

Chapter 2 — Vowel Letter Identification

Hebrew Matres Lectionis — Waw, Yod, and He as Vowel Holders

For each Hebrew form: (1) Are any matres lectionis (vowel letters) present? (Yes / No). (2) If yes, which letter(s) — waw (ו), yod (י), or he (ה)? (3) Name the vowel — if a mater is present, give its compound name (e.g., Holem Waw); if no mater is present, give the plain vowel name (e.g., Qamets).
