 How many are **the days** of Your servant?
When will You execute judgment on those who persecute me?
85 The **proud have dug pits for me**,
Which is not according to Your law.
86 All Your commandments are faithful;
They persecute me wrongfully;
Help me!
87 They almost made an end of me on earth,
But I did not forsake Your precepts.
88 **Revive** me according to Your lovingkindness,
So that I may keep the testimony of Your mouth.
Psalm 119:81-88, NKJV

Key words which appear here are the following:

1. Eyes.
2. Wineskin in smoke.
3. Days.
4. Pits.
5. **Revive.**

4.2.11.2 General Observations and Findings

The general distance obtained by summing all the geographic straight-line lengths of the lines which make up the Hebrew letter KAPH on Google Earth is:

$(135 \text{ km} + 8 \text{ km} + 57 \text{ km}) \approx \mathbf{200 \text{ km}}$.

or

$(135 \text{ km} + 17 \text{ km} + 48 \text{ km}) \approx \mathbf{200 \text{ km}}$.

Interestingly, this number is 10 times the number assigned to KAPH, that is, 20. From this it is seen that the factor 10 is of Biblical significance in the pattern.

4.2.11.3 Biblical Significance

The letter KAPH (or KAF) is the eleventh of the Hebrew letters.

KAPH is assigned the numeric value 20

The number 2 indicates agreement.

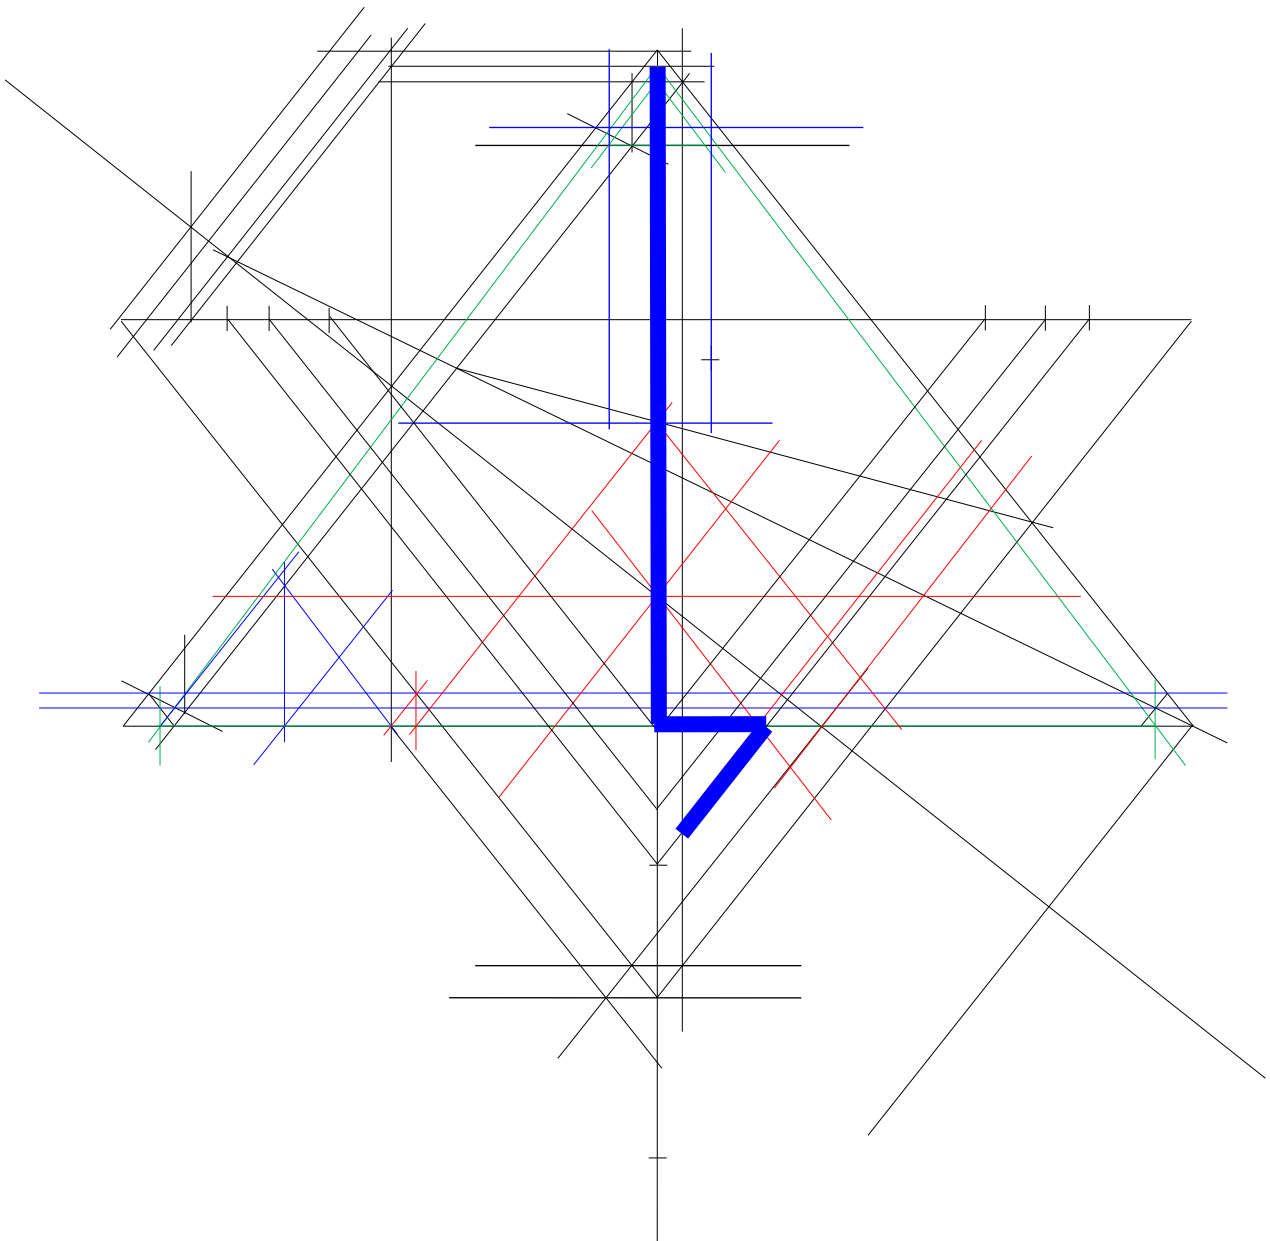

The number 20 indicates reward.

The number 200 represents complete deficiency.

From the pattern, it is seen that the Hebrew letter KAPH connects the following:

1. The Hebrew letter KAPH connects the proposed location of Hazeroth (?); the open hands of Jesus, the resurrection of Jesus, the Star of David, and the outer branch of the Menorah. There may be geographic points on the ground which are mapped out by the letter, the topography of which may contain pits or cavities – this could be confirmed at a later stage, when mapping tools are available.
2. It is interesting to note that in terms of the pattern, the vertical line in the letter KAPH is ***used to geometrically construct the inverted triangle***, which could represent or symbolize the resurrection of the Messiah (John 11:25; Numbers 24:17, the Star prophecy). This line also connects the cross beam of the cross with the symbolic representation of the world (Jesus resurrected for all of mankind). (**Note:** *There may be two options for construction of the vertical line in this letter: One may be the vertical upright of the cross and the other the “resurrection line” described above*).
3. The Hebrew word for “revive” in Psalm 119:88, which is associated with the letter HE, is “haw-yaw” (Strong’s Hebrew Lexicon H2421).⁹ The word literally means to restore to life, make alive, give life, preserve, quicken. It can therefore be symbolically associated with the giving of new life or the resurrection (Mark 9:31; Luke 18:33). It occurs 264 times in the KJV.

4.2.12 LAMED

4.2.12.1 Scripture and Hebrew Letter LAMED

89 Forever, O Lord,
Your word is **settled in heaven**.
90 Your faithfulness endures to all generations;
You **established the earth**, and it abides.
91 They **continue this day** according to **Your ordinances**,
For all are Your servants.
92 Unless Your law had been my delight,
I would then have perished in my affliction.
93 I will never forget Your precepts,
For by them You have given me life.
94 I am Yours, save me;
For I have sought Your precepts.
95 The wicked wait for me to destroy me,
But I will consider Your testimonies.
96 I have seen the **consummation of all perfection**,
But Your commandment is **exceedingly broad**.
Psalm 119:89-96, NKJV

Key words which appear here are the following:

1. Word is settled in **heaven**.
2. **Established the earth**.
3. Continue this day.
4. Ordinances.
5. “*consummation of all perfection*.”
6. “*exceedingly broad*”.

4.2.12.2 General Observations and Findings

The general distance obtained by summing all the geographic straight-line lengths of the lines which make up the Hebrew letter LAMED on Google Earth is:

$(220 \text{ km} + 35 \text{ km} + 44 \text{ km}) \approx \mathbf{300 \text{ km}}$.

Interestingly, the number 30 is assigned to the Hebrew Letter LAMED.

4.2.12.3 Biblical Significance

The letter LAMED is the twelfth of the Hebrew letters.

LAMED is assigned the numeric value 30.

The number 30 indicates the fashioning of character, start of ministry.
The number 300 represents faithful remnant.

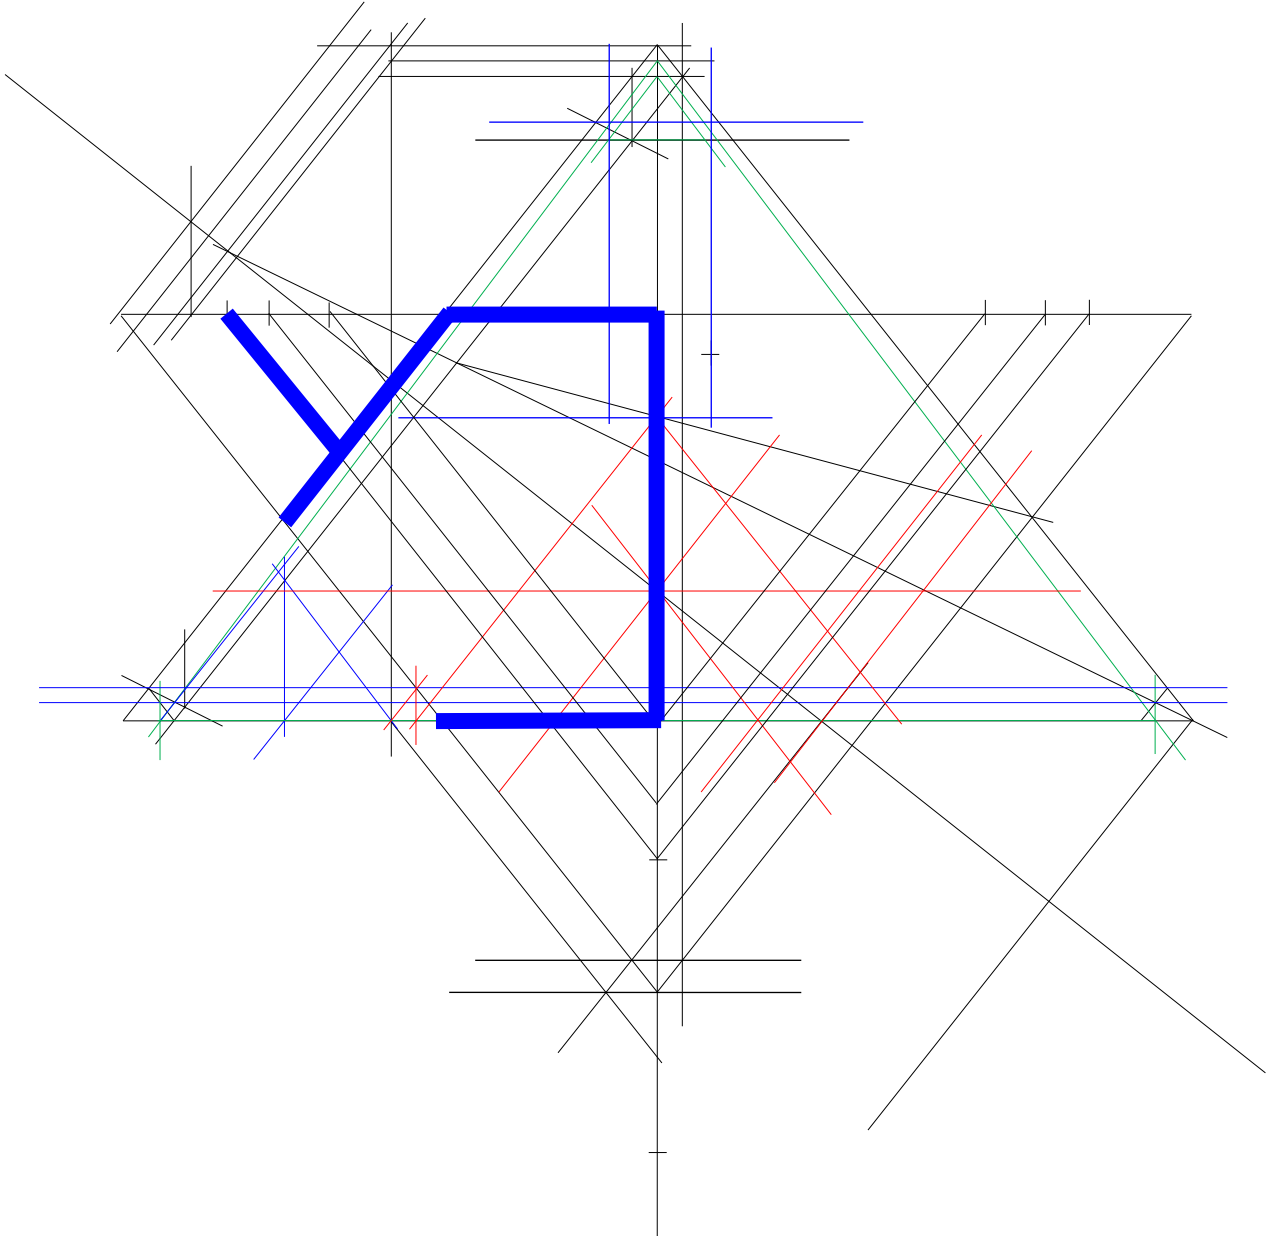

From the pattern, it is seen that the Hebrew letter LAMED connects the following:

1. The Hebrew letter LAMED connects the vertical beam of the cross, and the outer branches of the Menorah. The geographic points on the ground mapped out by this letter are yet to be defined.

2. The Hebrew letter LAMED relates to the upright beam of the cross and probably also relates this to the sceptre of the king (Numbers 24:17: *"A Sceptre shall rise out of Israel."*, commonly known as the Star Prophecy), a sword, and the staff of Moses.
3. LAMED provides independent confirmation that the cross consisted of an upright beam (Colossians 1:20)
4. The letter LAMED seems to symbolically relate things of heaven and things established on earth (Psalm 119:89-91; Matthew 6:10) relating to laws and ordinances.

It is interesting to note that in terms of the pattern, the vertical line which passes through the apex of the pattern forms part of the letter LAMED. This could also represent the resurrected life or resurrection of the Messiah (John 11:25; Numbers 24:17, the Star prophecy).

4.2.13 MEM

4.2.13.1 Scripture and Hebrew Letter MEM

97 Oh, how I love Your law!
It is my meditation all the day.
98 You, through Your commandments, make me wiser than my enemies;
For they are ever with me.
99 I have more understanding than all my teachers,
For Your testimonies are my meditation.
100 I understand more than the ancients,
Because I keep Your precepts.
101 I have **restrained my feet** from every evil way,
That I may keep Your word.
102 I have not departed from Your judgments,
For You Yourself have taught me.
103 How sweet are Your words to **my taste**,
Sweeter than **honey to my mouth!**
104 Through Your precepts I get understanding;
Therefore I hate every false way.
Psalm 119:97-104, NKJV

Key words which appear here are the following:

1. “restrained my feet from every evil way.”
2. Honey.
3. Mouth.

4.2.13.2 General Observations and Findings

The general distance obtained by summing all the geographic straight-line lengths of the lines which make up the Hebrew letter MEM on Google Earth is:

(74 km + 74 km + 57 km + 60 km + 135 km) $\approx$ **400 km.**

Interestingly, this number assigned to MEM is 40, hence 400 is 10 times this value.

4.2.13.3 Biblical Significance

The letter MEM is the thirteenth of the Hebrew letters.

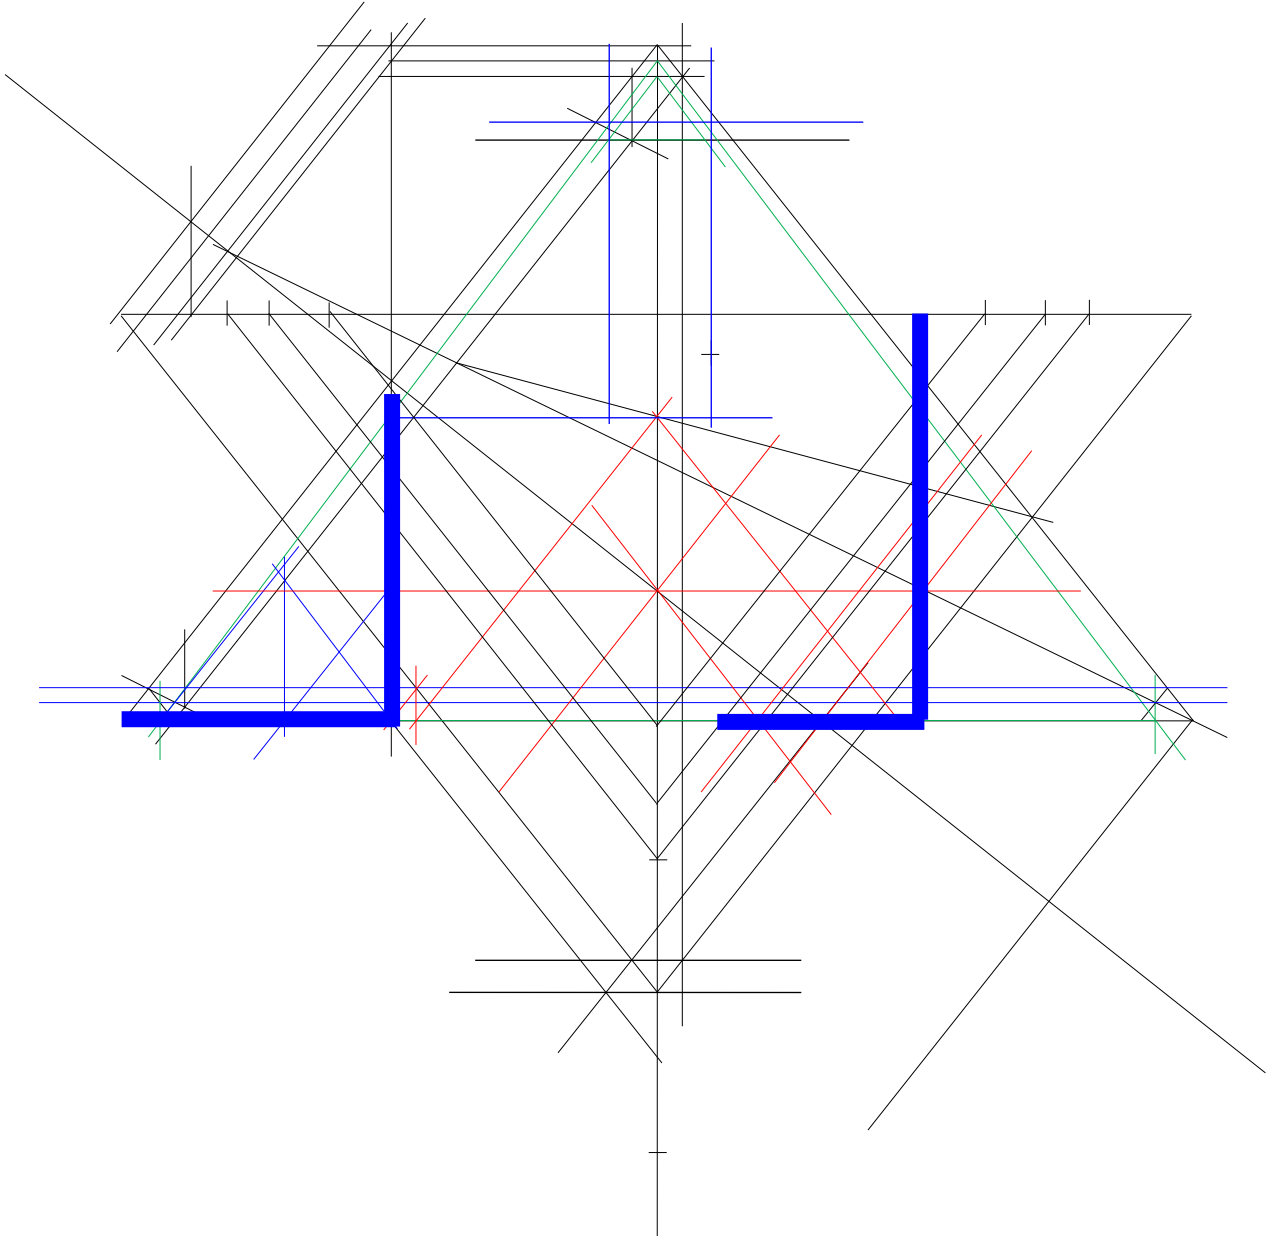

MEM is assigned the numeric value 40.

The number 40 indicates mature leadership.
The number 400 represents full dominion.

From the pattern, it is seen that the Hebrew letter MEM connects the following:

1. The Hebrew letter MEM connects the vertical beam of the cross; Biblical Tamar, the outer branches of the Menorah, the Star of David, and various geographic points on the ground mapped out by this letter are yet to be defined.
2. MEM provides independent confirmation that the cross consisted of an upright and cross beam (Colossians 1:20)
3. The FINAL MEM takes the form of a “closed” MEM, which perhaps relates to a closed cycle (See FINAL MEM).

4.2.14 NUN

4.2.14.1 Scripture and Hebrew Letter NUN

105 Your word is a **lamp to my feet**
And a **light to my path**.
106 I have sworn and confirmed
That I will keep Your righteous judgments.
107 I am afflicted very much;
Revive me, O Lord, according to Your word.
108 Accept, I pray, the freewill offerings of **my mouth**, O Lord,
And teach me Your judgments.
109 My life is continually in **my hand**,
Yet I do not forget Your law.
110 The wicked have **laid a snare for me**,
Yet I have not strayed from Your precepts.
111 Your testimonies I have taken as a **heritage forever**,
For they are the rejoicing of my **heart**.
112 I have **inclined my heart to perform** Your statutes
Forever, **to the very end**.
Psalm 119:97-104, NKJV

Key words which appear here are the following:

1. Lamp.
2. Feet.
3. Light.
4. Path.
5. Mouth.
6. Hand.
7. Snare.
8. Heart.
9. "inclined my heart to perform".
10. "to the very end".
11. **Revive**.

4.2.14.2 General Observations and Findings

The general distance obtained by summing all the geographic straight-line lengths of the lines which make up the Hebrew letter NUN on Google Earth is:

(110 km + 90 km) $\approx$ 200 km.

Now, if this sum is in turn multiplied by the length of the Arc of the Covenant, 2.5 Cubits, the result is:

200 km x **2.5** = 500 **km**

or

(135 km + 65 km) = **200 km x 2.5 = 500 km**

Interestingly, this number is 100 times the number assigned to NUN, that is, 5. From this it is seen that the factor 100 is of Biblical importance.

4.2.14.3 Biblical Significance

The letter NUN is the fourteenth of the Hebrew letters.

NUN is assigned the numeric value 5.

The number 5 indicates grace, redemption, true worship, innocence.

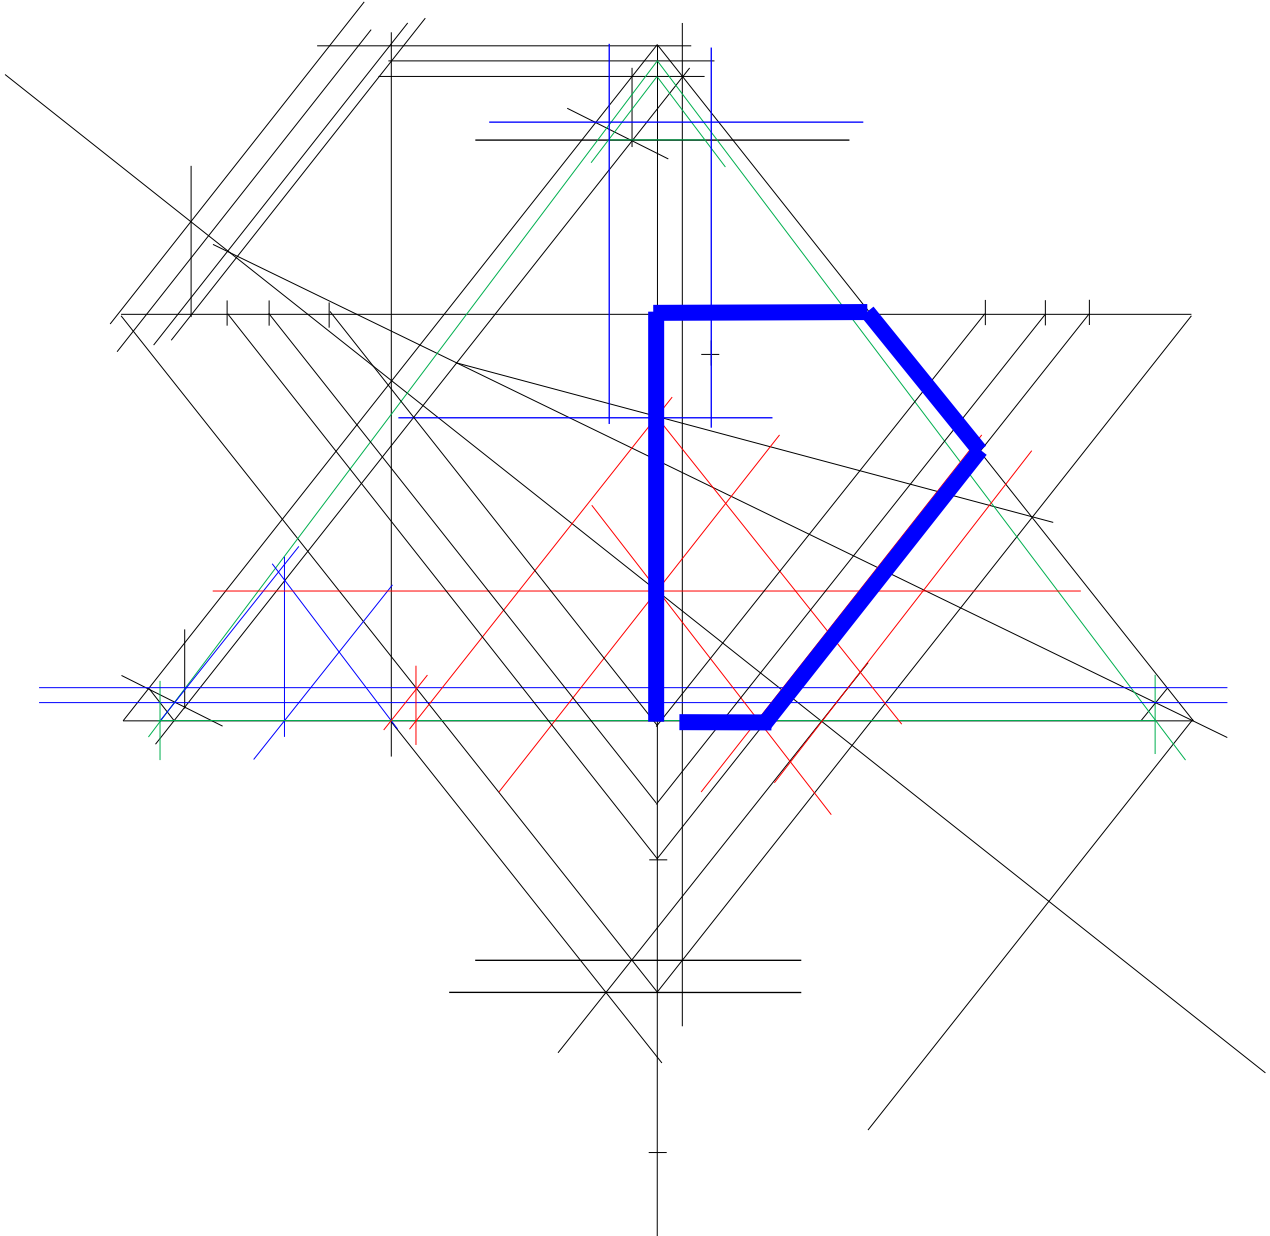

The number 50 indicates leadership and authority.

The number 500 represents abundant grace.

From the pattern, it is seen that the Hebrew letter NUN connects the following:

1. The Hebrew letter NUN can be formed in two different ways (See figure above). The first form seems to connect the Star of David, the cross beam of the cross, and the cornerstone.
2. It is interesting to note that in terms of the pattern, the vertical line in the letter NUN (for both forms mentioned here) is **used to geometrically construct the inverted triangle**, which could represent the resurrection of the Messiah (John 11:25; Numbers 24:17, the Star prophecy). This line also connects the cross beam of the cross with the middle branches of the menorah.
3. As with other letters of the Hebrew alphabet, the Hebrew word for “revive” in Psalm 119:107, which is associated with the letter NUN (both forms), is “haw-yaw” (Strong’s Hebrew Lexicon H2421).⁹ The word literally means to restore to life, make alive, give life, preserve, quicken. It can therefore be symbolically associated with the giving of new life or the resurrection (Mark 9:31; Luke 18:33). It occurs 264 times in the KJV.

4.2.15 SAMEK

4.2.15.1 Scripture and Hebrew Letter SAMEK

113 I hate the **double-minded**,
But I love Your law.
114 You are my **hiding place and my shield**;
I hope in Your word.
115 Depart from me, you evildoers,
For I will keep the commandments of my God!
116 **Uphold me** according to Your word, that I may live;
And do not let me be ashamed of my hope.
117 **Hold me up, and I shall be safe**,
And I shall observe Your statutes continually.
118 You reject all those who stray from Your statutes,
For their deceit is falsehood.
119 You put away all the wicked of the earth like dross;
Therefore I love Your testimonies.
120 My flesh trembles for fear of You,
And I am afraid of Your judgments.
Psalm 119:113-120, NKJV

Key words which appear here are the following:

1. Double-minded.
2. Hiding place.
3. Shield.
4. "Hold me up and I shall be safe".
5. **Uphold me**.

4.2.15.2 General Observations and Findings

The general distance obtained by summing all the geographic straight-line lengths of the lines which make up the Hebrew letter SAMEK on Google Earth is:

$(135 \text{ km} + 114 \text{ km} + 58 \text{ km} + 70 \text{ km} + 24 \text{ km}) \approx 401 \text{ km}$.

Now, if this sum is in turn multiplied by the width of the Arc of the Covenant, 1.5 Cubits, the result is:

$401 \text{ km} \times 1.5 = 601.5 \text{ km} (\approx 600 \text{ km})$

Interestingly, this number is 10 times the number assigned to SAMEK, that is, 60. From this it is seen that the factor 10 is of Biblical importance.

4.2.15.3 Biblical Significance

The letter SAMEK is the fifteenth of the Hebrew letters.

SAMEK is assigned the numeric value 60.

The number 6 indicates spirit of man, human, man without God.

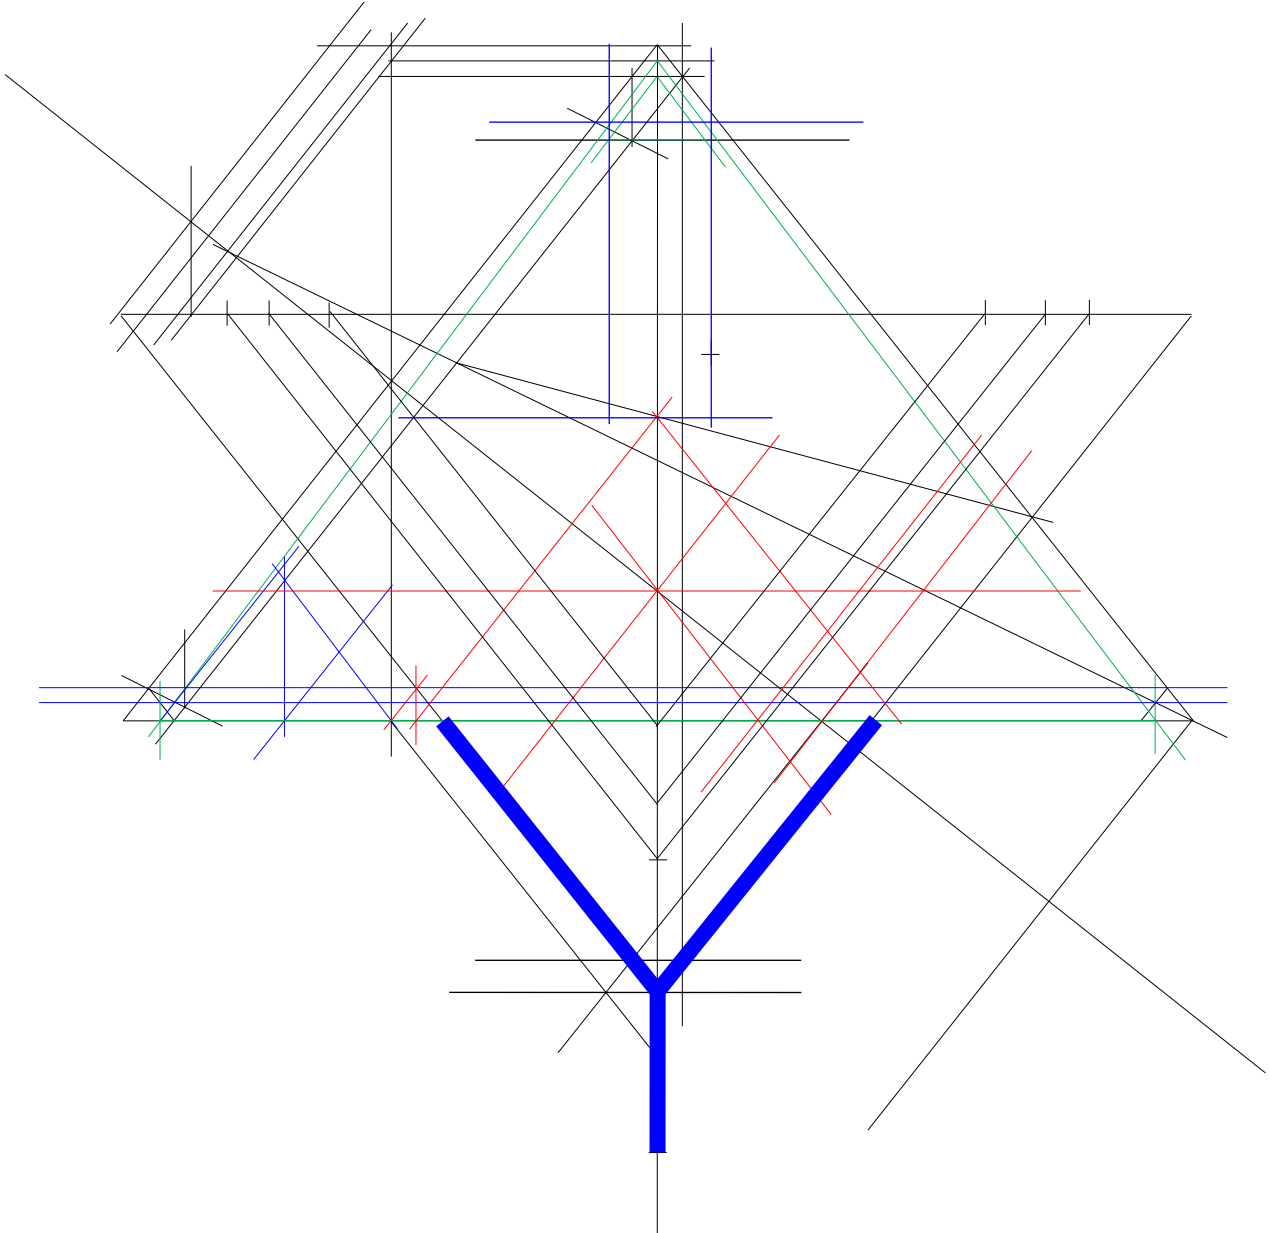

The number 60 indicates outward reflection.

The number 600 represents abundance of the natural man.

From the pattern, it is seen that the Hebrew letter SAMEK connects the following:

1. The Hebrew letter SAMEK connects the Star of David, the cross beam of the cross, the centre beam of the cross, the outer branches of the menorah.
2. The Hebrew alphabet, the Hebrew word for “*uphold*” in Psalm 119:116, which is associated with the letter SAMEK, is “*bear up*”, “*prop*”, “*stand fast*”, and “*sustain*” and holds up all who have fallen (Strong's Hebrew Lexicon H5564).⁹ It can therefore be symbolically associated with God sustaining and upholding all. It occurs 48 times in the KJV.

4.2.16 AYIN

4.2.16.1 Scripture and Hebrew Letter AYIN

121 I have done justice and righteousness;
Do not leave me to my oppressors.
122 Be surety for Your servant for good;
Do not let the proud oppress me.
123 My eyes fail from seeking Your salvation
And Your righteous word.
124 Deal with Your servant according to Your mercy,
And teach me Your statutes.
125 I am Your servant;
Give me understanding,
That I may know Your testimonies.
126 It is time for You to act, O Lord,
For they have regarded Your law as void.
127 Therefore I love Your commandments
More than gold, yes, than fine gold!
128 Therefore all Your precepts concerning all things
I consider to be right;
I hate every false way.
Psalm 119:121-128, NKJV

Key words which appear here are the following:

1. **Eyes.**
2. Fine gold.
3. Justice (and “have done”).

4.2.16.2 General Observations and Findings

The general distance obtained by summing all the geographic straight-line lengths of the lines which make up the Hebrew letter AYIN on Google Earth is:

$(114 \text{ km} + 114 \text{ km} + 52 \text{ km}) \approx \mathbf{280 \text{ km}}$

Now, if this sum is multiplied by the length of the Arc of the Covenant, 2.5 Cubits, the result is:

$280 \text{ km} \times \mathbf{2.5} = \mathbf{700 \text{ km}}$

Interestingly, this number is 10 times the number assigned to AYIN, that is, 70. From this it is seen that the factor 10 is of Biblical importance.

AYIN is a silent letter, possibly because it “connects” both sides of the Star of David.

4.2.16.3 Biblical Significance

The letter AYIN is the sixteenth of the Hebrew letters.

AYIN is assigned the numeric value 70.

The number 7 indicates perfection, call to rest, purified.

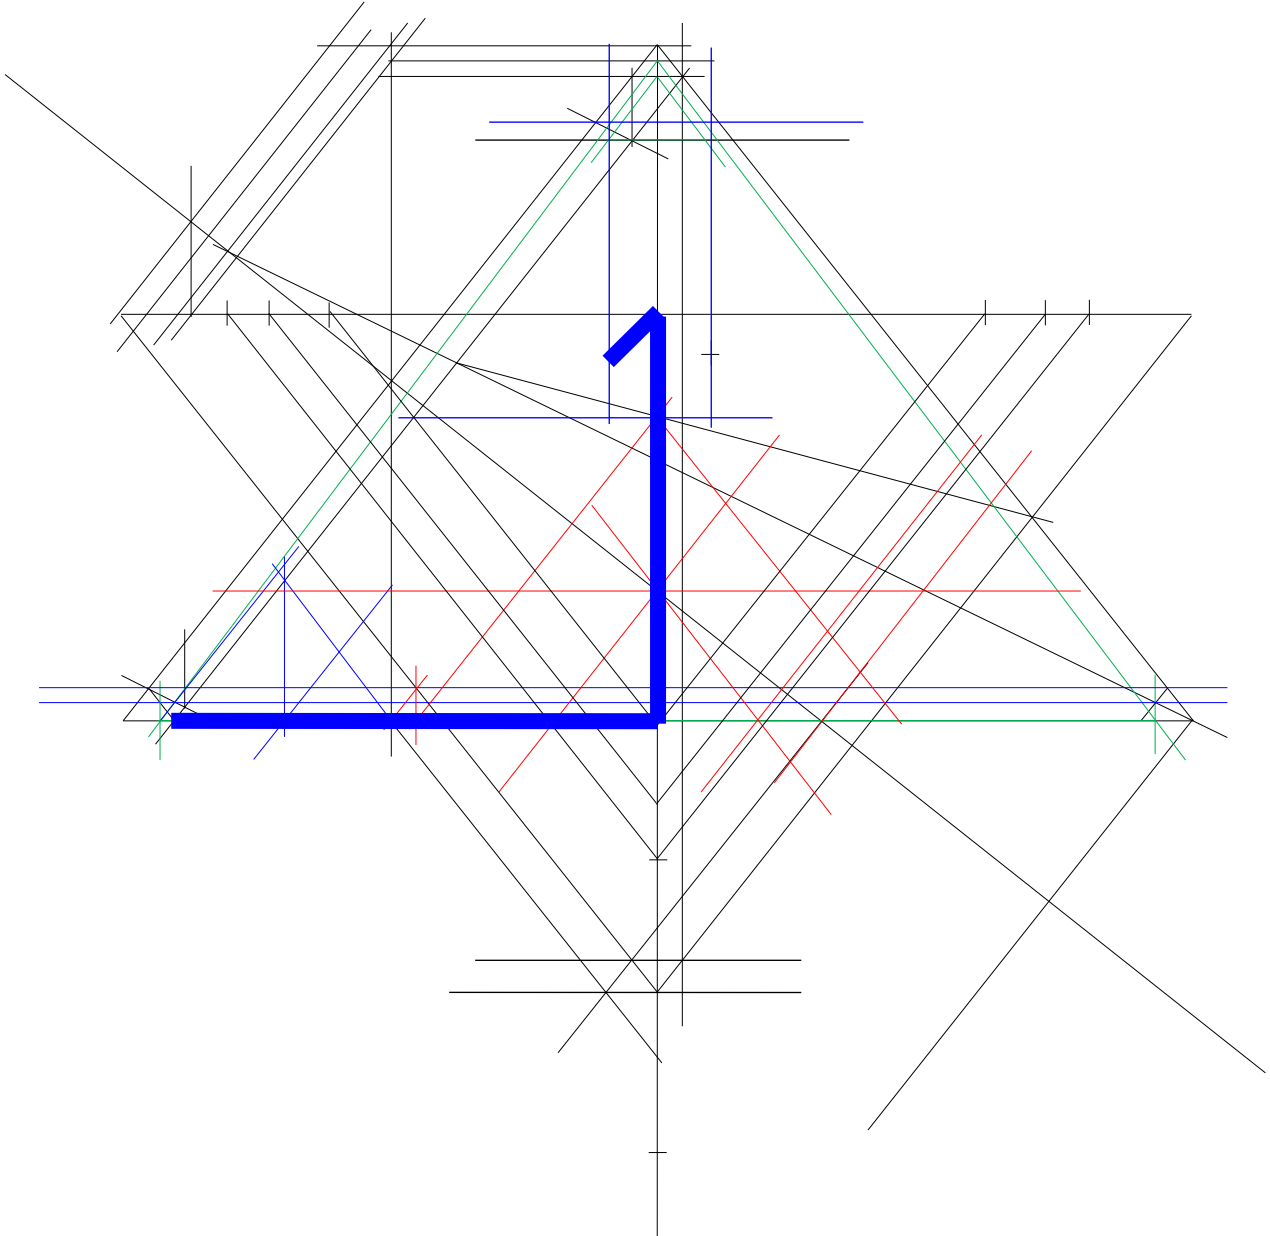

The number 70 represents spiritual leadership.

The number 700 represents perfection of spiritual leadership.

From the pattern, it is seen that the Hebrew letter AYIN connects the following:

1. The Hebrew letter AYIN connects the Star of David. with the centre beam of the cross.
2. AYIN seems to resemble a scale, which can be seen to relate to the word “justice” Psalm 119:121.
3. As can be shown, the two base corners of the capstone seem to be related to the **eyes** of a serpent (two eyes). There is a good and bad serpent (Exodus 7:10-12). Hence, applying this symbolism to the geometry of the Star of David probably allows for interpreting other triangles of the Star of David in this way

4.2.17 PE

4.2.17.1 Scripture and Hebrew Letter PE

129 Your testimonies are wonderful;
Therefore my soul keeps them.
130 The **entrance of Your words gives light**;
It gives understanding to the simple.
131 I **opened my mouth and panted**,
For I longed for Your commandments.
132 Look upon me and be merciful to me,
As Your custom is toward those who love Your **name**.
133 **Direct my steps** by Your word,
And let no iniquity have dominion over me.
134 Redeem me from the oppression of man,
That I may keep Your precepts.
135 **Make Your face shine upon Your servant**,
And teach me Your statutes.
136 Rivers of water run down from my eyes,
Because men do not keep Your law.
Psalm 119:129-136, NKJV

Key words which appear here are the following:

1. Entrance.
2. **Words.**
3. Light.
4. Open.
5. Name.
6. Steps.
7. "Face shine upon Your servant."
8. **"Rivers of water."**
9. Eyes.

See also Numbers 20:9, "...speak to the rock..."

4.2.17.2 General Observations and Findings

The general distance obtained by summing all the geographic straight-line lengths of the lines which make up the Hebrew letter PE on Google Earth is:

$(135 \text{ km} + 24 \text{ km} + 161 \text{ km}) = 320 \text{ km}.$

Now, if this sum is in turn multiplied by the length of the Arc of the Covenant, 2.5 Cubits, is:

$320 \text{ km} \times 2.5 = 800 \text{ km}.$

Interestingly, this number is 100 times the number assigned to PE, that is, 80. From this it is seen that the factor 10 is of Biblical importance.

4.2.17.3 Biblical Significance

The letter PE is the seventeenth of the Hebrew letters.

PE is assigned the numeric value 80.

The number 8 indicates resurrection, new beginning, circumcision (or a covenant), peace.

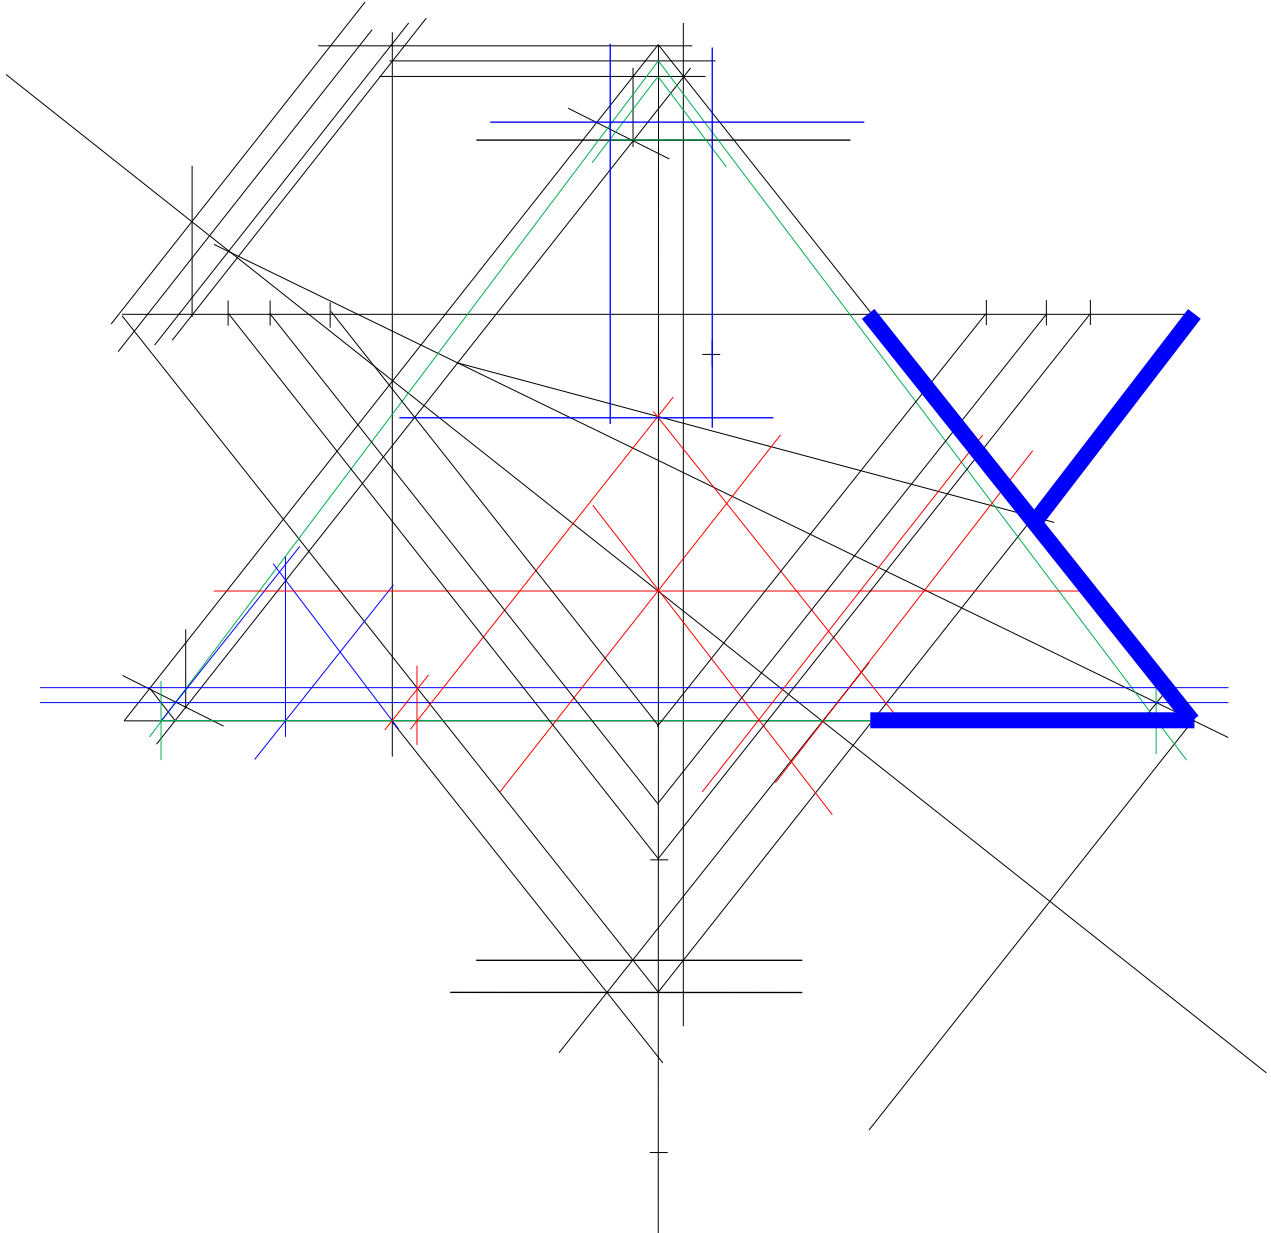

The number 80 represents fullness in Christ.

The number 800 represents Jesus is Lord of all.

From the pattern, it is seen that the Hebrew letter PE connects the following:

1. The Hebrew letter PE is symbolic of Jesus being struck (See Kadesh Barnea). The letter connects Kadesh Barnea, the vertical beam of the cross, the piercing of Jesus in His side, and the Star of David.
2. This letter represents **words, speech, and the mouth. This is seen to be of great Biblical importance when examining the incident at Meribah (Kadesh Barnea)**, where Moses was instructed to speak to the rock (Numbers 20:8), but he struck it instead and that rock was Jesus (1 Corinthians 10:4).
3. It could also be reasoned that the PE resembles the head of Jesus bowed down on the cross. The geometry of this Hebrew letter perfectly supports the position (both literally and figuratively) of the mouth of Jesus, during His final moments on the cross. This is of great Biblical significance as it supports the confessions of Jesus' mouth on the cross and provides a connection between the **mouth** of the Lord, the geography, Wilderness Tabernacle (and all its furnishings) and the Exodus account and the crucifixion.

4.2.18 TSADDE

4.2.18.1 Scripture and Hebrew Letter TSADDE

137 Righteous are You, O Lord,
And upright are Your judgments.
138 Your testimonies, which You have commanded,
Are righteous and very faithful.
139 My **zeal has consumed me**,
Because my enemies have forgotten Your words.
140 Your **word** is very pure;
Therefore Your **servant** loves it.
141 I am **small and despised**,
Yet I do not forget Your precepts.
142 Your righteousness is an everlasting righteousness,
And Your law is truth.
143 Trouble and anguish have overtaken me,
Yet Your commandments are my delights.
144 The righteousness of Your testimonies is everlasting;
Give me understanding, and I shall live.
Psalm 119:137-144, NKJV

Key words which appear here are the following:

1. "zeal has consumed me".
2. Small and despised (bowing servant)

4.2.18.2 General Observations and Findings

The general distance obtained by summing all the geographic straight-line lengths of the lines which make up the Hebrew letter TSADDE on Google Earth is:

$(172 \text{ km} + 85 \text{ km} + 104 \text{ km}) \approx \mathbf{361 \text{ km}}$.

Now, if this sum is in turn multiplied by the length of the Arc of the Covenant, 2.5 Cubits, is:

$361 \text{ km} \times 2.5 = \mathbf{902.5 \text{ km} (\approx 900 \text{ km})}$.

Interestingly, this number is 100 times the number assigned to TSADDE, that is, 9. From this it is seen that the factor 100 is of Biblical importance.

4.2.18.3 Biblical Significance

The letter TSADDE (or TZADIK) is the eighteenth of the Hebrew letters.

TSADDE is assigned the numeric value 90.

The number 9 indicates almost complete, harvest, gifts of the Spirit, judgement.

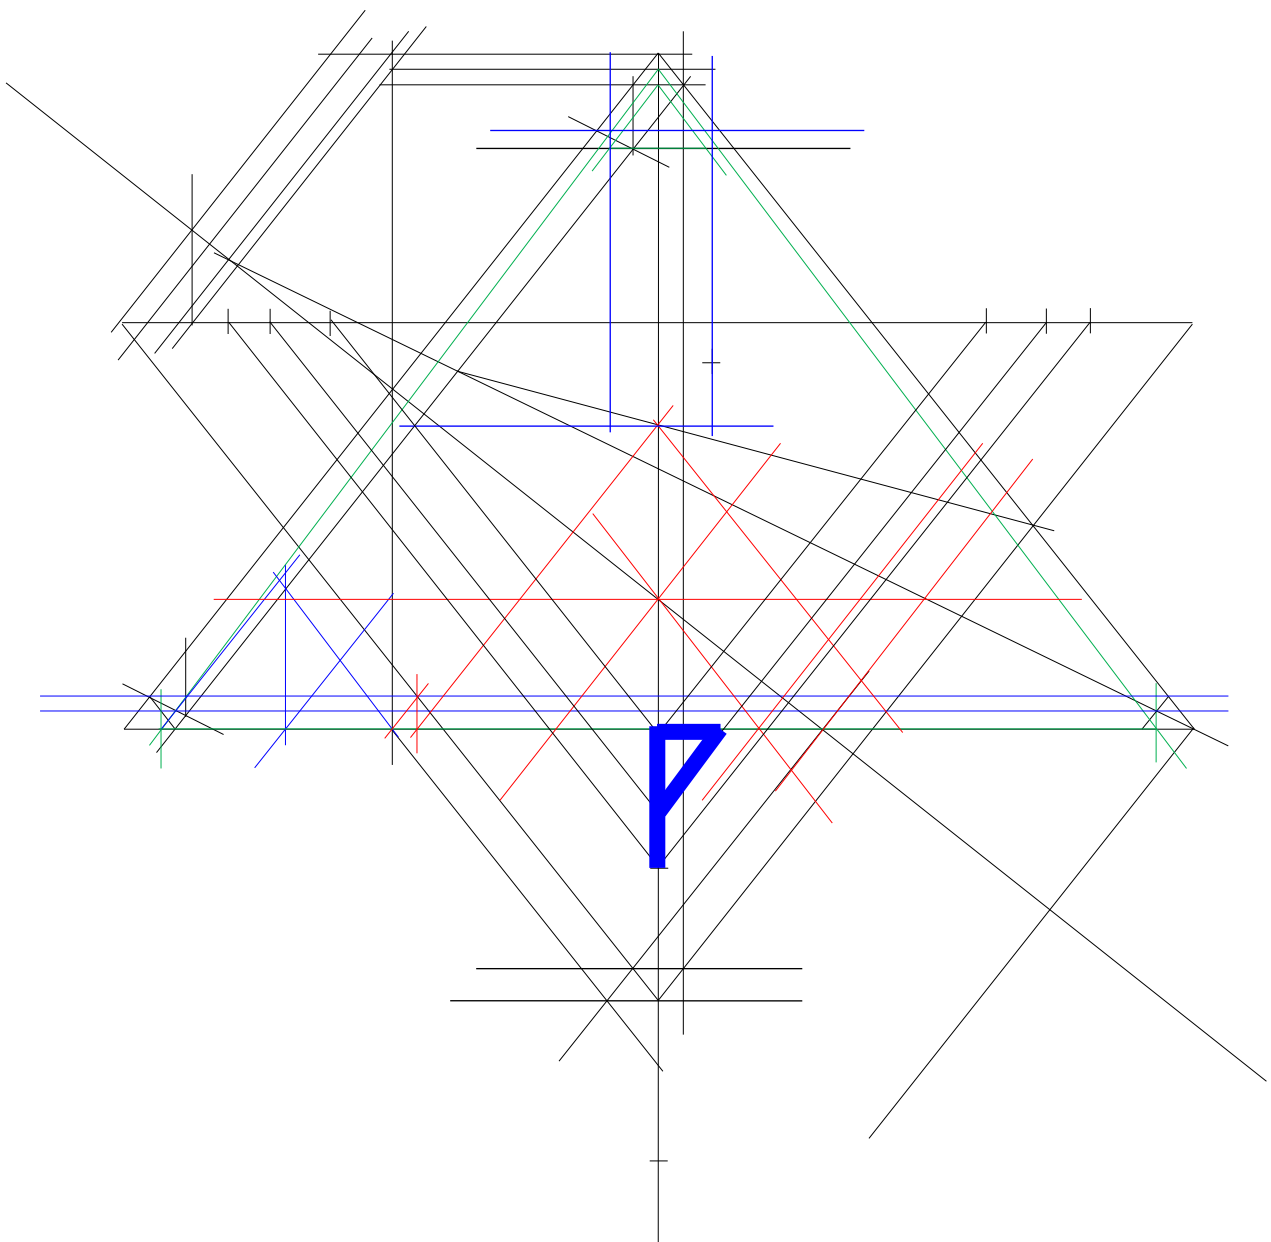

The number 90 represents tested and approved.

The number 900 represents complete return.

From the pattern, it is seen that the Hebrew letter TSADDE connects the following:

1. The Hebrew letter TSADDE connects Mount Sinai, the Red Sea crossing camp site, Mount Paran, the earth, the cross beam of the cross, Hazeroth and the Star of David.
2. It could also be reasoned that the TSADDE resembles Jesus stooping and bowing down (a humble servant), hence the words "small and despised", Psalm 119:141.

4.2.19 QOPH

4.2.19.1 Scripture and Hebrew Letter QOPH

145 I cry out with my whole **heart**;
Hear me, O Lord!
I will keep Your statutes.
146 I cry out to You;
Save me, and I will keep Your testimonies.
147 **I rise before the dawning of the morning**,
And cry for help;
I hope in Your word.
148 My **eyes are awake through the night watches**,
That I may meditate on Your word.
149 Hear my voice according to Your lovingkindness;
O Lord, **revive me according to Your justice**.
150 They draw near who follow after wickedness;
They are far from Your law.
151 You are near, O Lord,
And all Your commandments are truth.
152 Concerning Your testimonies,
I have known of old that You have founded them forever.
Psalm 119:145-152, NKJV

Key words which appear here are the following:

1. Heart.
2. **"I rise before the dawning of the morning"**.
3. Eyes.
4. Night watches.
5. **Revive**.

4.2.19.2 General Observations and Findings

The general distance obtained by summing all the geographic straight-line lengths of the lines which make up the Hebrew letter Alef on Google Earth is:

$(45 \text{ km} + 20 \text{ km} + 35 \text{ km}) \approx \mathbf{100 \text{ km}}$.

Interestingly, this number 100 assigned to Qoph.

4.2.19.3 Biblical Significance

The letter QOPH (or KUF) is the nineteenth of the Hebrew letters.

QOPH is assigned the numeric value 100.

The number 1 indicates unity, beginning, and oneness.

TH number 10 indicates fulfilment, congregation, leadership.

The number 100 indicates abundant return.

From the pattern, it is seen that the Hebrew letter QOPH connects the following:

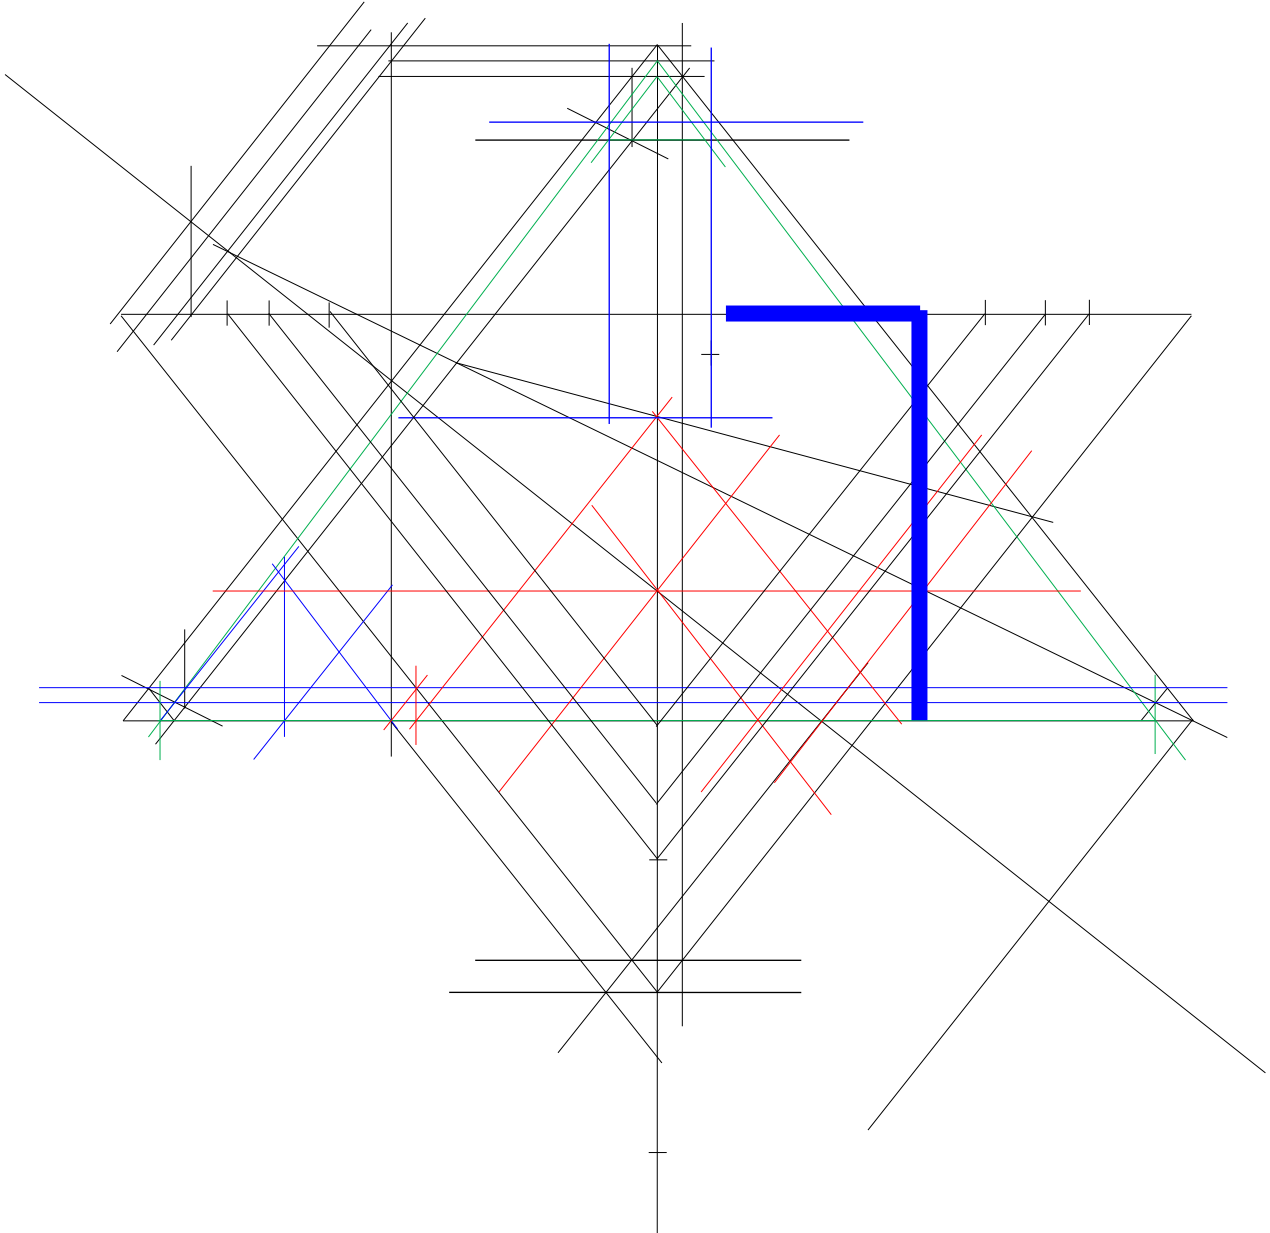

1. The Hebrew letter QOPH connects the outer, middle, and inner branches of the menorah; the Star of David; and the centre beam of the cross.

2. The letter QOPH may be related in some way to the resurrection of Jesus in that the menorah branches (Exodus 25:31-34) and the inverted triangle, which may be symbolic of resurrection (Mark 9:31).
3. QOPH may provide points geographically on the ground which relate to the exodus route and the pillar of cloud by day, pillar of fire by night (Exodus 13:21).
4. This letter QOPH is "*below the line*" and that the letter represents the Righteous One (Proverbs 21:12) "*going down*" (which could relate to Christ going into the heart of the earth, Matthew 12:40).
5. As with other letters of the Hebrew alphabet, the Hebrew word for "*revive*" in Psalm 119:149, which is associated with the letter QOPH, is "haw-yaw" (Strongs Hebrew Lexicon H2421).⁹ The word literally means to restore to life, make alive, give life, preserve, quicken. It can therefore be symbolically associated with the giving of new life or the resurrection (Mark 9:31; Luke 18:33). It occurs 264 times in the KJV.
6. It is interesting to note that the phrase "*I rise before the dawning of the morning*" (Psalm 119:147) seems to have a connection with the verse "*At midnight I will rise and give thanks to you*" (Psalm 119:62). This could suggest that Jesus resurrected at midnight.

There are clues in the Scripture which may support this view:

- (1) Jesus nullified the curse of the first born mentioned in the book of Exodus which took into effect at midnight (Exodus 11:4; 12:29).
- (2) The Kinsman Redeemer (Ruth 3:8) who turned and looked at his feet at **midnight** and saw Ruth who lay at His feet.
- (3) The story of the wisdom of Solomon and the two women with the dead child. Here 3 days is mentioned, **midnight, and the death of the child (both a living and a dead son)** (1 Kings 3:16-23). A sword is also mentioned in this passage which related directly to the symbols indicated in this letter (a sword).
- (4) **Midnight** is also mentioned in the Scripture with reference to the return of Jesus (Matthew 25:6; Mark 13:35).
- (5) **Midnight** is also mentioned in the Scripture with reference to the events in the book of Acts (Acts 16:25; 20:7; 27:27).

4.2.20 RESH

4.2.20.1 Scripture and Hebrew Letter RESH

153 Consider my affliction and deliver me,
For I do not forget Your law.
154 Plead my cause and **redeem me**;
Revive me according to Your word.
155 Salvation is far from the wicked,
For they do not seek Your statutes.
156 Great are Your tender mercies, O Lord;
Revive me according to Your judgments.
157 Many are my persecutors and my enemies,
Yet I do not turn from Your testimonies.
158 I see the treacherous, and am disgusted,
Because they do not keep Your word.
159 Consider how I love Your precepts;
Revive me, O Lord, according to Your lovingkindness.
160 The entirety of Your word is truth,
And every one of Your righteous judgments endures forever.
Psalm 119:153-160, NKJV

Key words which appear here are the following:

1. **Revive.**
2. Salvation.

4.2.20.2 General Observations and Findings

The general distance obtained by summing all the geographic straight-line lengths of the lines which make up the Hebrew letter Alef on Google Earth is:

(45 km + 135 km) $\approx$ **200 km**

Interestingly, the number assigned to RESH is, 200.

4.2.20.3 Biblical Significance

The letter RESH (or REISH) is the twentieth of the Hebrew letters.

RESH is assigned the numeric value 90.

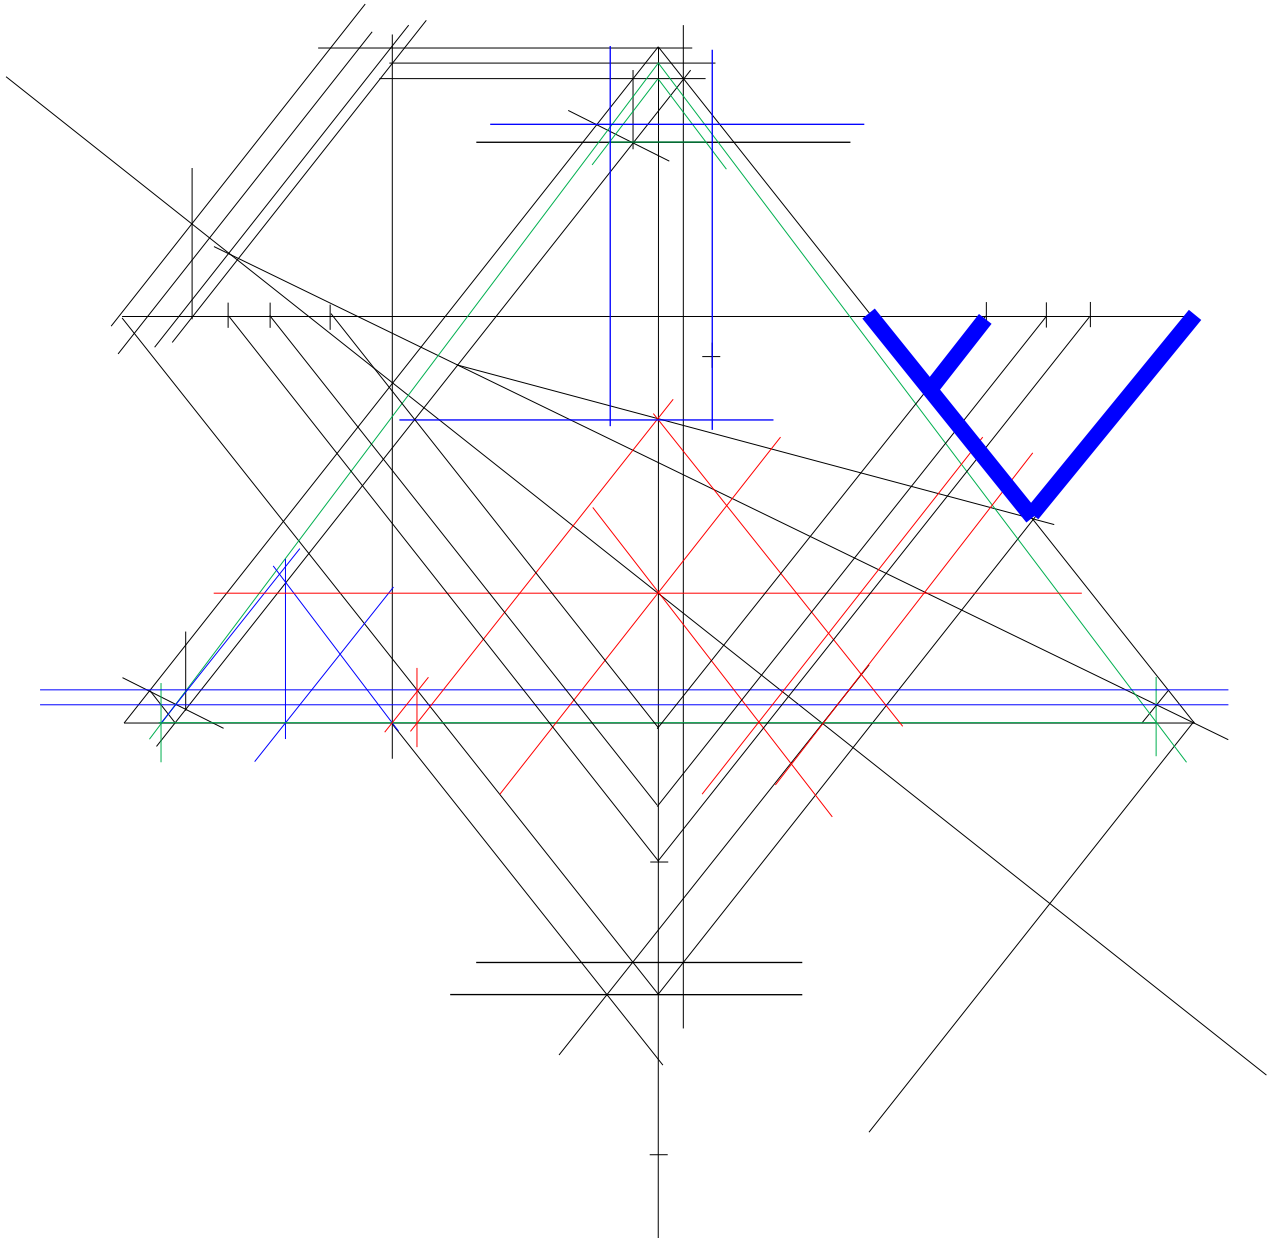

The number 2 indicates agreement, spiritual promotion.
The number 20 indicates preparation for war, trial, reward.
The number 200 indicates complete deficiency.

From the pattern, it is seen that the Hebrew letter RESH connects the following:

1. The Hebrew letter RESH connects the middle branches of the menorah; the Star of David; the cross beam of the cross, and various geographic locations (**TBD**).
2. It is interesting to note that in terms of the pattern, the vertical line of the letter RESH is **used to geometrically construct the inverted triangle**, which could represent the resurrected life or resurrection of the Messiah (John 11:25; Numbers 24:17, the Star prophecy).

3. The letter RESH is strongly associated with the resurrection of Jesus as the word “*revive*” appears three times here. The word “*redeem*” could also be associated with resurrection. As with other letters of the Hebrew alphabet, the Hebrew word for “*revive*” in Psalm 119:149, which is associated with the letter RESH, is “*haw-yaw*” (Strong’s Hebrew Lexicon H2421).⁹ The word literally means to restore to life, make alive, give life, preserve, quicken. It can therefore be symbolically associated with the giving of new life or the resurrection (Mark 9:31; Luke 18:33). It occurs 264 times in the KJV.
4. The words “*the entirety of Your word is truth*” expresses the eternal aspects of God’s word and truth – His character.

4.2.21 SHIN

4.2.21.1 Scripture and Hebrew Letter SHIN and SIN

161 **Princes** persecute me without a cause,
But my **heart** stands in awe of Your word.
162 I rejoice at Your word
As one who finds great **treasure**.
163 I hate and abhor lying,
But I love Your law.
164 **Seven times a day I praise You**,
Because of Your righteous judgments.
165 Great peace have those who love Your law,
And nothing causes them to stumble.
166 Lord, I hope for Your salvation,
And I do Your commandments.
167 My soul keeps Your testimonies,
And I love them exceedingly.
168 I keep Your precepts and Your testimonies,
For all my ways are before You.
Psalm 119:161-168, NKJV

Key words which appear here are the following:

1. Princes.
2. Heart.
3. Treasure.
4. Seven times a day.

4.2.21.2 General Observations and Findings

The general distance obtained by summing all the geographic straight-line lengths of the lines which make up the Hebrew letter Alef on Google Earth is:

$(85 \text{ km} + 30 \text{ km} + 85) \approx 200 \text{ km}$.

Now, if this sum is in turn multiplied by the width of the Arc of the Covenant, 1.5 Cubits, the result is:

$200 \text{ km} \times 1.5 = 300 \text{ km}$

Interestingly, the number assigned to Shin/Sin is 300.

4.2.21.3 Biblical Significance

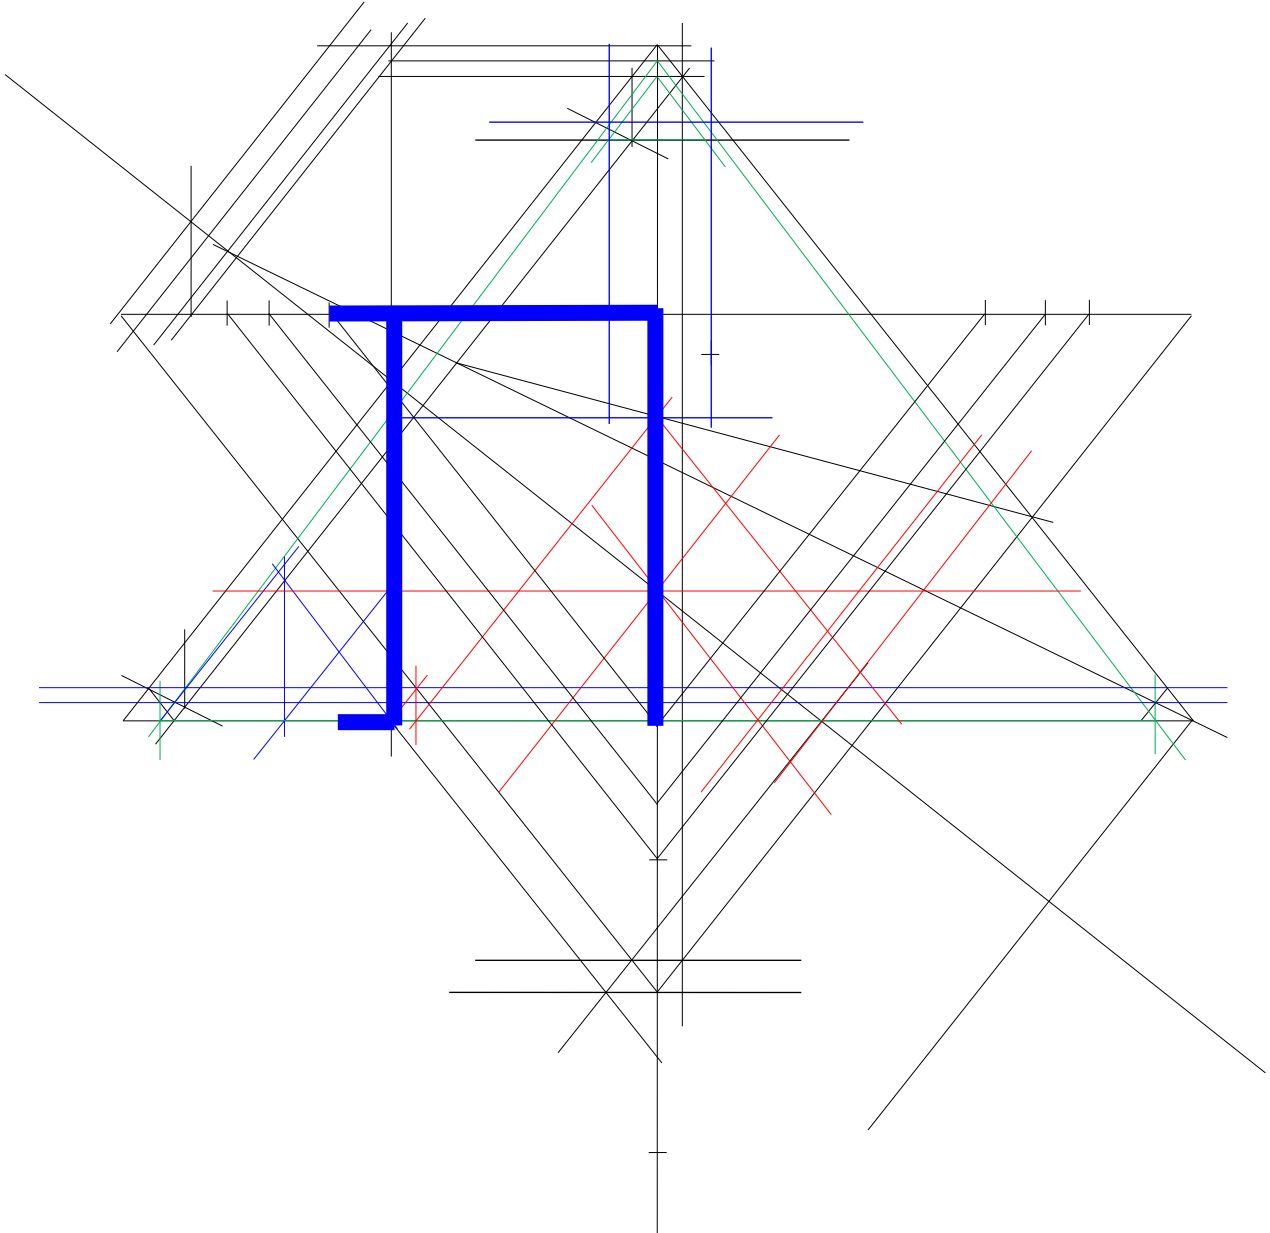

The letter SHIN (or REISH) is the twentieth of the Hebrew letters.

SHIN is assigned the numeric value 300.

The number 30 indicates the fashioning of character, start of ministry.
The number 300 represents faithful remnant.

From the pattern, it is seen that the Hebrew letter SHIN connects the following:
The Hebrew letter RESH connects the inner branches of the menorah; the Star of David; the cross beam of the cross, where Jesus was pierced in His hands, and various geographic locations.

4.2.22 TAU

4.2.22.1 Scripture and Hebrew Letter TAU

169 Let my cry come before You, O Lord;
Give me understanding according to Your word.
170 Let my supplication come before You;
Deliver me according to Your word.
171 My **lips** shall utter praise,
For You teach me Your statutes.
172 My **tongue** shall speak of Your word,
For all Your commandments are righteousness.
173 Let Your **hand become my help**,
For I have chosen Your precepts.
174 I long for Your salvation, O Lord,
And Your law is my delight.
175 **Let my soul live**, and it shall praise You;
And let Your judgments help me.
176 I have gone astray like a lost sheep;
Seek Your servant,
For I do not forget Your commandments.
Psalm 119:169-176, NKJV

Key words which appear here are the following:

1. Lips.
2. **Deliver.**
3. Tongue.
4. **Hand.**
5. Lost sheep.
6. **Let my soul live.**

4.2.22.2 General Observations and Findings

The general distance obtained by summing all the geographic straight-line lengths of the lines which make up the Hebrew letter TAU on Google Earth is:

$(135 \text{ km} + 135 \text{ km} + 110 \text{ km} + 20 \text{ km}) = \mathbf{400 \text{ km.}}$

Interestingly, the number 400 is assigned to TAU.

4.2.22.3 Biblical Significance

The letter TAU (or TAV) is the twenty second of the Hebrew letters.

TAU is assigned the numeric value 400.

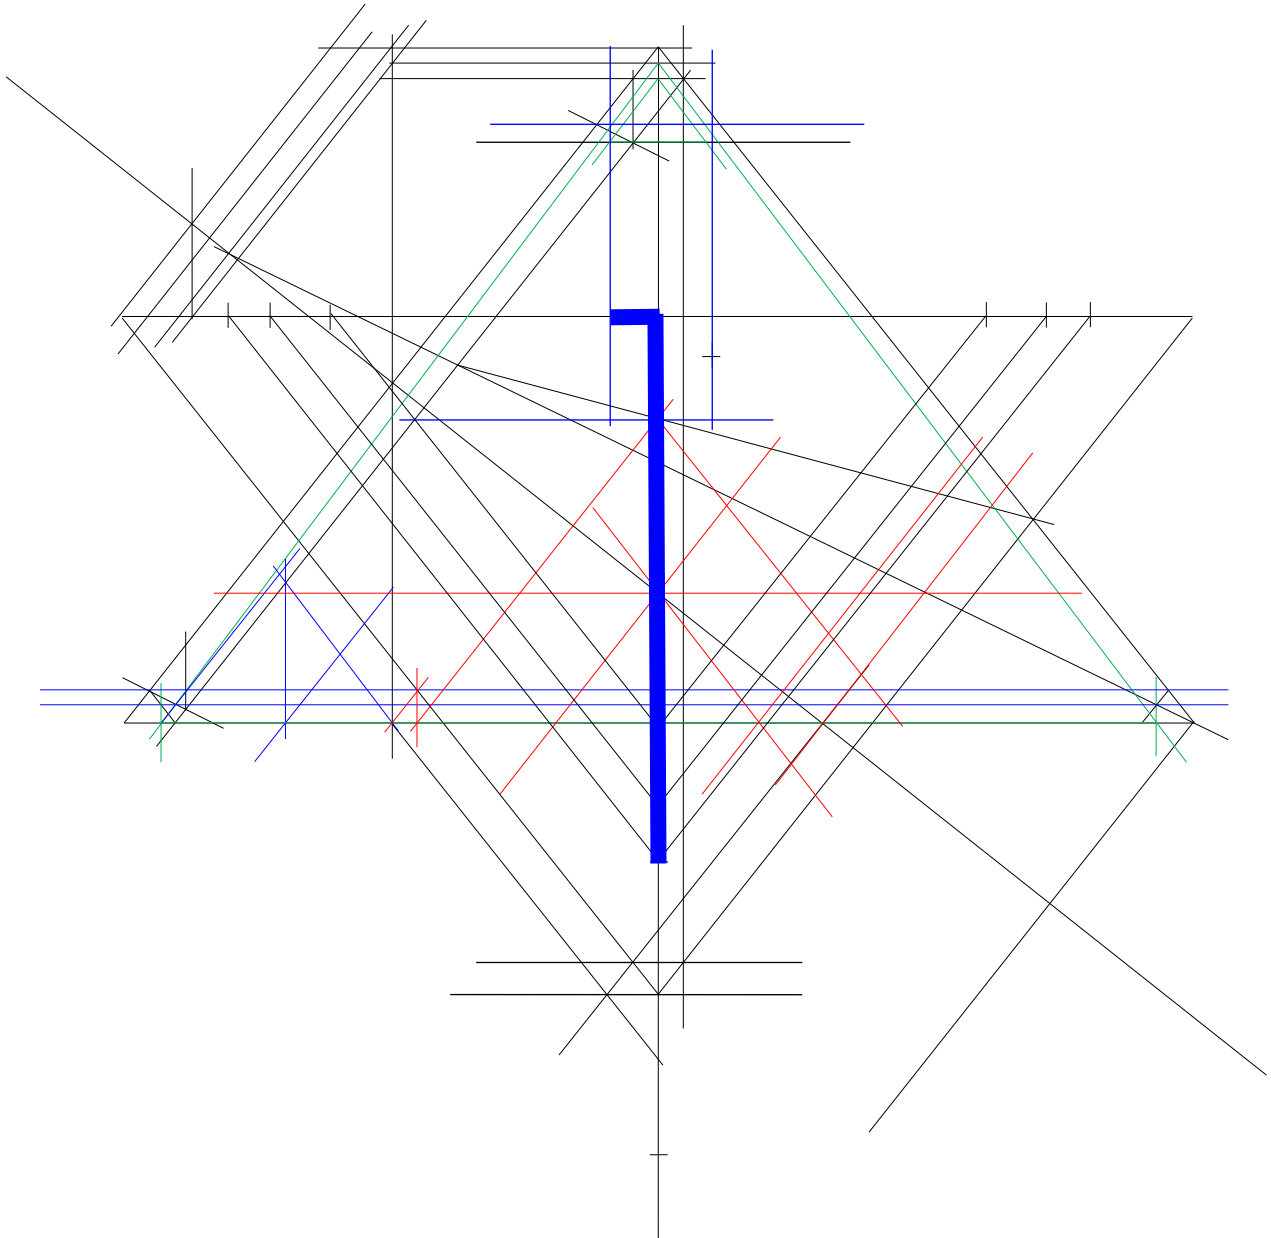

The number 40 indicates mature leadership.
The number 400 represents full dominion.

From the pattern, it is seen that the Hebrew letter TAU connects the following:

1. The Hebrew letter TAU connects the centre beam of the cross; the Star of David; the cross beam of the cross, where Jesus was pierced in His hands, and various geographic locations.

2. It is interesting to note that in terms of the pattern, the vertical line of the letter TAU is ***used to geometrically construct the inverted triangle***, which could represent the resurrected life or resurrection of the Messiah (John 11:25; Numbers 24:17, the Star prophecy).

4.2.23 FINAL KAPH

4.2.23.1 General Observations and Findings

The general distance obtained by summing all the geographic straight-line lengths of the lines which make up the Hebrew letter FINAL KAPH on Google Earth is:

(18.5 km + 180.5 km) $\approx$ 199 km (**$\approx$ 200 km**)

(See also Kaph).

Interestingly, the number assigned to FINAL KAPH is 200.

The number 2 indicates agreement, spiritual promotion.

The number 20 indicates preparation for war, trial, reward.

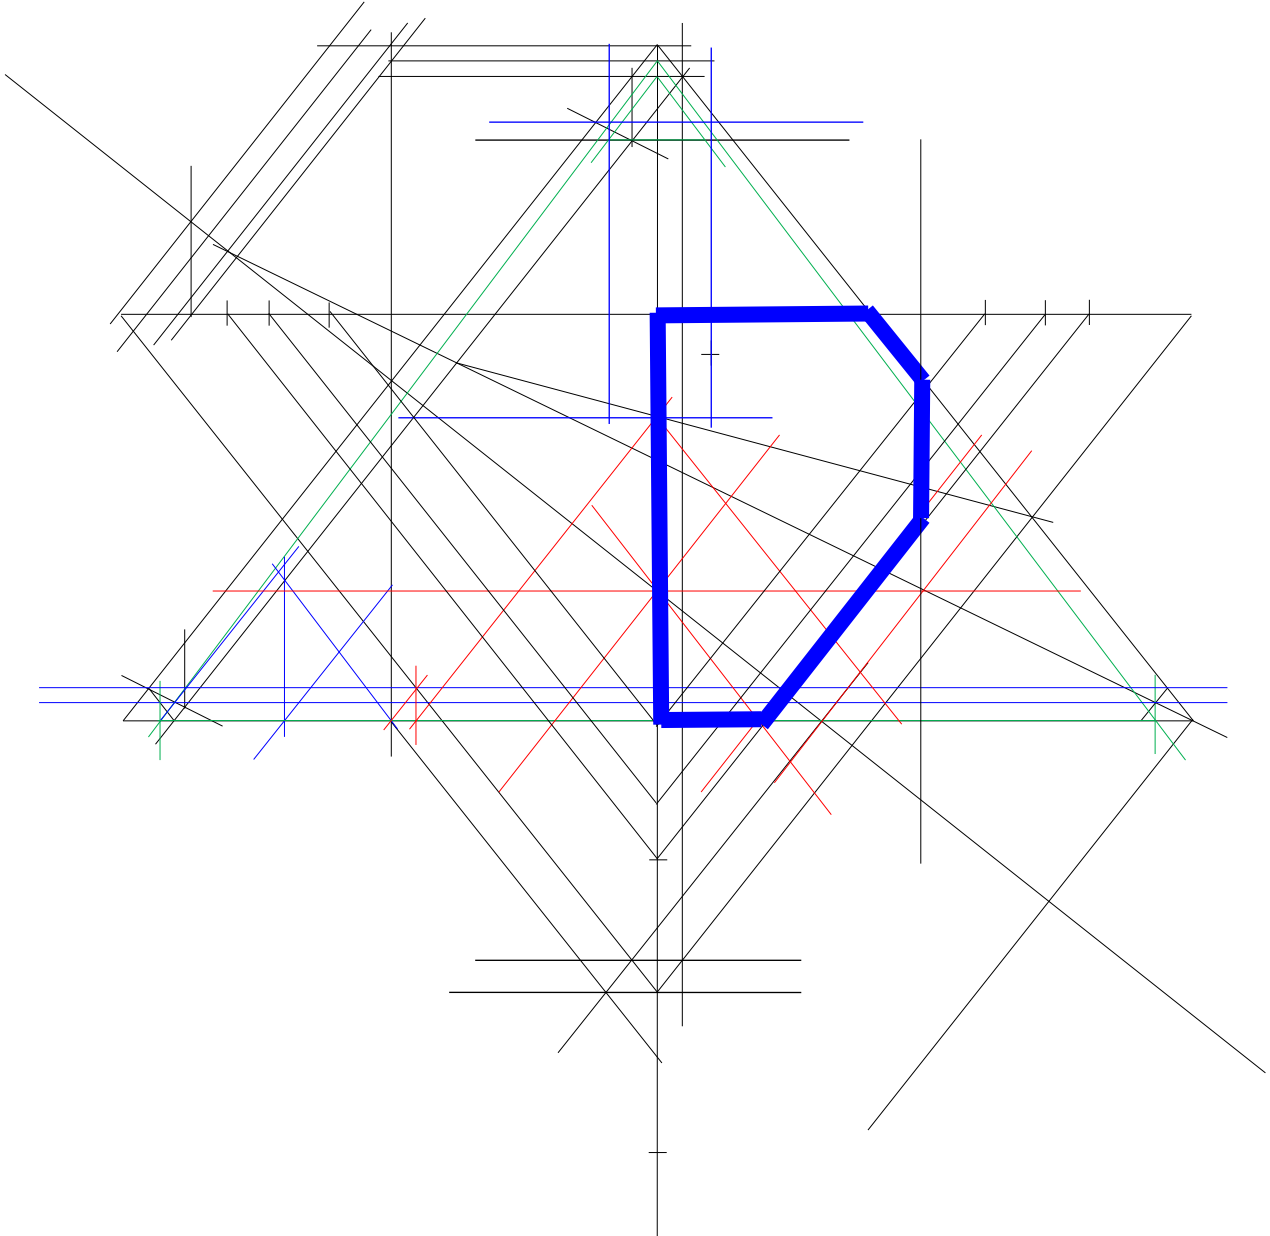

The number 200 indicates complete deficiency.

4.2.23.2 Biblical Significance

From the pattern, it is seen that the Hebrew letter FINAL KAPH connects the following:

1. The centre beam of the cross; the Star of David; the cross beam of the cross, where Jesus was pierced in His side (Jotbathah and Kadesh Barnea), the branches of the menorah and various geographic locations (**TBD**).
2. This letter can also be seen as the fuller extension of the Hebrew letter KAPH (or its final form).
3. In relation to the other letters (e.g.: QOPH and FINAL TSADDE), this letter may provide more information about the resurrection of Jesus (John 11:25).

4.2.24 FINAL MEM

4.2.24.1 General Observations and Findings

The general distance obtained by summing all the geographic straight-line lengths of the lines which make up the Hebrew letter FINAL MEM on Google Earth is:

(135 km + 70 km + 30 km + 45 km + 82 km + 37 km) $\approx$ **400 km**.

Interestingly, this number is 10 times the number assigned to FINAL MEM, that is, 40. From this it is seen that the factor 10 is of Biblical importance.

The number 40 indicates mature leadership.

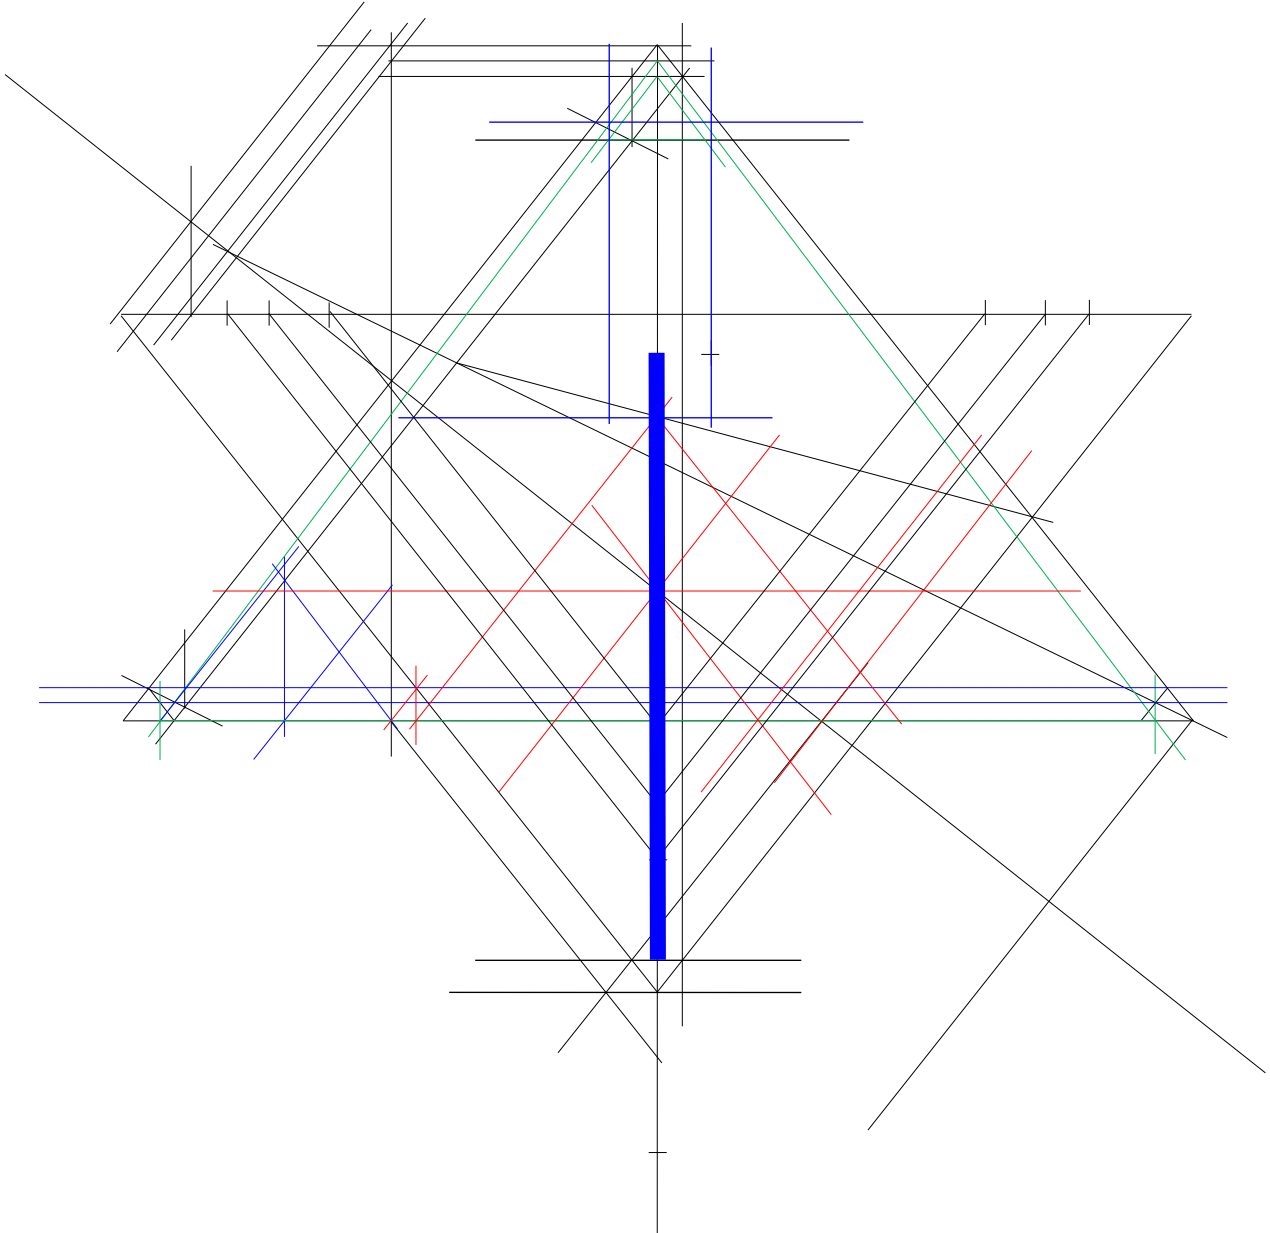

The number 400 represents full dominion.

4.2.24.2 Biblical Significance

From the pattern, it is seen that the Hebrew letter FINAL MEM connects the following:

1. The centre beam of the cross; the Star of David; the cross beam of the cross, the outer branches of the menorah and various geographic locations **(TBD)**.
2. This letter can also be seen as the fuller extension of the Hebrew letter MEM (or its final form).
3. It is interesting to note that in terms of the pattern, the vertical line of the letter FINAL MEM (which appears to be only a short section) is ***used to geometrically construct the inverted triangle***, which could represent the resurrected life or resurrection of the Messiah (John 11:25; Numbers 24:17, the Star Prophecy).
4. In relation to the other letters (e.g.: QOPH and FINAL TSADDE), this letter may provide more information about the resurrection of Jesus (John 11:25).

4.2.25 FINAL NUN

4.2.25.1 General Observations and Findings

The general distance obtained by summing all the geographic straight-line lengths of the lines which make up the Hebrew letter FINAL NUN on Google Earth is:

$$(18.5 \text{ km} + 180.5 \text{ km}) \approx 199 \text{ km} (\approx \mathbf{200 \text{ km}})$$

Now, if this sum is in turn multiplied by the length of the Arc of the Covenant, 2.5 Cubits, the result is:

$$200 \text{ km} \times \mathbf{2.5} = \mathbf{500 \text{ km}}$$

Interestingly, the number assigned to FINAL NUN is 50, which is the number allocated to FINAL NUN multiplied by 10.

The number 5 indicates grace, redemption, true worship, innocence.

The number 50 indicates leadership and authority.

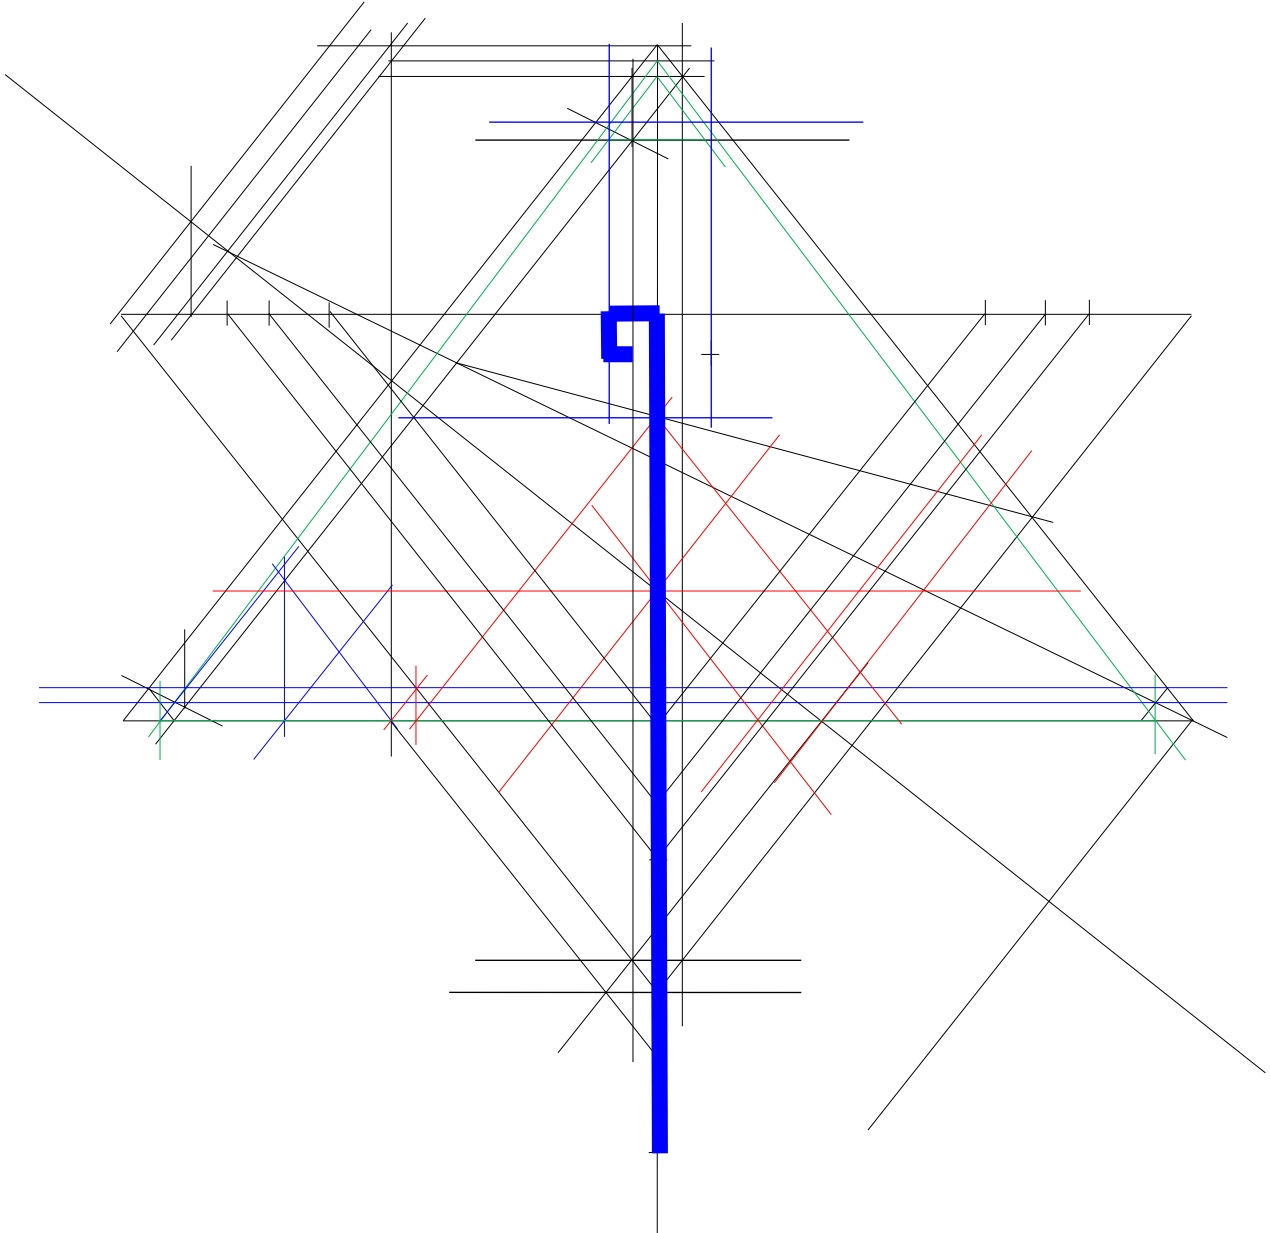

The number 500 represents abundant grace.

4.2.25.2 Biblical Significance

From the pattern, it is seen that the Hebrew letter FINAL NUN connects the following:

1. The centre beam of the cross; the Star of David; the branches of the menorah and various geographic locations.
2. This letter can also be seen as the fuller extension of the Hebrew letter NUN (or its final form).
3. In relation to the other letters (e.g.: QOPH and FINAL TSADDE), this letter may provide more information about the resurrection of Jesus (John 11:25) and is positioned on the Star of David such that it relates directly to the letter QOPH (passes through it) and FINAL TSADDE (stems from the same "*base point*" or *reference point*, the base of the inverted (or resurrection) capstone).

4.2.26 FINAL PE

4.2.26.1 General Observations and Findings

The general distance obtained by summing all the geographic straight-line lengths of the lines which make up the Hebrew letter FINAL PE on Google Earth is:

$(280 \text{ km} + 15 \text{ km} + 18 \text{ km} + 8 \text{ km}) \approx \mathbf{320 \text{ km}}$.

Now, if this sum is in turn multiplied by the length of the Arc of the Covenant, 2.5 Cubits, the result is:

$320 \text{ km} \times \mathbf{2.5} = \mathbf{800 \text{ km}}$

Interestingly, the number assigned to FINAL PE is 800.

The number 8 indicates resurrection, new beginning, circumcision (or a covenant), peace.

The number 80 represents fullness in Christ.

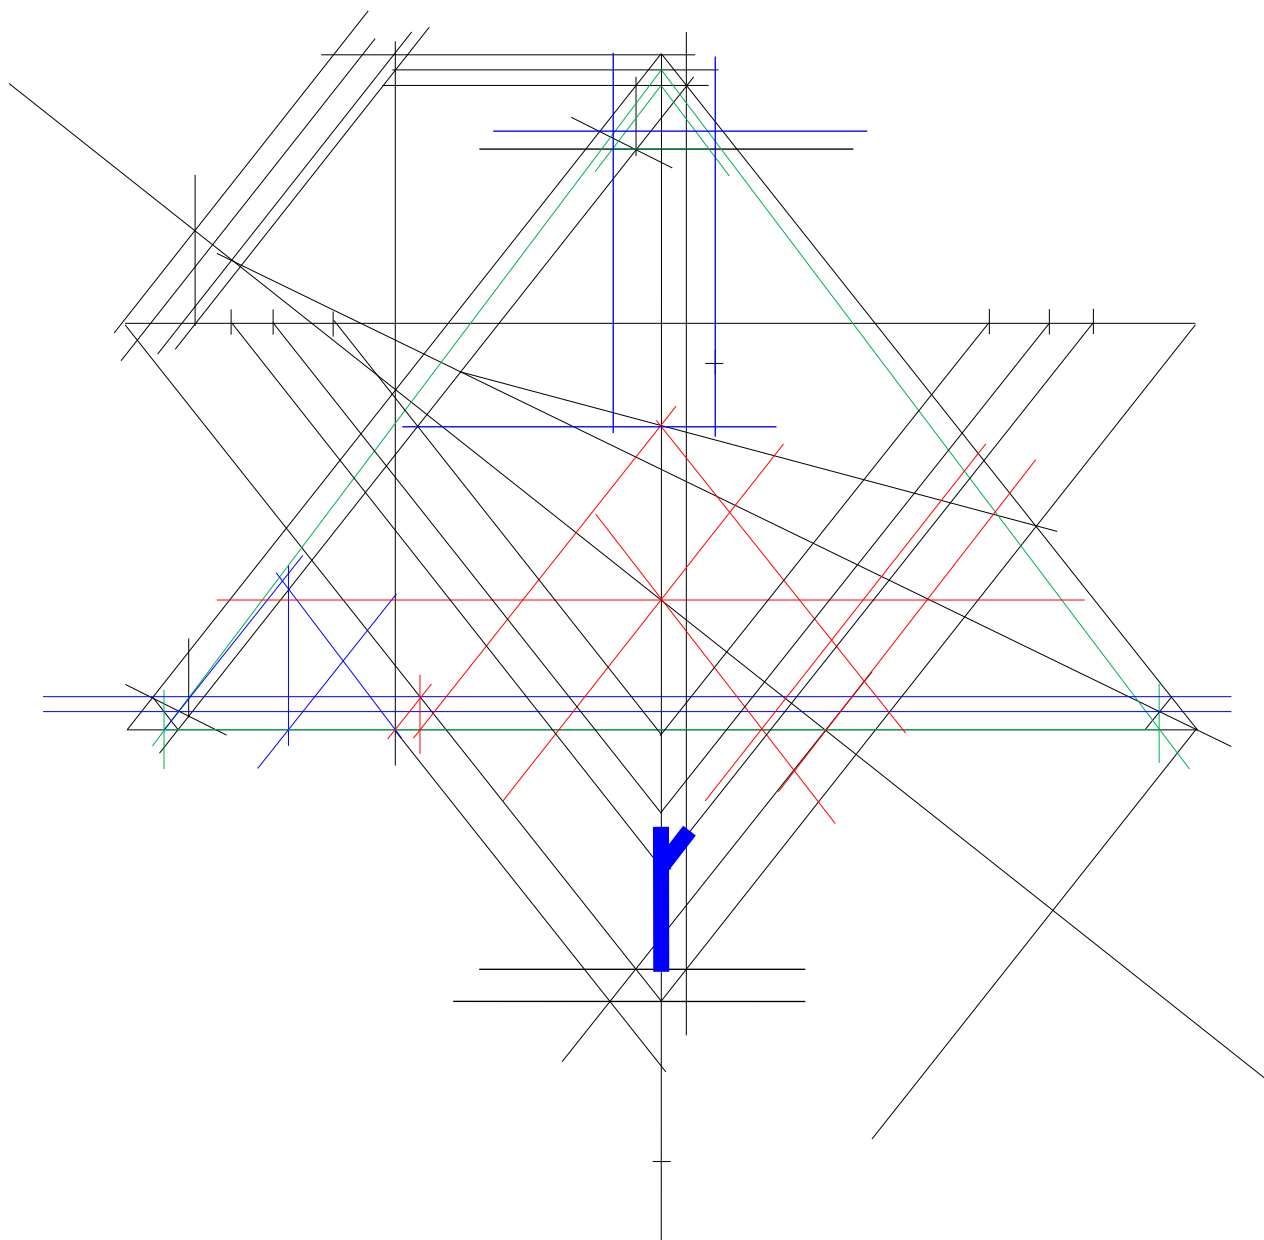

The number 800 represents Jesus is Lord of all.

4.2.26.2 Biblical Significance

From the pattern, it is seen that the Hebrew letter FINAL PE connects the following:

1. The centre beam of the cross; the Star of David; the cross beam of the cross, where Jesus was pierced in His side (Jotbathah and Kadesh Barnea), the branches of the menorah and various geographic locations.
2. This letter can also be seen as the fuller extension of the Hebrew letter PE (or its final form) as it extends to the foot of the cross, below the point where PE ends on the centre beam of the cross.
3. In relation to the other letters (e.g.: QOPH and FINAL TSADDE), this letter may provide more information about the resurrection of Jesus (John 11:25) and is positioned on the Star of David such that it relates directly to the letter QOPH and FINAL TSADDE (passes through these) and probably conveys information about the cross as it ends at the foot of the cross.

4.2.27 FINAL TSADDE

4.2.27.1 General Observations and Findings

The general distance obtained by summing all the geographic straight-line lengths of the lines which make up the Hebrew letter FINAL TSADDE on Google Earth is:

$(15 \text{ km} + 45 \text{ km}) \approx \mathbf{60 \text{ km}}$.

Now, if this sum is in turn multiplied by the width of the Arc of the Covenant, 1.5 Cubits, the result is:

$60 \text{ km} \times 1.5 = \mathbf{90 \text{ km}}$

Interestingly, the number assigned to FINAL TSADDE is 90.

The number 9 indicates almost complete, harvest, gifts of the Spirit, judgement.

The number 90 represents tested and approved.

The number 900 represents complete return.

4.2.27.2 Biblical Significance

From the pattern, it is seen that the Hebrew letter FINAL TSADDE connects the following:

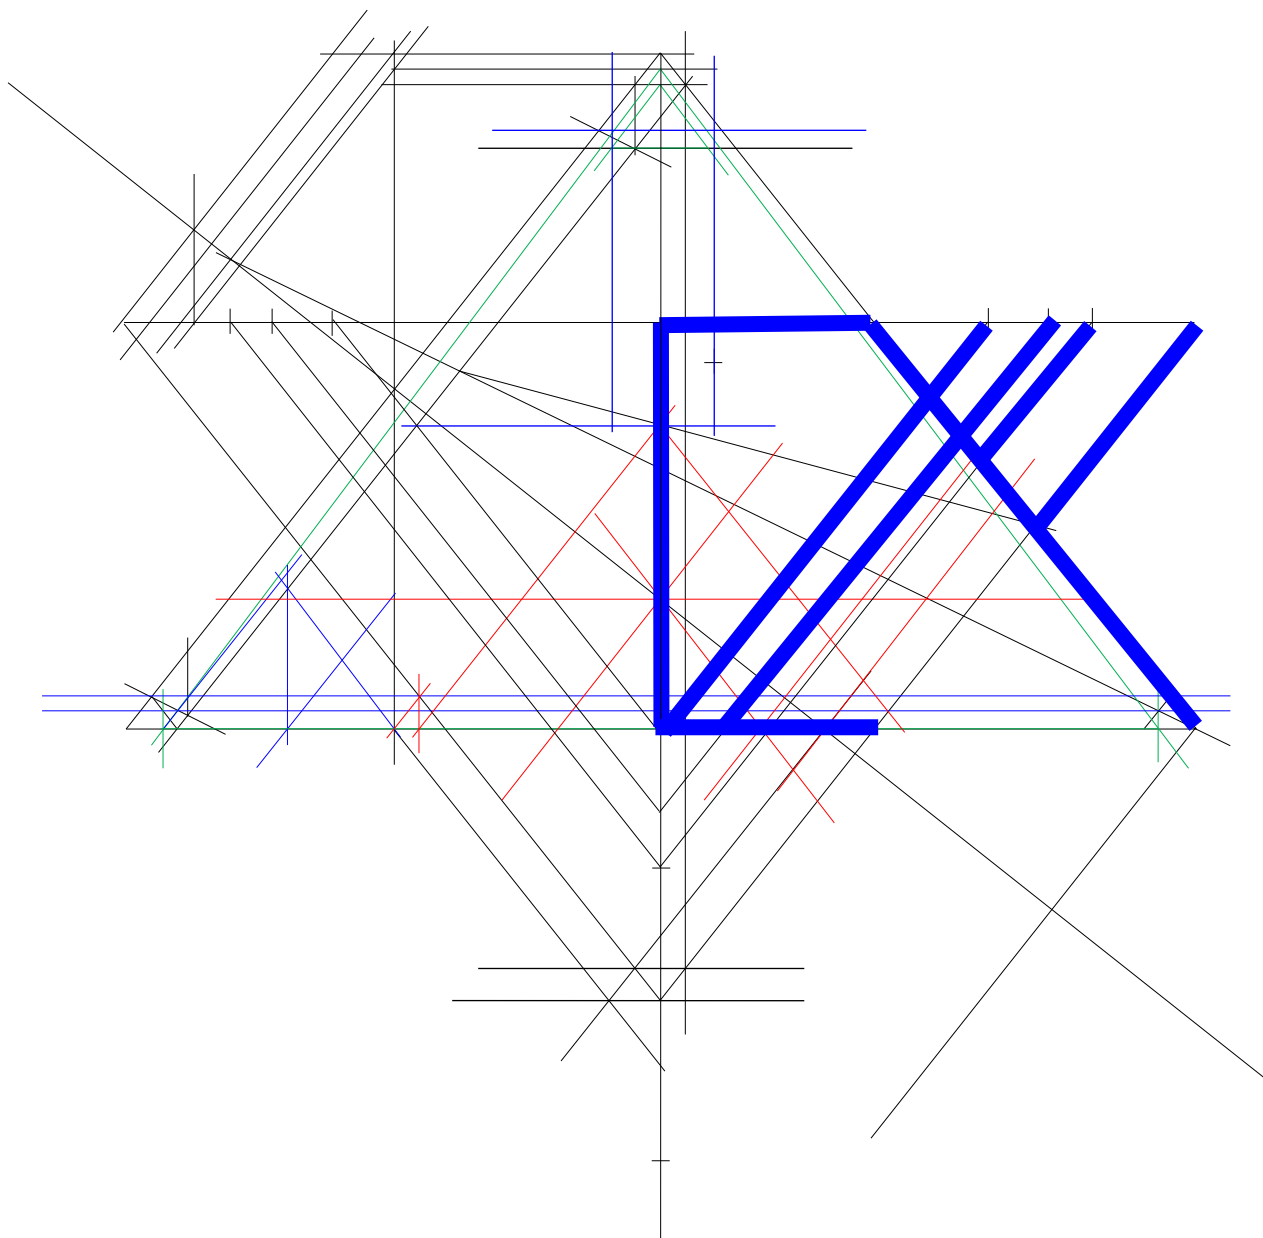

1. The outer branches of the menorah and various geographic locations.
2. This letter can also be seen as the fuller extension of the Hebrew letter TSADDE (or its final form).
3. In relation to the other letters (e.g.: QOPH), this letter may provide more information about the resurrection of Jesus (John 11:25) and is positioned on the Star of David such that it relates directly to the letter FINAL NUN: It stems from the same "*base point*" or *reference point*, the base of the inverted (or resurrection) capstone).

4.3 Properties of Hebrew Letters & the Pattern

4.3.1 Example – Partial Composition of the Pattern

The example below demonstrates how part of the pattern (partial) can be composed using only a few of the Hebrew letters (MEM, SHIN, ALEF, and GIMEL).

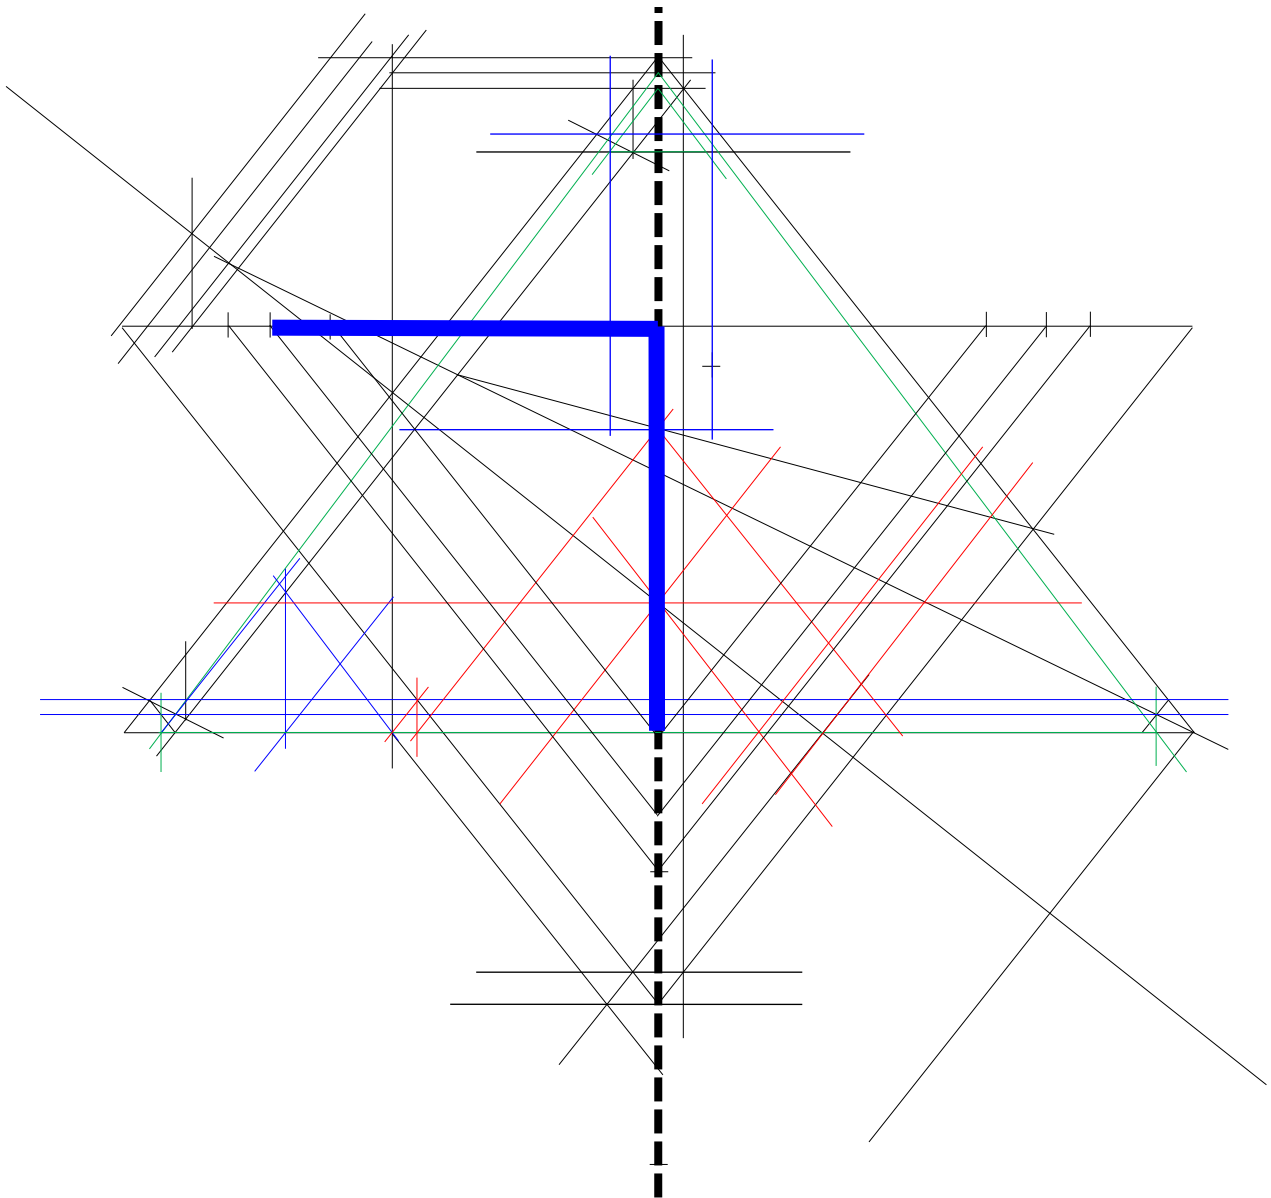

In this example, the letters MEM and GIMEL are reflected (or flipped) about the vertical axis.

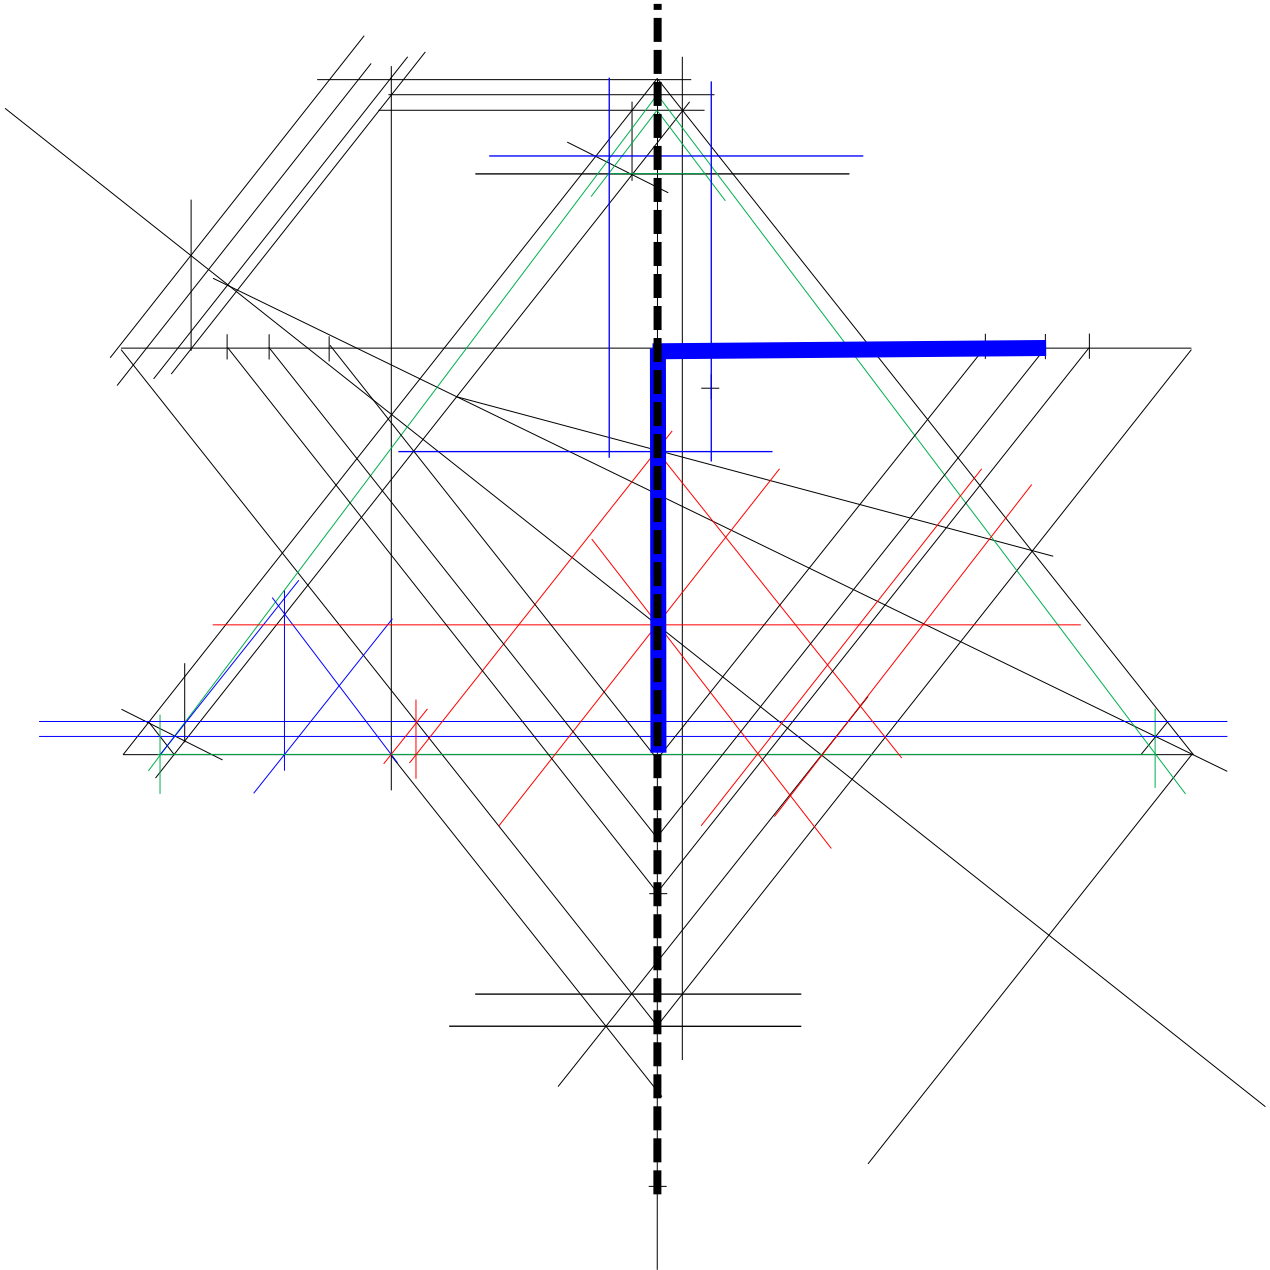

4.3.2 Reflection about the Vertical Axis

The term “vertical axis” is defined by the line which passes through the vertical centreline of the pattern.

The Hebrew letter DALETH can be “mirrored” (flipped over) or reflected about the vertical axis, as shown below (the shape and form of the letter remains unchanged):

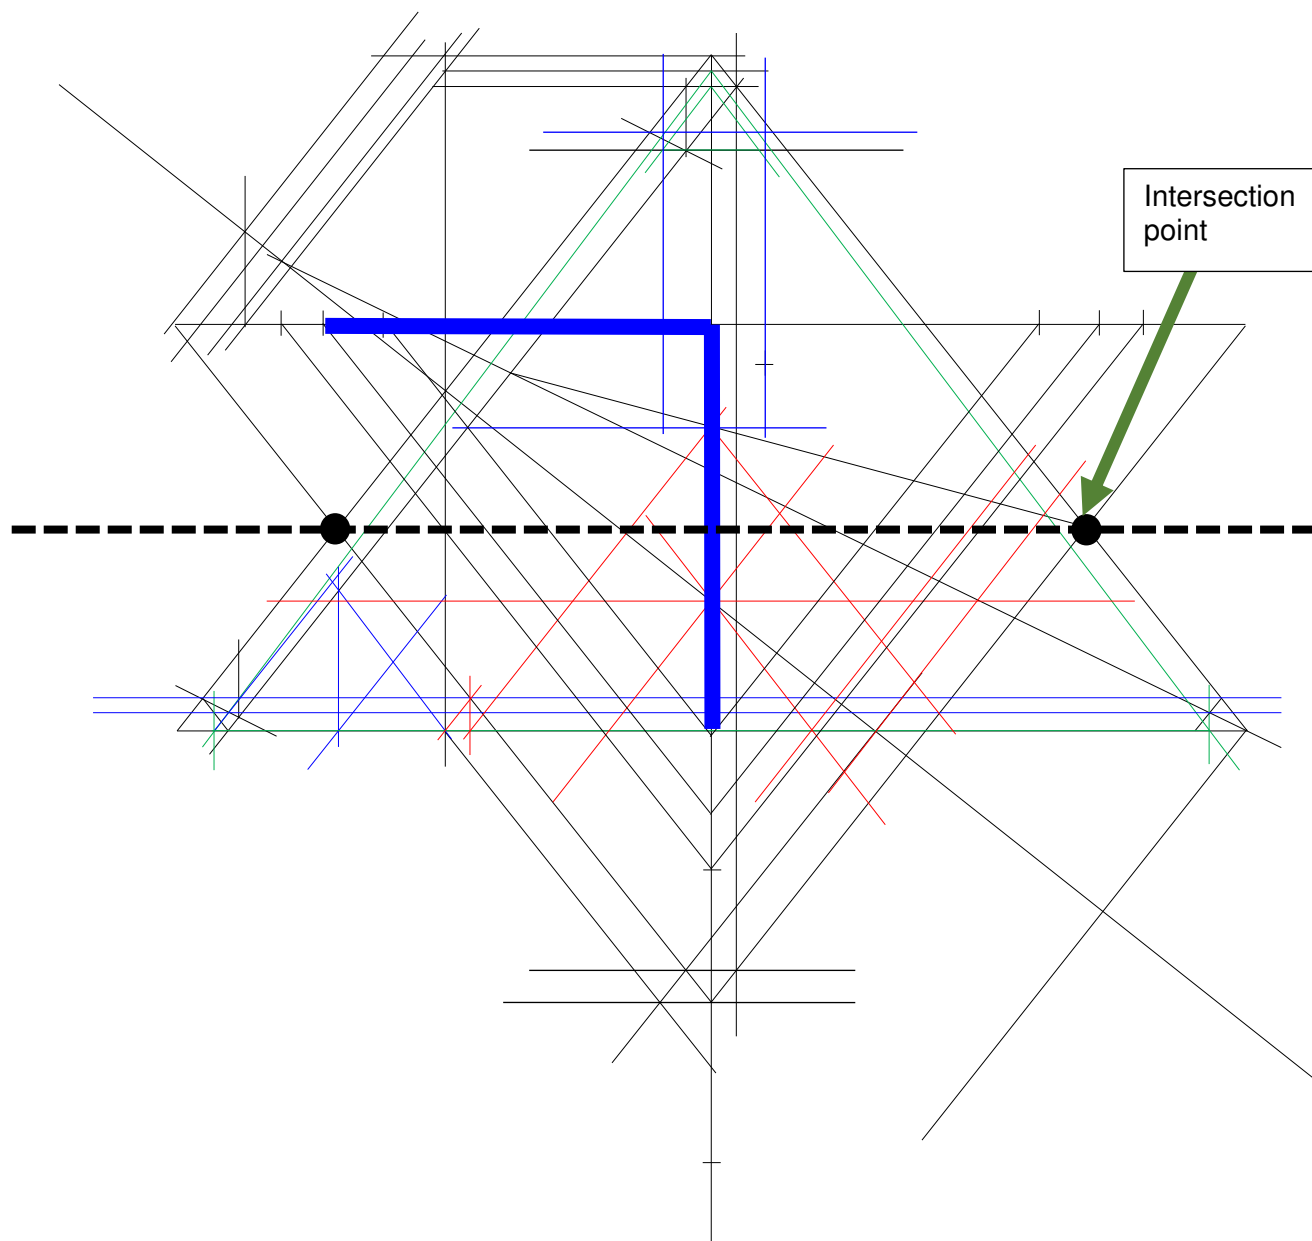

4.3.3 Reflection about the Vertical Axis (continued)

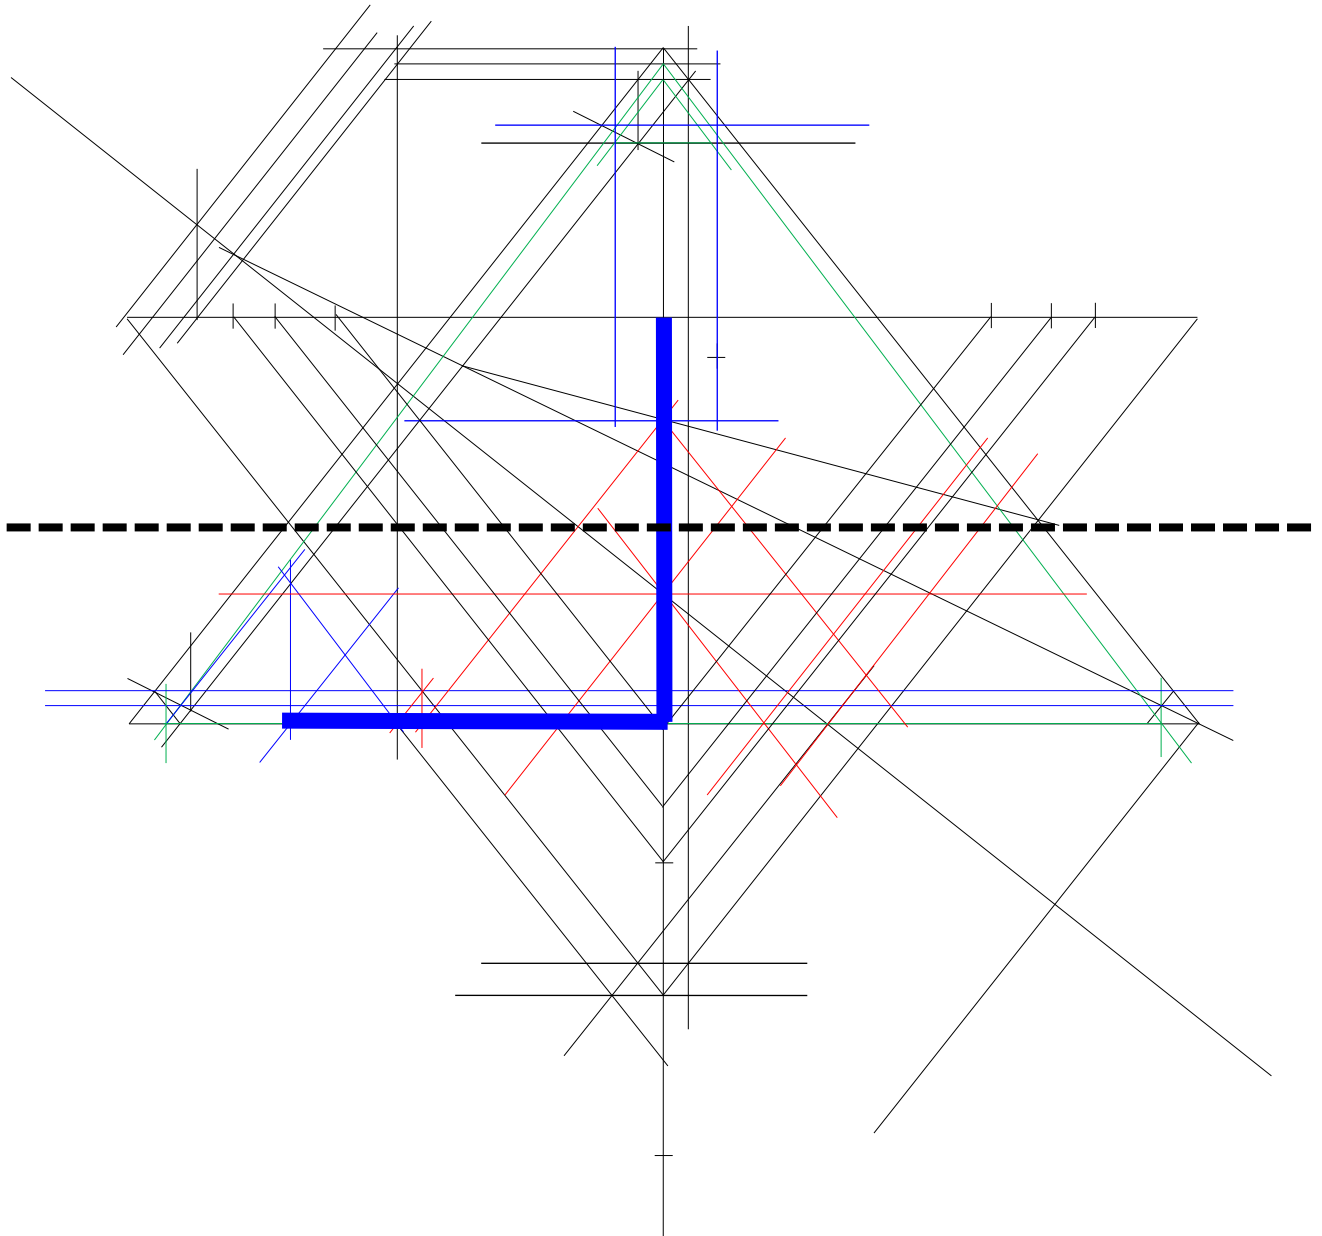

4.3.4 Reflection about the Horizontal Axis

The term “horizontal axis” is defined by the line which passes through the two intersection points defined by the two intersecting triangles.

The Hebrew letter DALETH can be “mirrored” (flipped over) or reflected about the horizontal axis, as shown below (the shape and form of the letter remains unchanged):

4.3.5 Reflection about the Horizontal Axis (continued)
