

Chapter 31 — Qal–Piel Contrast Drill (Weak Roots)

BBH Chapter 31 · Piel Weak Verbs

Below are 15 weak-root Piel forms in three parts by weak class. For each: (1) translate the Piel form; (2) name the semantic function: I (Intensive), F (Factitive), D (Declarative), SA (Simple Action), or DN (Denominative); (3) compare with the Qal gloss to see what the Piel adds. Answer key at the bottom.

I-Guttural: gutturals reject dagesh; Piel shows compensatory lengthening. III-ה: perfect 3ms ends in הֵּ (qamets + dagesh-he) in Piel. I-י / Hollow: the first root consonant may assimilate or contract.

Part A — I-Guttural Roots

#	Hebrew	Root	Qal Gloss	Conjugation	Ref	Translation	Function
