

Chapter 24 — Semantic Function Sorting

BBH Chapter 24 · Niphal Strong Verbs

Classify each Niphal verb as P (Passive), R (Reflexive), RC (Reciprocal), or SA (Simple Action). Write your answer in the Function column. Answer key is on the last page.

P = Passive (subject receives the action) | R = Reflexive (subject acts on/for itself) | RC = Reciprocal (subjects act on one another) | SA = Simple Action (Niphal-only root; no distinct Qal meaning)

Reflection Questions

1. Items 3, 14, 17, 20, and 23 are all Simple Action (ל.נ.ם and ג.נ.ם). What is the practical difference between a Niphal-only root and a root that simply lacks a Qal in the OT corpus?
2. Compare items 7 and 12 (both ע.ב.ש). The imperative and wayyiqtol appear in the same verse (Gen 47:31). How does the sequential narrative create a scene of formal oath-taking?
3. Item 18 (ה.א.ס) is Passive, yet it is an imperative. Explain how a Niphal imperative can be both a command and passive in force.
