

Chapter 26 — "Spot the Hiphil" Passage Exercise

Genesis 6–8 · Genesis 22 · Deuteronomy 7

Most highlighted verbs are Hiphil forms. For each one, first answer Is it Hiphil? (Yes / No). If Yes: fill in Conjugation, PGN, Root, and Function. If No: identify the correct stem and parse fully. Three verbs in this exercise are not Hiphil — drawn from Qal and Niphal already studied. The answer key begins on the page marked "Answer Key".

Reflection Questions

- Wayyiqtol dominates in Gen 6–8 but is absent from Passages D and E. What does this tell you about how genre — narrative vs. divine oracle (Gen 22) vs. legal instruction (Deut 7) — shapes conjugation choice in the Hiphil?
- Both Passage D (Gen 22:17) and Passage E (Deut 7:2) use the emphatic inf. absolute + imperfect pattern. What does the inf. absolute add beyond a plain imperfect? Are the two contexts — promise and command — using the emphasis for the same rhetorical purpose?
- In Gen 6–8, God is the subject of nearly every Hiphil; Noah appears as subject only at #11 and #13. What does this distribution of agency tell you about the theological architecture of the flood narrative?
