

Chapter 28 — Hiphil–Hophal Contrast Drill

BBH Chapter 28 · Hophal Strong Verbs

Each item gives a Hiphil or Hophal verb form from the biblical text. Identify the stem (Hiphil or Hophal), conjugation, PGN, and translate. Items are ordered by scripture reference. Answer key is on the last page.

Hiphil: prefix ה־ (perfect); ה־/י־ (imperfect/wayyiqtol/imperative/inf. construct); causative; active. Hophal: prefix vowel ק־ (qibbuts, strong roots) or י־ (shureq, biconsonantal/l-yod); passive of Hiphil.

Reflection Questions

1. Items 1, 4 (Hiphil ג.ל.ד) vs. 7, 19 (Hophal): In the Hiphil, a person tells; in the Hophal, information is told. What does this show about how Hebrew distributes agency in speech-reporting?
2. Items 10, 11, 22 are all Hiphil of ש.ל.ך (strong root). Without looking at context, what morphological feature marks each one's conjugation and PGN?
3. Items 9 (Gen 26:11) and 21 (Exo 19:12) use the identical Hophal Imperfect יִמָּוֶת in both a royal decree and divine law. What does the passive voice add that an active "I will kill" cannot?
