

Chapter 2 — Qamets or Qamets Hatuf?

Distinguishing Long A (Qamets) from Short O (Qamets Hatuf)

Both Qamets (long A) and Qamets Hatuf (short O) use the same T-bar shape. For each item you are told which consonant bears the T-bar vowel and its syllable context. Determine: (1) Syllable type — open or closed? (2) Is the syllable accented? (3) Is a metheg present? Then identify the vowel. Rule: Qamets Hatuf occurs in a CLOSED, UNACCENTED syllable with NO metheg.

#	Word	Vowel Under	Syllable	Accented?	Metheg?	Qamets or Qamets Hatuf?
1	שְׁלוֹם
