

Chapter 34 — Qal / Piel / Hithpael Contrast Drill (Strong Roots)

BBH Chapter 34 · Hithpael Strong Verbs

Five groups of three forms — each group shares a root in Qal, Piel, and Hithpael Perfect 3ms. For each: (1) identify the stem, (2) state the semantic function added, (3) translate. Note Group 3: root שׁרׁ has sibilant metathesis in the Hithpael (הִשְׁתַּחֲשֵׁרֵף → הִשְׁחַחֲשֵׁרֵף). Answer key at the bottom.

Hithpael: הִתְחַחֵף, prefix + Dagesh Forte in R2. Piel: Dagesh Forte in R2, no prefix. Qal: neither prefix nor dagesh in R2. Sibilant metathesis: when R1 = שׁ / שׁ / ס / צ / ר, the ת of הִתְחַחֵף swaps with R1.

Group 1 — Root: ■■■■ (to be holy)

#	Hebrew	Stem	Function	Translation
1	קִדֵּשׁ			
2	קִדֵּשׁ			
3	הִתְקַדֵּשׁ
