

# Hebrew Vowel Chart

BBH Chapter 2 — All Vowels by Class and Type

| Class   | Long Vowels              |                                                                                      | Short Vowels                    | Reduced Vowels             |
|---------|--------------------------|--------------------------------------------------------------------------------------|---------------------------------|----------------------------|
|         | Plain                    | Vowel Letter (Mater Lectionis)                                                       |                                 |                            |
| a-class | ָ<br>Qamets <sup>1</sup> | ֶה<br>Qamets He                                                                      | ֶ<br>Pathach                    | ֶּ<br>Hateph Pathach       |
| e-class | ִ<br>Tsere               | ֶה<br>Tsere He<br><br>ֶּ<br>Seghol He<br><br>ִי<br>Tsere Yod<br><br>ִּ<br>Seghol Yod | ֶּ<br>Seghol                    | ֶּּ<br>Hateph Seghol       |
| i-class | —                        | ִי<br>Hireq Yod                                                                      | ֶּ<br>Hireq                     | —                          |
| o-class | ֹ<br>Holem               | ֹו<br>Holem Waw<br><br>ֶה<br>Holem He                                                | ֶּ<br>Qamets Hatuf <sup>1</sup> | ֶּּ<br>Hateph Qamets       |
| u-class | —                        | ֹוּ<br>Shureq                                                                        | ֶּּ<br>Qibbuts                  | —                          |
| —       | —                        | —                                                                                    | —                               | ֶּּּ<br>Shewa <sup>2</sup> |

<sup>1</sup> Qamets Hatuf (ֶּ) has the same visual shape as Qamets but is a short o-class vowel; context determines which is intended.

<sup>2</sup> Shewa (ֶּּּ) has no vowel class; vocal Shewa is a reduced vowel, silent Shewa has zero value.
